

**Data Dictionary / Metadata for  
'TAZ2000'**

**Identification Information:**

Name	Last Update	Edition	Update Frequency
TAZ2000	10/2004	1.0	When changes occur
Description	Traffic Analysis Zones boundaries in Broward County, Florida. The TAZ boundaries conform to the 2000 census tract boundaries and can correspond with major or minor streets, water topology, municipal boundaries, section lines, changes in land use, etc.		
Purpose	Traffic Analysis Zones are required for long-range transportation modeling purposes. Demographic, socio- economic, and other information can be summarized by TAZs. This information can then be used in transportation forecast models (i.e., FSUTMS) for trip generation and distribution.		
Limitations	None		
Features	Polygons		
Extent	Urban area of Broward County, Florida		
Projection	State Plane Coordinate System, feet, Zone 3601, NAD83
