	Pedestrian Facilities	Various locations as identified by the corridor planning study				
	Greenway	Various locations as identified by the corridor planning study				

STATUS
For MPO initiated planning studies and administration. Details provided in the UPWP.
FDOT is now the sponsor of the project. (anticipated construction November 2017 - August 2020).
Per FDOT, set aside is not viable. MPO and FDOT will work on developing projects such as an EV master plan, working with Broward County.
First cycle nearing completion, ready to begin programming. Following up with FDOT, need next steps, lessons learned, etc. before start of next cycle.
Corridor remains on list for the implementation of any remaining recommendations from the FDOT led study. Most short term improvements are programmed. Remaining projects longer term.
Preliminary Engineering funds programmed in Fiscal Year 2017 for first round of feasible short-term recommendations (FM# 4295691). Preliminary Engineering funds programmed in Fiscal Year 2018 for El Mar Drive Greenway mobility project (From Palm Avenue to Pine Avenue - FM# 4377861). Corridor remains on list for the implementation of any remaining recommendations from the FDOT led study.
Corridor remains on list for the continued implementation of recommendations from the MPO led study. Programming pending for preliminary engineering.
Preliminary Engineering funds programmed in Fiscal Year 2017 for first round of feasible short-term recommendations (FM# 4320663). Corridor remains on list for the continued implementation of recommendations from the MPO led study.
Right of way programmed 2020 and 2021. May be combined with Coral Springs CSLIP project.
Corridor remains on list for the continued implementation of recommendations from the Broward County led study. Capital improvements should not exceed \$3.7 million. Design to begin soon.
Corridor recommendations recently endorsed by the MPO on July 14, 2016. Preliminary Engineering funds programmed in Fiscal Year 2018 for first round of feasible short-term recommendations (FM# 4295761). Preliminary Engineering funds programmed for Fiscal Year 2018 on Turtle Creek Drive mobility project (from Turtle Creek Drive through Cullum Road, through NW 54th Avenue, through NW 31st Street, through NW 62nd Avenue to Turtle Creek Drive - FM# 4378301). Corridor remains on list for the continued implementation of recommendations from the MPO led study.
Study efforts are underway by FDOT for the eastern and western portions of this corridor. In addition, FDOT and BCT are coordinating transit connectivity data collection for the entire corridor. Other than the current efforts underway, the full Sunrise Boulevard Corridor Study is on hold until more projects recommended for the above studies receive funding and until the MPO's Bicycle/Pedestrian Safety Action Plan and Complete Streets Master Plan (currently underway) are complete. Improvements from the Action Plan and Master Plan may include improvements for this corridor.

TRANSIT/MULTIMODAL*		MULTIMODAL		GREENWAY		BICYCLE		PEDESTRIAN		ROADWAY	
PRIORITY	PROJECT	LIMITS	TYPE OF WORK	ESTIMATED COSTS		NOTES	STATUS				
				Annual Operating (\$1000)	Capital (\$1000)						
14	Sample Rd Transit Corridor ***	University to Dixie Hwy	Capital improvements for transit service performance		\$5,800	See *** at the bottom of the sheet.	The Sample Road Corridor Study is on hold until more projects recommended for the above studies receive funding and until the MPO's Bicycle/Pedestrian Safety Action Plan and Complete Streets Master Plan (currently underway) are complete. Improvements from the Action Plan and Master Plan may include improvements for this corridor.				
	Mobility Hubs	Various locations as identified by the corridor planning study									
	Bicycle Facilities	Various locations as identified by the corridor planning study									
	Pedestrian Facilities	Various locations as identified by the corridor planning study									
	Greenway	Various locations as identified by the corridor planning study									
15	Pembroke Rd	University Dr to Douglas Rd	From 4 to 6 lanes (6LD)		\$25,300	PD&E programmed in 2018 and 2019. Miramar provided resolution to remove this project from the priorities list. Because this facility is located within the cities of Miramar and Pembroke Pines, a resolution from the City of Pembroke Pines is also required. MPO staff will coordinate with FDOT and cities given programming of PD&E.					
16	NE 3rd Ave	Copans Rd to Sample Rd	Reconstruct roadway to include multimodal alternatives		\$21,200	Project on hold pending discussion with local municipality(s)					
17	Pembroke Rd	W of Florida's Turnpike to SR 7 / US 441	Restripe for 6LD		\$13,100	Project on hold pending discussion with local municipality(s)					
18	Pembroke Rd	SW 160th Ave to SW 184th Ave	From 2 to 4 lanes (4LD)		\$28,900	City of Miramar provided resolution requesting to move this project up on the priorities list.					
19	Pembroke Rd	SW 184th Ave to SW 200th Ave	New 4 lanes (4LD)		\$53,100						
20	SW 148th Ave	Bass Creek Rd to Miramar Pkwy	From 2 to 4 lanes (4LD)		\$27,300						
21	Oakland Park Blvd.	At Powerline Rd.	Intersection Improvements		\$14,500	Project on hold pending discussion with local municipality(s)					
22	SR-7	At Oakland Park Blvd	Intersection Improvements		\$1,800	May need resolution from city. Recommendations for this intersection may come from the Oakland Park Boulevard Corridor Study and the recently completed SR 7 Corridor Study. The City of Lauderdale Lakes provided the following: • all recommendations for improvements at this intersection are currently being developed by FDOT D4 Modal Development staff • Marjorie Hillaire of FDOT D4 is the contact person for this project					
23	Pines Blvd.	At Flamingo Rd.	Intersection Improvements		\$1,400	PD&E was conducted by FDOT. City not interested in recommendations. May need resolution from City. The City of Pembroke Pines provided the following: We have reviewed the SR 820 Pines Boulevard/Flamingo Rd intersection for possible improvements and request consideration of the following projects: 1. Replacement of strain-pole/span-wire signal supports with mast arm signal supports and all pedestrian signal upgrades. 2. Construction a southbound dual right turn lane from southbound Flamingo Road to westbound Pines Blvd. turning movement as well as lengthening of the turn lane.					
24	Sample Rd.	At Military Trail	Intersection Improvements		\$1,400	Project on hold pending discussion with local municipality(s)					
25	Griffin Rd	I-75 to Flamingo Rd	From 4 to 6 lanes (6LD)		\$35,700	PD&E programmed in 2020 and 2021					
26	University Dr.	Holmberg Rd to County Line Rd	From 2 to 4 lanes (4LD)		\$34,100						
27	SW 196th Ave	Miramar Pkwy to Pines Blvd	From 2 to 4 lanes (4LD)		\$47,500	This roadway requires new four lane roadway from Miramar Parkway to Pembroke Road.					
28	SW 184th Ave	Sheridan St to Griffin Rd	New 2 lanes		\$36,200						
29	NE 3rd Ave/SW 11th Way	Sample Rd to SW 10th St	From 2 to 4 lanes (4LD)		\$38,000						
30	Modern Trolleys	City of Fort Lauderdale	Purchase 15 trolley vehicles		\$5,700	Per Fort Lauderdale staff, this is for replacement vehicles only., not new routes. No O&M required.					
31	Wayfinding Program	City of Fort Lauderdale	Install Wayfinding		\$1,500	State funding cannot be used for this off-system project. Applying for CSLIP is better option. MPO staff to work with Fort Lauderdale, may need resolution to remove.					
32	Downtown ITS System	Downtown Fort Lauderdale	Install ITS components		\$1,100	MPO and City Staff are working together to further explore this project and its scope to determine if this project is still a priority for the City and other potential funding opportunities.					

TRANSIT/MULTIMODAL*		MULTIMODAL	GREENWAY	BICYCLE	PEDESTRIAN	ROADWAY
PRIORITY	PROJECT	LIMITS	TYPE OF WORK	ESTIMATED COSTS		NOTES
				Annual Operating (\$1000)	Capital (\$1000)	
33	Rock Island Rd	At Royal Palm Blvd	Reconstruct intersection		\$500	
34	NE 6th Avenue	Prospect Rd. to Commercial Blvd.	Reconstruct roadway		\$1,900	
35	SR A1A	At SR 858/Hallandale Beach Blvd to SR 820/Hollywood Blvd	Reconstruct roadway to include multimodal alternatives		\$16,100	
36	NW 136th Avenue	I-595 to NW 2nd St	Add turn-lanes at grade		\$10,300	
37	Oakland Park Bridge Improvements	Citywide	Reconstruct bridges		\$4,500	
38	Wiles Road	Sawgrass Expressway to Coral Ridge Dr	Reconstruct to include multimodal alternatives		\$3,500	
39	SR 820/Hollywood Blvd	At SW 62nd Ave	Reconstruct intersection		\$300	
40	SE 2nd Street Extension	SR 5/US 1 to Layne Blvd	New 2 lanes		\$56,600	
41	SE 9th Street	At FEC Railroad Crossing	Upgrade railroad crossing		\$15,600	
42	Broward Signal Network	Broward County	Install fiber-optic signal components		\$24,000	Added to be consistent with the LRTP
43	FDOT Signal Network	Broward County	Install fiber-optic signal components		\$109,600	Added to be consistent with the LRTP

* Includes TSM&O/ITS application as described in the LRTP

** At the September 16, 2010 MPO meeting, Broward Blvd. and Oakland Park Blvd. Transit Corridors were approved as the #1 and #2 Premium Transit priorities, respectively.

*** Funding of future corridor study efforts suspended until projects identified in the completed and underway corridor studies and the Complete Master Plan have begun to be implemented. If additional funding is identified in the near future then corridor study efforts will resume

STATUS
The City of Margate provided the following: <ul style="list-style-type: none"> Recommend that FDOT explore all mitigation options including additional travel lane and turn lanes (although availability of additional ROW will be a challenge) and signal timing optimization. There are currently one left turn lane, two thru lanes, and one right turn lane approaching the intersection. If ROW is a problem, perhaps the lanes could be repurposed so that some lanes allow thru and turning movements and the signalization modified to facilitate more opportunities for turning (left turns in particular) movements. Recommend improvements made consider all users of the intersection. Pedestrian improvements could include enhanced pedestrian crossing markings, maintaining and enhancing safe landing zones at crossings, and replacing pedestrian signals with countdown signals versus the existing "blinking hand" signals. Recommend the replacement of overhead wire traffic signals with mast arms. Recommend improvements that consider tightening the intersection by facilitating the ability to move the transit stops closer to the intersection and exploring the sidewalk and bicycle connections to the transit stops
Scope of this project is needed from city?
MPO Staff is following up on Scope of this project. This may be a Complete Streets project.
Scope of this project is needed?
Need more details from city about bridges, location, design elements, etc.
Scope of this project is needed? This may be a Complete Streets project.
Scope of this project is needed.
Scope needed. Is this over and above what is being done for quiet zones?
Scope of this project is needed.
Scope of this project is needed.
