Broward MPO Complete Streets Advisory Committee (CSAC) Meeting Summary

On Monday, September 24, 2018, the Broward MPO with the assistance of Kimley-Horn and Urban Health Partnerships hosted the fourth Complete Streets Advisory Committee (CSAC) Meeting of 2018. At this meeting Slido, an interactive polling element was again incorporated into the meeting due to its success in previous meetings. This tool provided real-time data to be collected and allowed for more people to have input in the meeting.

Meeting Participants

Name			
First	Last	Email	Agency
Diana	Carrillo	diana.carrillo@oaklandparkfl.gov	City of Oakland Park
Erin	Celia	ecelia@flipany.org	Flipany
Tara	Crawford	tacrawford@broward.org	BCT
Horacio	Danovich	Horacio.Danovich@copbfl.com	City of Pompano Beach
Andrew	Disbury	adisbury@nlauderdale.org	City of North Lauderdale
Daniela	Flores	dflores@med.miami.edu	University of Miami
Laurie	Fucini-Joy	laurie@urbanhs.com	UHP
Stephanie	Garcia	garcias@browardmpo.org	BMPO
Vicki	Gatanis	gatanisv@sfria.fl.gov	SFRTA
Mark	Horowitz	mahorowitz@broward.org	Complete Streets Program Manager Broward County
Greg	Jett	gregory.jett@dot.state.fl.us	FDOT
Brynt	Johnson	brynt.johnson@oaklandparkfl.gov	City of Oakland Park
Lisa	Juan	lisa.juan@kimley-horn.com	Kimley-Horn and Associates
Lynne	Kunins	lkunins@flipany.org	FLIPANY
Roger	Lalanne	rlalanne@broward.org	Broward County
Garett	McAllister	gmcallister@broward.org	BCPC
Kris	McKirdy	kris.mckirdy@dot.state.fl.us	FDOT
Michael	Miller	michael.miller2@dot.state.fl.us	FDOT

Broward MPO Current Efforts

Let's Go Walking! 2018

The Let's Go Walking! 2018 event will be held on Saturday, October 20, 2018, from 5:00 p.m. – 7:30 p.m. in the City of Wilton Manors. It will be the Broward MPO's 3rd annual event and will be hosted in conjunction with Wilton Manors Arts and Entertainment Expo. After the walking event there will local artists selling merchandise, music, and access to local restaurants.

Action Item: Register for the event at <http://browardmpo.org/let-s-go-walking>

Walking Audits

Broward MPO will be conducting a series of Walking Audits in 2018 and 2019. The walking audits align with the projects identified in the Complete Streets Master Plan. All the audits will be set up on corridors scoped for complete streets improvement and the walking audit will help to determine community needs. The scheduled walking audits are:

- City of Lauderdale Lakes – Oakland Park Boulevard from University Drive to Inverrary Boulevard
 - Thursday, September 27, 2018, from 5:00 p.m. to 7:00 p.m.
- City of Deerfield Beach – Dixie Highway from Sample Road to Broward/Palm Beach County Line
 - Saturday, November 3, 2018, from 9:00 a.m. to 11:00 a.m.
- City of Lauderdale Lakes – NW 31st Avenue from Sunrise Boulevard to NW 44th Street
 - Thursday, November 29, 2018 from 3:00 p.m. to 5:00 p.m.

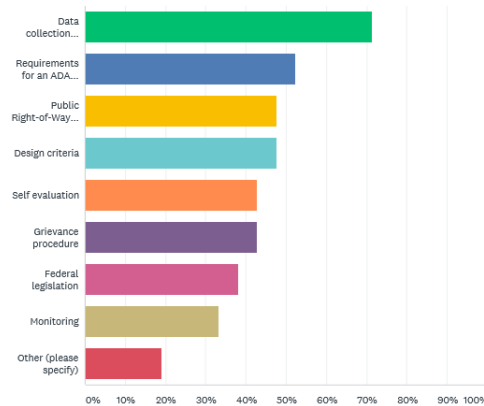

Action Item: Register for the events at <http://browardmpo.org/walking-audits>

Training Opportunities

On September 5, 2018 the ADA: Paving the Way Workshop was conducted. There were over 50 attendees, some even coming from Martin County, Miami-Dade County, and Palm Beach County. The topics that were covered during the training included the transition plan development process, best practices, and available resources. There is a plan to move forward with a series of training that will be related to various ADA topics.

What topics would you like to learn more about during future ADA Training workshops at the Broward MPO? (check all that apply)

Answered: 21 Skipped: 0

Upcoming trainings include:

- FHWA’s Scalable Risk Assessment Methods for Pedestrians and Bicyclists
 - Wednesday, October 24, 2018
 - Broward County is one of the focus communities that FHWA has selected for risk assessment method. FHWA and Kimley-Horn Associates will lead the training and will be hosted by the Broward MPO.
- ADA Workshop 2.0
 - Thursday, November 15, 2018
 - Tentative subject will be data collection

2019 Safe Streets Summit

The 6th annual Safe Streets Summit will take place on February 25 and 26, 2019 in Miami-Dade County. The theme for 2019 is “Safe Streets, Smart Streets,” bringing a focus on the implementation of innovative transportation efforts that address challenges of the future. This year’s Summit will seek to inspire decision makers and agencies to implement multimodal transportation solutions that expand travel options through first/last mile connections to transit and will emphasize the importance of actively incorporating

equity and inclusion throughout all efforts. The second day will be the mobile workshop portion of the Summit and will include 5 different tours for participants to choose an option based on their interests.

Action Item: Registration will open soon. Check out: www.safestreetssummit.org/

Meeting Presentations

Don't Forget Willie Foundation

Presented By Doris Span, Broward Resident

On October 2, 2014, Willie James Span, a 70-year-old Army veteran and Tamarac homeowner, was killed on West Commercial Boulevard in Tamarac, where the posted speed limit is 45 miles per hour. In honor of Willie, a non-profit organization was created with the vision of providing education and advocacy for pedestrian safety.

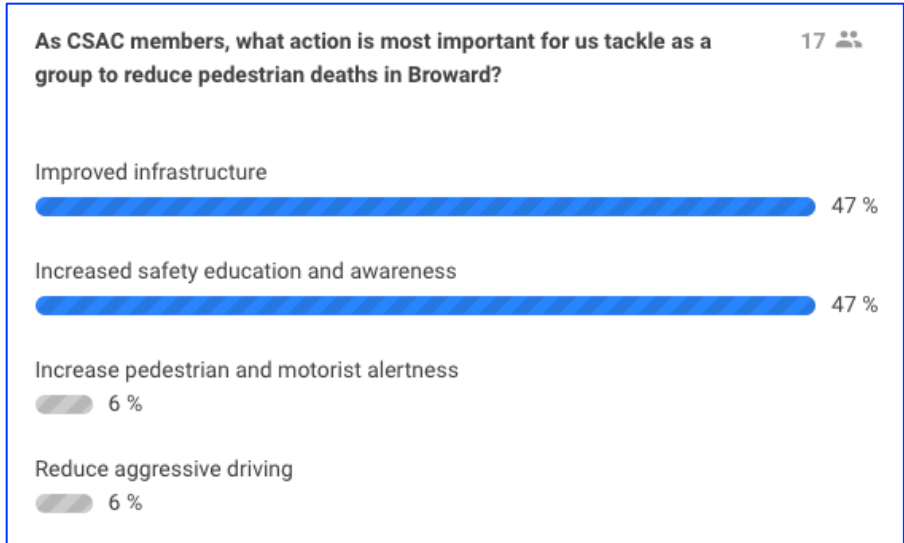

The Don't Forget Willie Foundation is focused on three main activities:

- Advocacy – pushing for road signage, signaling and the placement of bus stops that are sensible and safe.
- Education – Foundation President Doris Span, widow of Willie James Span, is available for presentations to schools, community, civic and faith organizations on the need for attention to pedestrian safety within our South Florida neighborhoods.
- Scholarships – Award small scholarships to college students who are pursuing certificate or degree programs in urban planning, traffic engineering or any field related to the focus area of pedestrian safety.

Current activities for the Don't Forget Willie Foundation include working with the City of Tamarac to partner on hosting a Pedestrian Safety Month every year. The month would include a variety of activities to increase awareness of pedestrian safety, such as a pedestrian safety day, nightwalk event, citylife rally, and fundraising concert.

After the presentation, CSAC members provided feedback on the most important action to address a cutback of pedestrian deaths in Broward.

UM WalkSafe/BikeSafe Presented by Daniela Flores, WalkSafe Coordinator

The UM WalkSafe and BikeSafe program mission is to decrease the number of pediatric pedestrians and bicyclist injuries, increase physical activity and encourage the use of walkable and bikeable environments. It is currently present in five counties: Broward, Monroe, Miami-Dade, Osceola, and Orange County. WalkSafe and BikeSafe programs both include pedestrian and bicycle safety curriculum.

The WalkSafe program is an elementary level program and is taught over three days. During the three days, students are taught the pedestrian safety skills in the classroom, provided with an outside street crossing simulation, and on the third day participate in a poster contest to show what they learned.

The BikeSafe program is an off-bike curriculum for four days with an optional fifth day on the bike. The program teaches students the key safety concepts such as proper helmet fit, visibility, and predictability. It meets the Florida standards and it is entirely free. On day one students learn basics helmet fit and how the brain functions when riding. Day two is focused on preparing to ride, so they learn what to know before riding a bicycle. On day three they learn the rules of bicycling and on day four they do the course overview and off-bike riding simulation.

The UM WalkSafe and BikeSafe programs require schools to report back the number of students that participated in the pedestrian and bicycle safety curriculum. Last year in Broward, 63 schools were trained and the curriculum was implemented at 12 schools. The total number of students that participated in the program was 6,333.

CSAC members at the September meeting provided insight through a polling question.

What actions can you take to promote WalkSafe/BikeSafe program in Broward and to increase walking and bicycling education to children? 0 1 0

- make sure projects within county provide pedestrian and bike facilities
- I think as individuals making sure children know the correct way to cross the street is important. The education and enforcement piece needs to be in place. There needs to be consequences for crossing the street wrong.
- Request local board & community leaders to schedule locals walk/bikesafe programs.
- Attending and advocating Community engagement events promoting awareness
- Mandate education in schools like Miami Dade
- .
- Encourage transit use
- Connect and advocate
- Design pedestrian and bike facilities for improved safety
- Schedule presentaion to group of principals.

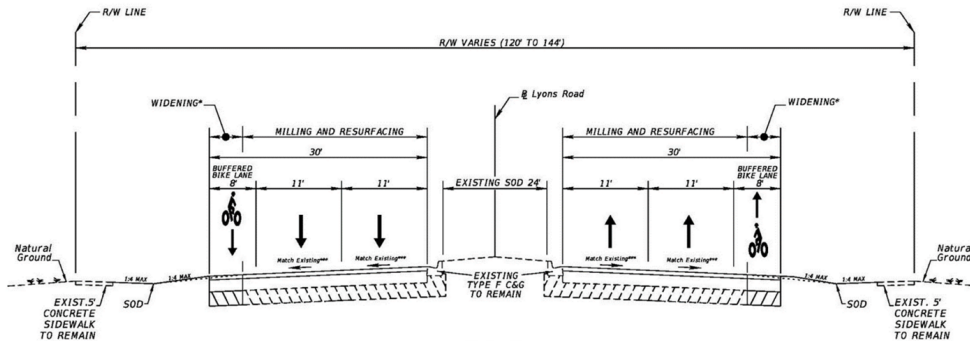

Lyons Road Mobility Project

Presented by Brad Salisbury, FDOT Project Manager

The Lyons Road Mobility Project is a partnership between multiple agencies including FDOT, City of Coconut Creek, Broward MPO, and Broward County. The predominant scope of work for the Lyons Road Mobility Project is the construction of bike lanes in both directions on Lyons Road. Additional elements include roadway resurfacing,

sidewalks, patterned pavement crosswalks, and updated lane restriping. The 5-mile project begins south of Atlantic Boulevard and ends at Sawgrass Expressway.

The existing roadway right-of-way of Lyons Road is 120'. The project requires only minor roadway widening with no impact to the medians. A minimum 4' designated bike lane with 3' buffers will be constructed as part of the project and where adequate right-of-way exists a 5' bike lane will be installed.

There are several segments along the corridor that have missing sidewalks, specifically Copans Road to Sample Road. The project will work to reduce or eliminate a turn lane in the segment in order to provide a sidewalk. In addition, as part of this project, the design team is working with Coconut Creek and Broward County Transit to improve bus stop pads with the trash cans, bike racks, and bus shelters where needed.

There are two future projects that will collectively make significant improvements to the area. Broward County is planning improvements to the Sawgrass Expressway that include six vehicles lanes, two bike lanes, and sidewalk on each side of the road. Also, FDOT is planning an interchange project on the Turnpike which is expected to include eliminating the bike facilities gap by adding the bike lanes.

What potential outcomes from the Lyons Road improvements are most beneficial to the area? 0 1 5

- The 3 foot buffer included into the 5 foot bike lane.
- physical well being
- My bicycle trips.
- Safety for all. Pedestrians, cars and bike riders.
- Safer bike rides
- Buffered bike lanes
- Bike and pedestrian improvement
- 8 buffered bike lanes and increased bus transit ridership
- Improved mobility
- More residents
- Alternative modes!
- non-motorized access
- Cars off the road
- Buffered bike lane
- Bike lanes

Next Steps

Member Updates

- Mark Horowitz is planning for Florida's March Bike Month and will be hosting Bike Rodeo training in February. If CSAC members are interested in participating, please contact him.
- FLIPANY is offering an educational program called Earn-a-Bike to children in Broward. The program is a six-week course where children learn about bike safety, maintenance, and skills and earns a bike at the end of the program. Reach out to FLIPANY if your City is interested.
