As a recipient of federal funds, the BMPO is required to establish a Disadvantaged Business Enterprise (“DBE”) Program and a DBE participation goal when it is anticipated that more than $250,000 of federal funding will be available for 3rd party contracting opportunities within the federal fiscal year. The BMPO developed a Disadvantaged Business Enterprise (“DBE”) Program with an overall goal of 8% DBE participation, and submitted the DBE Program to the Federal Transit Administration (“FTA”) for approval. When a BMPO project is funded with assistance from the Federal Highway Administration (“FHWA”) the overall DBE participation goal is 9.91%. To meet the DBE participation goal, an equivalent percentage of the contracted labor must be performed by DBE’s as prime contractors or through subcontract and/or joint venture projects. For more information on the BMPO DBE Program and how the BMPO calculates its DBE Program goal, please refer to the BMPO Disadvantaged Business Enterprise Program document located on the BMPO web site at: http://www.browardmpo.org.

The BMPO is required to track and report DBE contracting activities and payments to the FTA and FHWA semi-annually (December 1st and June 1st). Successful Proposer(s) shall agree to assist the BMPO in the completion of any documents required to be submitted to the FTA or FHWA for compliance with the DBE program. Proposers shall complete and submit the Anticipated DBE Participation Statement and the Bid Opportunity List provided in this RFP.

IN CONSIDERATION OF THE MUTUAL COVENANTS AND CONDITIONS HEREIN EXPRESSED AND THE FAITHFUL PERFORMANCE OF ALL SUCH COVENANTS AND CONDITIONS, THE PARTIES AGREE AS FOLLOWS:

SECTION 1. SCOPE OF SERVICES

1.1 The CONTRACTOR must meet the requirements and perform the services identified in the Request for Proposals for the BMPO’s 2045 Regional Transportation Plan, RFP No. 17-05, dated ________________, (“RFP”), referenced hereto and made a part hereof, as Exhibit “A”, and the CONTRACTOR’s Proposal, attached hereto and made a part hereof, as Exhibit “B”; and

1.2 The Federal Transit Administration (“FTA”) Required Contractual Provisions (attached hereto as Exhibit “C-1”), and the Federal Highway Administration (“FHWA”) Required Contractual Provisions (attached hereto as Exhibit “C-2”), collectively hereafter referred to as the “Federal Contractual Provisions” are attached hereto and made a part hereof, collectively as Exhibit “C”. Prior to beginning the performance of any services under this Agreement, the CONTRACTOR will be provided with a Notice to Proceed from the BMPO. This Notice to Proceed will specify the applicable Federal Contractual Provisions which will apply to this Agreement and the services to be provided accordingly.

1.3 The parties agree that the Services and the Federal Contractual Provisions, as specified in Exhibits “A”, “B” and “C”, (hereinafter collectively referred to as the “Scope of Services” or “Services”) contain the description of Contractor’s obligations and responsibilities and are deemed to include preliminary considerations and prerequisites, and all labor, materials, equipment and tasks which are such an inseparable part of the work described that exclusion would render performance by Contractor impractical, illogical, or unconscionable.

1.4 CONTRACTOR agrees and acknowledges that CONTRACTOR is prohibited from exempting provisions of the Scope of Services and this Agreement in any of CONTRACTOR’s Services pursuant to this Agreement.

SECTION 2. TERM

2.1 The term of this Agreement will be for a period of Five (5) Years (the “Term”) which shall begin on the date it is fully executed by both parties and shall remain in effect until such a time as the Services acquired in conjunction with this RFP have been completed and accepted by the BMPO in accordance with this Agreement and the terms of the Request for Proposals. After the initial five (5) year term, the BMPO shall have the option to extend the Term, at its discretion, for two (2) one year extensions. To exercise one or both annual extension(s), the BMPO, through its Executive Director, shall notify
CONTRACTOR, in writing, at least 90 days, prior to the expiration of the then current term.

2.2 Prior to beginning the performance of any services under this Agreement, the CONTRACTOR must receive a Notice to Proceed. CONTRACTOR shall perform the services describe in the Scope of Services within the time periods specified therein, said time periods shall commence from the date of the Notice to Proceed for such Services; **however this Agreement shall terminate no later than ______________**, unless terminated earlier pursuant to Section 4 of this Agreement.

2.3 The BMPO through its Executive Director and the CONTRACTOR may further extend this Agreement by mutual consent, in writing, for no more than six (6) months, prior to the expiration of the then current term. This provision in no way limits either party’s right to terminate this Agreement at any time during the initial term or any extension thereof, pursuant to Section 4 of the Agreement.

**SECTION 3. COMPENSATION**

3.1 In consideration for the Scope of Services to be performed by CONTRACTOR pursuant this Agreement, the BMPO agrees to pay CONTRACTOR, in the manner specified in the Scope of Services, the total amount not to exceed

_________________________ AND NO/100 Dollars ($____________.00), contingent upon the appropriation of funds. The BMPO shall request consultant services on an as-needed basis. There is no guarantee that any or all of the services described in Exhibit “A” will be assigned during the term of this Agreement. The BMPO may, at its option, elect to have any or all of these specified services. The amount of compensation payable by the BMPO to CONTRACTOR shall be based upon the amounts negotiated between the parties as indicated on attached Exhibit "B", which amount shall be accepted by CONTRACTOR as full compensation for all such work performed under this Agreement. It is acknowledged and agreed by CONTRACTOR that these amounts are the maximum payable and constitute a limitation upon BMPO’S obligation to compensate CONTRACTOR for its Services related to this Agreement. This maximum amount, however, does not constitute a limitation of any sort, upon CONTRACTOR’s obligation to perform all items of work required by or which can be reasonably inferred from the Scope of Services.

3.1.1 Prior to beginning the performance of any services under this Agreement, the BMPO and the CONTRACTOR shall define specific services to be performed and deliverables for these services and sign separate task work orders. Each work order will specify a scope of work, time schedule and the compensation for those specific services. Once signed by both parties each work order and a Notice to Proceed will function as the authorization for the CONTRACTOR to compete the services and deliverables. CONTRACTOR shall perform the services
described in the Scope of Services and each work order within the time periods specified therein, said time periods shall commence from the date of the Notice to Proceed for such Services.

3.2 CONTRACTOR may submit an invoice for compensation, developed and agreed upon by the BMPO Executive Director and CONTRACTOR, no more often than on a monthly basis, but only after the services for which the invoices are submitted have been completed. Invoices shall designate the nature of the services performed and shall also show a summary of fees with accrual of the total and credits for portions paid previously.

3.3 BMPO shall pay CONTRACTOR in accordance with the Florida Prompt Payment Act. Additionally, payment may be withheld by the BMPO Executive Director for failure of CONTRACTOR to comply with a term, condition or requirement of this Agreement.

3.4 Notwithstanding any provision of this Agreement to the contrary, the BMPO Executive Director may withhold, in whole or in part, payment to the extent necessary to protect BMPO from loss on account of inadequate or defective work which has not been remedied or resolved in a manner satisfactory to the Executive Director. The amount withheld shall not be subject to payment of interest by BMPO.

3.5 Payment shall be made to CONTRACTOR at:

________________________________
________________________________
________________________________
________________________________

3.6 CONTRACTOR agrees to keep such records and accounts as may be necessary in order to record complete and correct entries as to personnel hours charged for which CONTRACTOR receives reimbursement for a period of at least three (3) years after completion of the work provided for in this Agreement. Such books and records shall be available at all reasonable times for examination and audit by BMPO.

3.7 If it should become necessary for BMPO to request CONTRACTOR to render any additional services to either supplement the services described in the RFP or to perform additional work, such additional work shall be performed only if set forth in an addendum to this Agreement. Any such additional work agreed to by both parties shall be performed at the same rate in the schedule of fees included in Exhibit “B-1”.

SECTION 4. TERMINATION

4.1 This Agreement may be terminated for cause by action of the BMPO Board if the CONTRACTOR is in breach and has not corrected the breach within thirty (30) days after written notice from the BMPO identifying the breach, or for convenience by action of the BMPO Board upon not less than sixty (60) days' written notice by the BMPO Executive Director.

4.2 This Agreement may be terminated for cause by the CONTRACTOR if the BMPO is in breach and has not corrected the breach within sixty (60) days after written notice from the CONTRACTOR identifying the breach.

4.3 Termination of this Agreement by the BMPO for cause shall include but not be limited to, failure to suitably perform the services, failure to continuously perform the services in a manner calculated to meet or accomplish the objectives of BMPO as set forth in this Agreement or multiple breaches of the provisions of this Agreement notwithstanding whether any such breach was previously waived or cured.

4.4 Notice of termination shall be provided in accordance with the “NOTICES” section of this Agreement.

4.5 In the event this Agreement is terminated for convenience, CONTRACTOR shall be paid for any services performed to the date the Agreement is terminated; however, upon being notified of BMPO’s election to terminate, CONTRACTOR shall refrain from performing further services or incurring additional expenses under the terms of this Agreement.

4.6 In the event this Agreement is terminated, any compensation payable by BMPO shall be withheld until all documents are provided to BMPO pursuant to Section 7.2 of this Agreement. In no event shall the BMPO be liable to CONTRACTOR for any additional compensation, other than that provided herein, or for any consequential or incidental damages.

SECTION 5. INDEMNIFICATION

To the fullest extent permitted by law, the CONTRACTOR hereby agrees to indemnify and hold harmless the BMPO, and its officials, employees and agents, from liabilities, damages, losses and costs including, but not limited to, reasonable attorneys’ fees, to the extent caused by the negligence, recklessness, or intentionally wrongful conduct of the CONTRACTOR and other persons employed or utilized by the CONTRACTOR in the performance of this Agreement. The provisions of this section shall survive the expiration or earlier termination of this Agreement. To the extent considered necessary by the BMPO Executive Director and the BMPO Attorney, any sums due CONTRACTOR under this Agreement may be retained by BMPO until all of BMPO’S claims for indemnification pursuant to this Agreement have been settled or otherwise resolved; and any amount withheld shall not be subject to payment of interest by BMPO.
SECTION 6. INSURANCE

6.1 In order to insure the indemnification obligation contained above, CONTRACTOR shall, at a minimum, provide, pay for, and maintain in force at all times during the term of this Agreement, the insurance coverages as set forth in the RFP (Exhibit “A”). This Agreement shall not be deemed approved until the CONTRACTOR has obtained all required insurance coverages and has supplied the BMPO with evidence of such coverage in the form of a Certificate of Insurance and endorsement. The BMPO shall approve such certificates prior to the performance of any services pursuant to this Agreement.

6.2 CONTRACTOR shall make this same requirement binding on any of its subcontractors. CONTRACTOR shall indemnify and save the BMPO harmless from any damage resulting to them for failure of any subcontractor to take out or maintain such insurance.

SECTION 7. MISCELLANEOUS

7.1 Contract Administrator. The Contract Administrator is responsible to coordinate and communicate with CONTRACTOR and to manage and supervise the execution and completion of the Services and the terms and conditions of this Agreement as set forth herein.

7.2 Ownership of Documents. Unless otherwise provided by law, any and all reports, surveys, and other data and documents provided or created in connection with this Agreement are and shall remain the property of BMPO. In the event of termination of this Agreement, any reports, photographs, surveys and other data and documents prepared by CONTRACTOR, whether finished or unfinished, shall become the property of BMPO and shall be delivered by CONTRACTOR to the BMPO Executive Director within seven (7) days of termination of this Agreement by either party. Any compensation due to CONTRACTOR shall be withheld until all documents are received as provided herein.

7.3 Audit and Inspection Rights and Retention of Records. BMPO shall have the right to audit the books, records and accounts of CONTRACTOR that are related to this Agreement. CONTRACTOR shall keep such books, records, and accounts as may be necessary in order to record complete and correct entries related to this Agreement.

CONTRACTOR shall preserve and make available, at reasonable times for examination and audit by BMPO, all financial records, supporting documents, statistical records, and any other documents pertinent to this Agreement for the required retention period of the Florida Public Records Act (Chapter 119,
Florida Statutes), if applicable, or, if the Florida Public Records Act is not applicable, for a minimum period of three (3) years after termination of this Agreement, unless CONTRACTOR is notified in writing by BMPO of the need to extend the retention period. Such retention of such records and documents shall be at CONTRACTOR’S expense. If any audit has been initiated and audit findings have not been resolved at the end of the retention period or three (3) years, whichever is longer, the books, records, and accounts shall be retained until resolution of the audit findings. If the Florida Public Records Act is determined by BMPO to be applicable to CONTRACTOR’S records, CONTRACTOR shall comply with all requirements thereof; however, no confidentiality or non-disclosure requirement of either federal or state law shall be violated by CONTRACTOR. Any incomplete or incorrect entry in such books, records, and accounts shall be a basis for BMPO’s disallowance and recovery of any payment upon such entry.

In addition, CONTRACTOR shall respond to the reasonable inquiries of successor Contractors and allow successor Contractors to receive working papers relating to matters of continuing significance.

In addition, CONTRACTOR shall provide a complete copy of all working papers to the BMPO, prior to final payment by the BMPO, in accordance with the RFP for CONTRACTOR services.

7.4 **Policy of Non Discrimination.** CONTRACTOR shall not discriminate against any person in its operations, activities or delivery of services under this Agreement. CONTRACTOR shall affirmatively comply with all applicable provisions of federal, state and local equal employment laws and shall not engage in or commit any discriminatory practice against any person based on race, age, religion, color, gender, sexual orientation, national origin, marital status, physical or mental disability, political affiliation or any other factor which cannot be lawfully used as a basis for service delivery. CONTRACTOR agrees to comply with the provisions set forth in attached Appendix “A”, including Contractor’s responsibility to incorporate the provisions in subcontracts, throughout the term of this Agreement.

7.5 **Public Entity Crime Act.** CONTRACTOR represents that the execution of this Agreement will not violate the Public Entity Crime Act (Section 287.133, Florida Statutes), which essentially provides that a person or affiliate who is a contractor, consultant or other provider and who has been placed on the convicted vendor list following a conviction for a Public Entity Crime may not submit a bid on a contract to provide any goods or services to BMPO, may not submit a bid on a contract with BMPO for the construction or repair of a public building or public work, may not submit bids on leases of real property to BMPO, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with BMPO, and may not transact any business with BMPO in excess of the threshold amount provided in Section 287.017, Florida Statutes, for category two purchases for a period of thirty six (36) months from the date of being placed on the convicted vendor list.
list. Violation of this section shall result in termination of this Agreement and recovery of all monies paid hereto, and may result in debarment from BMPO’S competitive procurement activities. In addition to the foregoing, CONTRACTOR further represents that there has been no determination, based on an audit, that it committed an act defined by Section 287.133, Florida Statutes, as a “public entity crime” and that it has not been formally charged with committing an act defined as a “public entity crime” regardless of the amount of money involved or whether CONTRACTOR has been placed on the convicted vendor list.

7.6 Independent Contractor. CONTRACTOR is an independent contractor under this Agreement. Services provided by CONTRACTOR pursuant to this Agreement shall be subject to the supervision of CONTRACTOR. In providing such services, neither CONTRACTOR nor its agents shall act as officers, employees or agents of the BMPO. Personnel policies, tax responsibilities, social security and health insurance, employee benefits, purchasing policies and other similar administrative procedures applicable to services rendered under this Agreement shall be those of CONTRACTOR. This Agreement shall not constitute or make the parties a partnership or joint venture.

7.7 Third Party Beneficiaries. Neither CONTRACTOR nor BMPO intends to directly or substantially benefit a third party by entering into this Agreement. Therefore, the parties agree that there are no third party beneficiaries to this Agreement and that no third party shall be entitled to assert a claim against either of them. Based upon this Agreement the parties expressly acknowledge that it is not their intent to create any rights or obligations in any third person or entity under this Agreement.

7.8 Notices. Whenever either party desires to give notice to the other, such notice must be in writing, sent by certified United States Mail postage prepaid return receipt requested or by hand delivery with a request for a written receipt of acknowledgment of delivery, addressed to the party for whom it is intended at the place last specified. The place for giving notice shall remain the same as set forth herein until changed in writing in the manner provided in this section. For the present, the parties designate the following:

CONTRACTOR:

7.9 Assignment and Performance. Neither this Agreement nor any interest herein shall be assigned, transferred, or encumbered by CONTRACTOR. In addition, CONTRACTOR shall not subcontract any portion of the work required by this Agreement, except with the prior approval of the BMPO, which shall be in BMPO’s sole and absolute discretion. A list of all such subcontractors shall be included in the Proposal. If additional subcontractors are to be used during the term of this Agreement, other than those submitted in the Proposal, a list of such subcontractors shall be provided to the BMPO, subject to BMPO’s approval.

CONTRACTOR represents that all persons delivering the services required by this Agreement have the knowledge and skills, either by training, experience, education, or a combination thereof, to adequately and competently perform the duties, obligations, and services set forth in the RFP and to provide and perform such services to BMPO’s satisfaction for the agreed compensation.

CONTRACTOR shall perform its duties, obligations and services under this Agreement in a skillful and respectable manner.

7.10 Conflicts. Neither CONTRACTOR nor its employees shall have or hold any continuing or frequently recurring employment or contractual relationship that is substantially antagonistic or incompatible with CONTRACTOR’s loyal and conscientious exercise of judgment related to its performance under this Agreement.

CONTRACTOR agrees that none of its officers or employees shall, during the term of this Agreement, serve as an expert witness against BMPO in any legal or administrative proceeding in which he or she is not a party, unless compelled by court process. Further, CONTRACTOR agrees that such persons shall not give sworn testimony or issue a report or writing, as an expression of his or her expert opinion, which is adverse or prejudicial to the interests of BMPO in connection with any such pending or threatened legal or administrative proceeding. The limitations of this section shall not preclude CONTRACTOR or any other persons from representing themselves in any action or in any administrative or legal proceeding.

In the event CONTRACTOR is permitted to utilize subcontractors to perform any services required by this Agreement, CONTRACTOR agrees to prohibit such subcontractors, by written contract, from having any conflicts within the meaning of this section.
7.11 **Contingency Fee.** CONTRACTOR warrants that it has not employed or retained any company or person, other than a bona fide employee working solely for CONTRACTOR, to solicit or secure this Agreement and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for CONTRACTOR, any fee, commission, percentage, gift, or other consideration contingent upon or resulting from the award or making of this Agreement. For a breach or violation of this provision, BMPO shall have the right to terminate this Agreement without liability and, at its discretion, to deduct from the Agreement price or otherwise recover the full amount of such fee, commission, percentage, gift or consideration.

7.12 **Materiality and Waiver of Breach.** BMPO and CONTRACTOR agree that each requirement, duty, and obligation set forth herein is substantial and important to the formation of this Agreement and, therefore, is a material term hereof. BMPO’s failure to enforce any provision of this Agreement shall not be deemed a waiver of such provision or modification of this Agreement. A waiver of any breach of a provision of this Agreement shall not be deemed a waiver of any subsequent breach and shall not be construed to be a modification of the terms of this Agreement.

7.13 **Compliance with Laws.** CONTRACTOR shall comply with all federal, state, and local laws, codes, ordinances, rules, and regulations in performing its duties, responsibilities, and obligations pursuant to this Agreement.

7.14 **Severance.** In the event a portion of this Agreement is found by a court of competent jurisdiction to be invalid, the remaining provisions shall continue to be effective unless BMPO or CONTRACTOR elects to terminate this Agreement. An election to terminate this Agreement based upon this provision shall be made within seven (7) days after the finding by the court becomes final.

7.15 **Joint Preparation.** The parties acknowledge that they have sought and received whatever competent advice and counsel as was necessary for them to form a full and complete understanding of all rights and obligations herein and that the preparation of this Agreement has been their joint effort. The language agreed to expresses their mutual intent and the resulting document shall not, solely as a matter of judicial construction, be construed more severely against one of the parties than the other.
7.16 **Priority of Provisions.** If there is a conflict or inconsistency between any term, statement, requirement, or provision of any exhibit attached hereto, any document or events referred to herein, or any document incorporated into this Agreement by reference and a term, statement, requirement, or provision of this Agreement, the term, statement, requirement, or provision contained in Articles 1 through 7 of this Agreement shall prevail and be given effect.

7.17 **Applicable Law and Venue.** This Agreement shall be interpreted and construed in accordance with and governed by the laws of the State of Florida. Any controversies or legal problems arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted to the jurisdiction of the state courts of the Seventeenth Judicial Circuit of Broward County, Florida.

7.18 **Amendments.** No modification, amendment or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement.

7.19 **Prior Agreements.** This Agreement and its attachments constitute the entire agreement between CONTRACTOR and BMPO, and this document incorporates and includes all prior negotiations, correspondence, conversations, agreements, and understandings applicable to the matters contained herein and the parties agree that there are no commitments, agreements or understandings concerning the subject matter of this Agreement that are not contained in this document. Accordingly, the parties agree that no deviation from the terms hereof shall be predicated upon any prior representations or agreements, whether oral or written. It is further agreed that no modification, amendment or alteration in the terms or conditions contained here shall be effective unless set forth in writing in accordance with Section 7.17 above.

7.20 **Drug-Free Workplace.** CONTRACTOR shall maintain a drug-free workplace.

7.21 **Incorporation by Reference.** The truth and accuracy of each “Whereas” clause set forth above is acknowledged by the parties. The attached Exhibits are incorporated hereto and made a part of this Agreement.

7.22 **Multiple Originals.** This Agreement may be fully executed in three (3) copies by all parties each of which, bearing original signatures, shall have the force and effect of an original document.

7.23 **Headings.** Headings are for convenience of reference only and shall not be considered in any interpretation of this Agreement.

7.24 **Binding Authority.** Each person signing this Agreement on behalf of either party individually warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind
and obligate such party with respect to all provisions contained in this Agreement.

7.25 Public Records. CONTRACTOR understands that the public shall have access, at all reasonable times, to all documents and information pertaining to BMPO contracts, subject to the provisions of Chapter 119, Florida Statutes, and agrees to allow access by the BMPO and the public to all documents subject to disclosures under applicable law. CONTRACTOR’S failure or refusal to comply with the provisions of this section shall result in the immediate cancellation of this Agreement by the BMPO.

7.26 Survival of Provisions. Any terms or conditions of this Agreement that require acts beyond the date of its termination shall survive the termination of this Agreement, shall remain in full force and effect unless and until the terms of conditions are completed, and shall be fully enforceable by either party.

7.27 Truth-in-Negotiation Certificate. Signature of this Agreement by CONTRACTOR shall act as the execution of a truth-in-negotiation certificate stating that wage rates and other factual unit costs supporting the compensation of this Agreement are accurate, complete, and current at the time of contracting.

7.28 Disadvantage Business Enterprise (DBE) Program. The contractor, sub-recipient, or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR, Part 26 in the award and administration of FTA-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deem appropriate.

The prime contractor agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 30 days from the receipt of each payment the prime contract receives from The BMPO. The prime contractor agrees further to return retainage payments to each subcontractor within 30 days after the subcontractors work is satisfactorily completed. Any delay or postponement of payment from the above referenced time frame may occur only for good cause following written approval of the BMPO. This clause applies to both DBE and non-DBE subcontracts.
IN WITNESS WHEREOF, the parties hereto have made and executed this Agreement on the respective dates under each signature: BMPO, signing by and through its Chair and Executive Director, attested to and duly authorized to execute same, and Contractor, signing by and through its ____________, attested to and duly authorized to execute same.

Federal Contractual Provisions

FEDERAL TRANSIT ADMINISTRATION REQUIRED
CONTRACTUAL PROVISIONS

The applicable provisions in this Section shall be set forth in any Contract resulting from this RFP. By submitting a Proposal, Proposers acknowledge and agree to comply with the applicable provisions in this Section in the event they are awarded the Contract.

1. NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES.

In connection with the Project, the Contractor agrees that, absent the Federal Government’s express written consent, the Federal Government shall not be subject to any obligations or liabilities to any subcontractor, lessee, third party contractor, or other participant at any tier of the Project, or other person or entity that is not a party to the Grant Agreement or Cooperative Agreement for the Project. Notwithstanding that the Federal Government may have concurred in or approved any solicitation, subcontract, lease, third party contract, or arrangement at any tier, the Federal Government has no obligations or liabilities to any entity other than the Contractor, including any subcontractor, lessee, third party contractor, or other participant at any tier of the Project.

2. FEDERAL LAWS, REGULATIONS, AND DIRECTIVES.

The Contractor agrees that Federal laws and regulations control Project award and implementation. The Contractor also agrees that Federal directives, as defined in the Master Agreement, provide Federal guidance applicable to the Project, except to the extent that FTA determines otherwise in writing. Thus, FTA strongly encourages adherence to applicable Federal directives. The Contractor understands and agrees that unless the Contractor requests FTA approval in writing, the Contractor may incur a violation of Federal laws or regulations, its Grant Agreement or Cooperative Agreement, or the Master Agreement if it implements an alternative procedure or course of action not approved by FTA.

The Contractor understands and agrees that Federal laws, regulations, and directives applicable to the Project and to the Contractor on the date on which the FTA Authorized Official awards Federal assistance for the Project may be modified from time to time. In particular, new Federal FTA laws, regulations, and directives may become effective after the date on which the Contractor executes this Agreement for the Project, and might apply to this Agreement. Contractor agrees that the most recent of such Federal laws, regulations, and directives will apply to the administration of the Project at any particular time, except to the extent that FTA determines otherwise in writing.
FTA’s written determination may take the form of a Special Condition, Special Requirement, Special Provision, or Condition of Award within the Grant Agreement or Cooperative Agreement for the Project, a change to an FTA directive, or a letter to the Contractor signed by the Federal Transit Administrator or his or her duly authorized designee, the text of which modifies or conditions a specific provision of the Grant Agreement or Cooperative Agreement for the Project or this Agreement. To accommodate changing Federal requirements, the Contractor agrees to include in each agreement with each subcontractor, each lease, each third party contract, and other similar document implementing the Project notice that Federal laws, regulations, and directives may change and that the changed provisions will apply to the Project, except to the extent that FTA determines otherwise in writing. All standards or limits in this Agreement for the Project, and in the Master Agreement are minimum requirements, unless modified by FTA.

3. FALSE OR FRAUDULENT STATEMENTS OR CLAIMS.
Contractor acknowledges and agrees that:
(1) Civil Fraud. The Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq., and U.S. DOT regulations, “Program Fraud Civil Remedies,” 49 C.F.R. Part 31, apply to the Contractor’s activities in connection with the Project. By executing Contract for the Project, the Contractor certifies or affirms the truthfulness and accuracy of each statement it has made, it makes, or it may make in connection with the Project. In addition to other penalties that may apply, the Contractor also acknowledges that if it makes a false, fictitious, or fraudulent claim, statement, submission, certification, assurance, or representation to the Federal Government, the Federal Government reserves the right to impose on the Contractor the penalties of the Program Fraud Civil Remedies Act of 1986, as amended, to the extent the Federal Government deems appropriate.
(2) Criminal Fraud. If the Contractor makes a false, fictitious, or fraudulent claim, statement, submission, certification, assurance, or representation to the Federal Government or includes a false, fictitious, or fraudulent statement or representation in any agreement with the Federal Government or the BMPO in connection with a Project authorized under 49 U.S.C. chapter 53 or any other Federal law, the Federal Government reserves the right to impose on the Contractor the penalties of 49 U.S.C. § 5323(l), 18 U.S.C. § 1001, or other applicable Federal law to the extent the Federal Government deems appropriate.

4. CIVIL RIGHTS.
The Contractor agrees to comply with all applicable civil rights laws and regulations, in accordance with applicable Federal directives, except to the extent that the Federal Government determines otherwise in writing. These include, but are not limited to, the following:
A. Nondiscrimination in Federal Public Transportation Programs. The Contractor agrees to comply, and assures the compliance of each subcontractor, lessee, third party contractor, or other participant at any tier of the Project, with the provisions of 49 U.S.C. § 5332, which prohibit discrimination on the basis of race, color, creed, national origin, sex, or age, and prohibits discrimination in employment or business opportunity.
B. Nondiscrimination – Title VI of the Civil Rights Act. The Contractor agrees to comply, and assures the compliance of each subcontractor, lessee, third party contractor, or other participant at any tier of the Project, with all provisions prohibiting discrimination on the basis of race, color, or national origin of Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. §§ 2000d et seq., and with U.S. DOT regulations, “Nondiscrimination in Federally-
Assisted Programs of the Department of Transportation – Effectuation of Title VI of the Civil Rights Act,” 49 C.F.R. Part 21. Except to the extent FTA determines otherwise in writing, the Contractor agrees to follow all applicable provisions of the most recent edition of FTA Circular 4702.1A, “Title VI and Title VI-Dependent Guidelines for Federal Transit Administration Contractors,” and any other applicable Federal directives that may be issued.

C. Equal Employment Opportunity. The Contractor agrees to comply, and assures the compliance of each subcontractor, lessee, third party contractor, or other participant at any tier of the Project, with all equal employment opportunity (EEO) provisions of 49 U.S.C. § 5332, with Title VII of the Civil Rights Act of 1964, as amended, 42 U.S.C. § 2000e et seq., and implementing Federal regulations and any later amendments thereto. Except to the extent FTA determines otherwise in writing, the Contractor also agrees to follow all applicable Federal EEO directives that may be issued. Accordingly:

(1) General. The Contractor agrees that it will not discriminate against any employee or applicant for employment because of race, color, creed, sex, disability, age, or national origin. The Contractor agrees to take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, disability, age, or national origin. Such action shall include, but not be limited to, employment, upgrading, demotions or transfers, recruitment or recruitment advertising, layoffs or terminations; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

D. Disadvantaged Business Enterprise. To the extent authorized by Federal law, the Contractor agrees to facilitate participation by Disadvantaged Business Enterprises (DBEs) in the Project and assures that each subcontractor, lessee, third party contractor, or other participant at any tier of the Project will facilitate participation by DBEs in the Project to the extent applicable as follows:

(2) The Contractor agrees and assures that it shall not discriminate on the basis of race, color, sex, or national origin in the award and performance of any subagreement, lease, third party contract, or other arrangement supported with Federal assistance derived from U.S. DOT in the administration of its DBE program and shall comply with the requirements of 49 C.F.R. Part 26. The Contractor agrees to take all necessary and reasonable steps as set forth in 49 C.F.R. Part 26 to ensure nondiscrimination in the award and administration of all subagreements, leases, third party contracts, and other arrangements supported with Federal assistance derived from U.S. DOT. As required by 49 C.F.R. Part 26, the
Contractor’s DBE program approved by U.S. DOT, if any, is incorporated by reference and made part of the Grant Agreement or Cooperative Agreement for the Project. The Contractor agrees that it has a legal obligation to implement its approved DBE program, and that its failure to carry out that DBE program shall be treated as a violation of the Grant Agreement or Cooperative Agreement for the Project and the Master Agreement. Upon notification by U.S. DOT to the Contractor of the Contractor’s failure to implement its approved DBE program, U.S. DOT may impose the sanctions as set forth in 49 C.F.R. Part 26 and may, in appropriate cases, refer the matter to the appropriate Federal authorities for enforcement under 18 U.S.C. § 1001, or the Program Fraud Civil Remedies Act, 31 U.S.C. §§ 3801 et seq., or both.

F. Nondiscrimination on the Basis of Age. The Contractor agrees to comply with all applicable requirements of:

G. Access for Individuals with Disabilities. The Contractor agrees to comply with 49 U.S.C. § 5301(d), which states the Federal policy that elderly individuals and individuals with disabilities have the same right as other individuals to use public transportation services and facilities, and that special efforts shall be made in planning and designing those services and facilities to implement transportation accessibility rights for elderly individuals and individuals with disabilities. The Contractor also agrees to comply with all applicable provisions of section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. § 794, which prohibits discrimination on the basis of disability in the administration of programs or activities receiving Federal financial assistance; with the Americans with Disabilities Act of 1990 (ADA), as amended, 42 U.S.C. §§ 12101 et seq., which requires that accessible facilities and services be made available to individuals with disabilities; with the Architectural Barriers Act of 1968, as amended, 42 U.S.C. §§ 4151 et seq., which requires that buildings and public accommodations be accessible to individuals with disabilities; and with other laws and amendments thereto pertaining to access for individuals with disabilities that may be applicable. In addition, the Contractor agrees to comply with applicable implementing Federal regulations, and any later amendments thereto, and agrees to follow applicable Federal implementing directives, except to the extent FTA approves otherwise in writing. Among those regulations and directives are:

(1) U.S. DOT regulations, “Transportation Services for Individuals with Disabilities (ADA),” 49 C.F.R. Part 37;

(2) U.S. DOT regulations, “Nondiscrimination on the Basis of Handicap in Programs and Activities Receiving or Benefiting from Federal Financial Assistance,” 49 C.F.R. Part 27;
(9) U.S. ATBCB regulations, “Electronic and Information Technology Accessibility Standards,” 36 C.F.R. Part 1194;
(10) FTA regulations, “Transportation for Elderly and Handicapped Persons,” 49 C.F.R. Part 609; and
(11) Federal civil rights and nondiscrimination directives implementing those Federal laws and regulations, except to the extent the Federal Government determines otherwise in writing.

H. Drug or Alcohol Abuse - Confidentiality and Other Civil Rights Protections. To the extent applicable, the Contractor agrees to comply with the confidentiality and civil rights protections of the Drug Abuse Office and Treatment Act of 1972, as amended, 21 U.S.C. §§ 1101 et seq., the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970, as amended, 42 U.S.C. §§ 4541 et seq., and the Public Health Service Act of 1912, as amended, 42 U.S.C. §§ 290dd through 290dd-2, and any amendments thereto.

K. Other Nondiscrimination Laws. The Contractor agrees to comply with applicable provisions of other Federal laws and regulations, and follow applicable Federal directives prohibiting discrimination, except to the extent the Federal Government determines otherwise in writing.

5. FEDERAL STANDARDS.
The Contractor agrees to comply with applicable third party procurement requirements of 49 U.S.C. chapter 53 and Federal laws in effect now or subsequently enacted; with applicable
U.S. DOT third party procurement regulations at 49 C.F.R. § 18.36 or 49 C.F.R. §§ 19.40 through 19.48, and with other applicable Federal regulations pertaining to third party procurements and later amendments thereto. The Contractor also agrees to follow the provisions of the most recent edition and revisions of FTA Circular 4220.1F, “Third Party Contracting Guidance,” except to the extent FTA determines otherwise in writing. The Contractor agrees that it may not use FTA assistance to support its third party procurements unless its compliance with Federal laws and regulations is satisfactory. Although the FTA “Best Practices Procurement Manual” provides additional third party contracting information, the Contractor understands and agrees that the FTA “Best Practices Procurement Manual” may omit certain Federal requirements applicable to specific third party contracts.

6. ACCESS TO THIRD PARTY CONTRACT RECORDS.
The Contractor agrees to require, and assures that its subcontractors require, their third party contractors and third party subcontractors at each tier to provide to the U.S. Secretary of Transportation and the Comptroller General of the United States or their duly authorized representatives, access to all third party contract records as required by 49 U.S.C. § 5325(g). The Contractor further agrees to require, and assures that its subcontractors require, their third party contractors and third party subcontractors, at each tier, to provide sufficient access to third party procurement records as needed for compliance with Federal laws and regulations or to assure proper Project management as determined by FTA.

7. RIGHT OF THE FEDERAL GOVERNMENT TO TERMINATE.
Upon written notice, the Contractor agrees that the Federal Government may suspend or terminate all or any part of the Federal assistance to be provided for the Project if the Contractor has violated the terms of the Grant Agreement or Contract for the Project including the Master Agreement, or if the Federal Government determines that the purposes of the laws authorizing the Project would not be adequately served by the continuation of Federal assistance for the Project. The Contractor understands and agrees that any failure to make reasonable progress on the Project or any violation of the Grant Agreement or Contract for the Project, or the Master Agreement that endangers substantial performance of the Project shall provide sufficient grounds for the Federal Government to terminate the Grant Agreement or Cooperative Agreement for the Project. In general, termination of Federal assistance for the Project will not invalidate obligations properly incurred by the Contractor before the termination date to the extent those obligations cannot be canceled. If, however, the Federal Government determines that the Contractor has willfully misused Federal assistance by failing to make adequate progress, by failing to make reasonable and appropriate use of Project property, or by failing to comply with the terms of the Grant Agreement or Contract for the Project including the Master Agreement, the Federal Government reserves the right to require the Contractor to refund the entire amount of Federal assistance provided for the Project or any lesser amount as the Federal Government may determine. Expiration of any Project time period established for the Project does not, by itself, constitute an expiration or termination of the Grant Agreement or Cooperative Agreement for the Project.

8. DEBARMENT AND SUSPENSION.
The Contractor agrees to comply with applicable provisions of Executive Orders Nos. 12549 and 12689, “Debarment and Suspension,” 31 U.S.C. § 6101 note, and U.S. DOT regulations, “Nonprocurement Suspension and Debarment,” 2 C.F.R. Part 1200, which adopt and
supplement the provisions of U.S. Office of Management and Budget (U.S. OMB), “Guidelines to Agencies on Government wide Debarment and Suspension (Nonprocurement),” 2 C.F.R. Part 180. To the extent required by these U.S. DOT regulations and U.S. OMB guidance, the Contractor agrees to review the “Excluded Parties Listing System” at http://epls.gov/ and to include a similar term or condition in each lower tier covered transaction, assuring that, to the extent required by the U.S. DOT regulations and U.S. OMB guidance, each subcontractor, lessee, third party contractor, and other participant at a lower tier of the Project, will review the “Excluded Parties Listing System” at http://epls.gov/, and will include a similar term or condition in each of its lower tier covered transactions.

9. BUY AMERICA REQUIREMENTS
The Successful Proposer is hereby notified that this project is funded with federal funds from the FTA. Therefore, this project shall comply with the Buy America regulations published at 49 CFR Part 661. The Contractor shall comply with 49 U.S.C. §5323(j) and FTA regulations, “Buy America Requirements,” 49 CFR Part 661, and any amendments thereto in performing the Services requested in this RFP. If applicable, the Buy America certification forms shall be completed, signed, notarized and returned to the BMPO prior to Contract award.

10. DISPUTES, BREACHES, DEFAULTS, OR OTHER LITIGATION.
The Contractor agrees that FTA has a vested interest in the settlement of any dispute, breach, default, or litigation involving the Project. Accordingly:
A. Notification to FTA. The Contractor agrees to notify FTA in writing of any current or prospective major dispute, breach, default, or litigation that may affect the Federal Government’s interests in the Project or the Federal Government’s administration or enforcement of Federal laws or regulations. If the Contractor seeks to name the Federal Government as a party to litigation for any reason, in any forum, the Contractor agrees to inform FTA in writing before doing so. At a minimum, each notice to FTA under Section 56 of the Master Agreement shall be provided to the FTA Regional Counsel within whose Region the Contractor operates its public transportation system or implements the Project.
B. Federal Interest in Recovery. The Federal Government retains the right to a proportionate share of any proceeds derived from any third party recovery, based on the percentage of the Federal share awarded for the Project, except that the Contractor may return liquidated damages recovered to its Project Account in lieu of returning the Federal share to the Federal Government.
C. Enforcement. The Contractor agrees to pursue its legal rights and remedies available under any third party contract or available under law or regulations.
D. FTA Concurrence. FTA reserves the right to concur in any compromise or settlement of any claim involving the Project and the Contractor.
E. Alternative Dispute Resolution. FTA encourages the Contractor to use alternative dispute resolution procedures, as may be appropriate.

11. LOBBYING RESTRICTIONS.
The Contractor agrees that:
(1) In compliance with 31 U.S.C. § 1352(a), it will not use Federal assistance to pay the costs of influencing any officer or employee of a Federal agency, Member of Congress, officer of Congress or employee of a member of Congress, in connection with making or extending the Contract;
(2) In addition, it will comply with other applicable Federal laws and regulations prohibiting the use of Federal assistance for activities designed to influence Congress or a State legislature with respect to legislation or appropriations, except through proper, official channels; and
(3) It will comply, and will assure the compliance of each subcontractor, third party contractor, or other participant at any tier of the Project with U.S. DOT regulations, “New Restrictions on Lobbying,” 49 C.F.R. Part 20, modified as necessary by 31 U.S.C. § 1352, as amended.

12. CLEAN AIR.
Except to the extent the Federal Government determines otherwise in writing, the Contractor agrees to comply with all applicable Federal laws and regulations and follow applicable Federal directives implementing the Clean Air Act, as amended, 42 U.S.C. §§ 7401 through 7671q. Specifically:
(1) The Contractor agrees to comply with the applicable requirements of subsection 176(c) of the Clean Air Act, 42 U.S.C. § 7506(c); with U.S. EPA regulations, “Determining Conformity of Federal Actions to State or Federal Implementation Plans,” 40 C.F.R. Part 93, Subpart A; and with any other applicable Federal conformity regulations that may be promulgated at a later date. To support the requisite air quality conformity finding for the Project, the Contractor agrees to implement each air quality mitigation or control measure incorporated in the applicable documents accompanying the approval of the Project. The Contractor further agrees that any Project identified in an applicable State Implementation Plan (SIP) as a Transportation Control Measure will be wholly consistent with the design concept and scope of the Project described in the SIP.
(2) U.S. EPA also imposes requirements implementing the Clean Air Act, as amended, that may apply to public transportation operators, particularly operators of large public transportation bus fleets. Accordingly, to the extent they apply to the Project, the Contractor agrees to comply with U.S. EPA regulations, “Control of Air Pollution from Mobile Sources,” 40 C.F.R. Part 85; U.S. EPA regulations, “Control of Air Pollution from New and In-Use Motor Vehicles and New and In-Use Motor Vehicle Engines,” 40 C.F.R. Part 86; and U.S. EPA regulations “Fuel Economy of Motor Vehicles,” 40 C.F.R. Part 600, and any revisions thereto.

13. CLEAN WATER.
Except to the extent the Federal Government determines otherwise in writing, the Contractor agrees to comply with all applicable Federal laws and regulations and follow applicable Federal directives implementing the Clean Water Act, as amended, 33 U.S.C. §§ 1251 through 1377. Specifically:
14. RIGHTS IN DATA AND COPYRIGHTS.

A. Definition. The term “subject data,” as used in Section 18 of the Master Agreement means recorded information, whether or not copyrighted, that is delivered or specified to be delivered under the Grant Agreement or Contract for the Project. Examples include, but are not limited to: computer software, standards, specifications, engineering drawings and associated lists, process sheets, manuals, technical reports, catalog item identifications, and related information. “Subject data” do not include financial reports, cost analyses, or other similar information used for Project administration.

B. General. The following restrictions apply to all subject data first produced in the performance of the Grant Agreement or Contract for the Project:

(1) Except for its own internal use, the Contractor may not publish or reproduce subject data in whole or in part, or in any manner or form, nor may the Contractor authorize others to do so, without the prior written consent of the Federal Government and the BMPO, unless the Federal Government has previously released or approved the release of such data to the public.

(2) The restrictions on publication of Paragraph 18.b(1) of the Master Agreement, however, do not apply to a Grant Agreement or Contract with an institution of higher learning.

C. Federal Rights in Data and Copyrights. The Contractor agrees to provide to the Federal Government a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, for Federal Government purposes the subject data described in the Subsection 18.c of the Master Agreement. As used herein, “for Federal Government purposes,” means use only for the direct purposes of the Federal Government. Without the copyright owner’s consent, the Federal Government may not provide or otherwise extend to other parties the Federal Government’s license to:

(1) Any subject data developed under the Grant Agreement or Contract for the Project, or under a subcontract, lease, third party contract or other arrangement at any tier of the Project, supported with Federal assistance derived from the Grant Agreement or Contract for the Project, whether or not a copyright has been obtained; and

(2) Any rights of copyright to which a Contractor, subcontractor, lessee, third party contractor, or other participant at any tier of the Project purchases ownership using Federal assistance.

D. Special Federal Rights in Data for Research, Development, Demonstration, and Special Studies Projects. In general, FTA’s purpose in providing Federal assistance for a research, development, demonstration, or special studies Project is to increase transportation knowledge, rather than limit the benefits of the Project to Project participants. Therefore, when the Project is completed, the Contractor agrees to provide a Project report that FTA may publish or make available for publication on the Internet. In addition, the Contractor agrees to provide other reports pertaining to the Project that FTA may request. The Contractor agrees to identify clearly any specific confidential, privileged, or proprietary information it submits to FTA. In addition, except to the extent that FTA determines otherwise in writing, the Contractor of Federal assistance to support a research, development, demonstration, or a special studies Project agrees that, in addition to the rights in data and copyrights that it must provide to the Federal Government as set forth in Subsection 18.c of the Master Agreement, FTA may make available to any FTA Contractor, subcontractor, third party contractor, third party subcontractor or other participant at any tier of the Project, either FTA’s license in the copyright to the subject data or a copy of the subject data. If the Project is not completed for any reason whatsoever, all data developed under the Project shall
become subject data as defined in Subsection 18.a of the Master Agreement and shall be delivered as the Federal Government may direct. This does not apply to adaptations of automatic data processing equipment or programs for the Contractor’s use when the costs thereof are financed with Federal assistance through an FTA capital program.

E. License Fees and Royalties. FTA considers income earned from license fees and royalties for copyrighted material, or trademarks produced under the Project to be program income. Except to the extent FTA determines otherwise in writing, as provided in 49 C.F.R. Parts 18 and 19, the Contractor has no obligation to the Federal Government with respect to that program income, apart from compliance with 35 U.S.C. §§ 200 et seq., which applies to patent rights developed under a research project.

F. Hold Harmless. Except as prohibited or otherwise limited by State law or except to the extent that FTA determines otherwise in writing, upon request by the Federal Government, the Contractor agrees to indemnify, save, and hold harmless the Federal Government and its officers, agents, and employees acting within the scope of their official duties against any liability, including costs and expenses, resulting from any willful or intentional violation by the Contractor of proprietary rights, copyrights, or right of privacy, arising out of the publication, translation, reproduction, delivery, use, or disposition of any data furnished under the Project. The Contractor shall not be required to indemnify the Federal Government for any such liability caused by the wrongful acts of Federal employees or agents.

G. Restrictions on Access to Patent Rights. Nothing in Section 18 of the Master Agreement pertaining to rights in data shall either imply a license to the Federal Government under any patent or be construed to affect the scope of any license or other right otherwise granted to the Federal Government under any patent.

H. Data Developed Without Federal Funding or Support. In connection with the Project, the Contractor may find it necessary to provide data to FTA developed without any Federal funding or support by the Federal Government. The requirements of Subsections 18.b, 18.c, and 18.d of the Master Agreement do not apply to data developed without Federal funding or support by the Federal Government, even though that data may have been used in connection with the Project. Nevertheless, the Contractor understands and agrees that the Federal Government will not be able to protect data from unauthorized disclosure unless that data is clearly marked “Proprietary” or “Confidential.”

I. Requirements to Release Data. To the extent required by U.S. DOT regulations, “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,” at 49 C.F.R. § 19.36(d), or other applicable Federal laws or Federal regulations, the Contractor understands and agrees that the data and information it submits to the BMPO or Federal Government may be required to be released in accordance with the Freedom of Information Act (or another Federal law or Federal regulation providing access to such records).

Failure by the Consultant to carry out these requirements is a material breach of this contract, which may result in termination of this contract or other such remedy as the recipient deems appropriate.

L. It is mutually understood and agreed that the willful falsification, distortion or misrepresentation with respect to any facts related to the project(s) described in this Agreement is a violation of the Federal Law. [THIS PAGE IS INTENTIONALLY LEFT BLANK; SCOPES OF SERVICES FOLLOWS]
Introduction and Background

Following the 2000 Census, portions of Miami-Dade, Broward, Palm Beach, and Martin counties were officially defined by the Census Bureau as the “Miami Urbanized Area” (UZA). Only a small portion of southern Martin County was included in the UZA and to the extent deemed appropriate by RTTAC will be considered throughout the RTP process. Following this designation, the Governor and the Miami-Dade Transportation Planning Organization, Broward and Palm Beach Metropolitan Planning Organizations (MPOs) agreed to maintain the three existing MPOs and their respective transportation planning processes to address the mobility of people and goods in the Miami UZA, commonly referred to as Southeast Florida. The Southeast Florida Transportation Council (SEFTC) was created by the three MPOs to specifically address and coordinate regional transportation issues on behalf of the residents of this large and complex region.

SEFTC facilitates transportation planning by engaging the public and fostering strong partnerships between the three MPOs with other agencies, local governments, and communities. One of SEFTC’s most important responsibilities is developing and implementing its Regional Transportation Plan (RTP) in coordination with other regional and local plans, while moving toward an agreed-upon vision for transportation in South Florida. This plan is updated every five years to adapt to population and other changes in or affecting the region.

The Southeast Florida region is the most populous urbanized area in the State of Florida and the fourth most populous urbanized area in the United States, with a 2015 population estimate of 5.8 million. According to the University of Florida’s Bureau of Economic and Business Research, this region’s population is expected to increase by 29% between 2015 and 2045 to approximately 7.5 million residents. This growth presents both challenges and opportunities for how we collaboratively plan for our regional multimodal transportation needs in a coordinated manner.

In 2015, SEFTC approved the 2040 Regional Transportation Plan (RTP) for the Southeast Florida region, which identifies regional cost feasible highway, transit and non-motorized improvements as well as unfunded needs. The 2040 RTP also includes a regional transit vision, a regional freight plan as well as regional concept of operations plan. The RTP was developed in close coordination with the individual MPO long range transportation plans.

SEFTC is now initiating an update of their 2040 RTP to extend the planning horizon to 2045. By mutual agreement, responsibility to lead the RTP rotates between the three MPOs; the Broward
MPO is the lead agency for the 2045 RTP. Endorsement of the 2045 RTP by the SEFTC is anticipated in June of 2020.

**Vision:**

Create a shared regional transportation document that identifies regional needs, funding and policies that serve and benefit the entire Southeast Florida region.

**Proposed 2045 RTP Process**

The SEFTC is committed to continued improvement and innovation in delivery of the Regional Transportation Plan for Southeast Florida. The 2045 RTP will focus on greater coordination, while fully adhering to the guiding principles enumerated in the SEFTC Interlocal Agreement.

To support the RTP, the Broward MPO will engage consultant services (Consultant) and assign a Project Manager (PM). The Consultant will provide regional services on behalf of the Miami-Dade, Broward and Palm Beach MPOs. The 2045 RTP will be closely coordinated and supportive of the individual county-wide Long Range Transportation Plans (LRTPs). The 2045 RTP will efficiently leverage resources at all levels to create a plan that benefits the overall region, and supports the development of local LRTPs by minimizing duplicative efforts at the county-wide and regional levels.

**Proposed RTP Budget**

Costs for the 2045 RTP will be shared equally among the three MPOs. The RTP scope will include an item for up to five years of consultant support of SEFTC, Regional Transportation Technical Advisory Committee (RTTAC) and its subcommittees. Individual MPOs will be asked to program funding in their UPWP to fund these on-going activities.

**Roles & Responsibilities**

**SEFTC** will be the decision-making body for the RTP. SEFTC will be expected to: endorse the 2045 RTP Scope; establish the RTP vision; adopt the goals, objectives, and measures; and endorse the final 2045 RTP, including the Cost Feasible and Finance plan elements. Ultimately, SEFTC will support implementation of the RTP.

The Regional Transportation Technical Advisory Committee (RTTAC) serves in a technical advisory role to the SEFTC. RTTAC is anticipated to serve as the **RTP Steering Committee**. As such, the RTTAC will provide technical guidance throughout the RTP development process, review and provide input into key interim deliverables, and will be asked to provide an endorsement of materials prior to presentation to SEFTC.

The RTP is a schedule driven process that relies upon timely review by the RTP Steering Committee (i.e., RTTAC). It is important that RTTAC members review all provided materials in advance of meetings, regularly attend all meetings, provide timely responses to action items resulting from the meeting summaries, and collaboratively work with the Project Manager, Consultant and MPO staff to successfully complete the RTP.
The Broward MPO will procure and act as Project Manager for the RTP Consultant and will be responsible for procuring, negotiating fees, invoicing, managing, and coordinating all Consultant services for the 2045 RTP. Scope and budget will be mutually agreed upon by those paying for the Consultant services. The Consultant Selection Committee will include one representative each from the Miami-Dade TPO, Broward MPO, Palm Beach MPO, FDOT District 4 and FDOT District 6.

The Consultant will support Miami-Dade TPO, Broward and Palm Beach MPOs and SEFTC through timely completion of various work tasks identified in the scope of services.

1.0 PROJECT MANAGEMENT

The Consultant will assign a single person to serve through the life of the contract as Consultant Project Manager (Consultant PM). The Consultant PM must be the person identified in the selected firm’s proposal and may not be changed without prior written approval of the Broward MPO’s designated RTP Project Manager (RTP PM). The Consultant PM is responsible for overall project management necessary to ensure the satisfactory completion of the 2045 RTP, on-time and on-budget, in accordance with the scope of services. The Consultant PM will serve as a single point of contact and will be expected to ensure the consultant team is properly managed, adequate resources are available, submittals are timely and quality control reviewed, and disadvantaged business enterprise (DBE) firms, if any, are utilized for maximum benefit and paid in a timely fashion.

The Consultant PM is responsible for the quality of all work completed under this contract and is expected to ensure high standards for all submittals, both draft and final.

The Consultant PM will work closely with the RTP PM to ensure strong communication and coordination through the life of the contract. Communication will include mandatory written monthly progress reports with an updated actual schedule versus planned schedule, task progress, identification of critical path tasks, and actual expenditures versus budget report. Beyond normal phone and email communication, the Consultant and RTP PM will generally be expected to meet in person on a monthly basis to review the progress report and monitor progress.

The Consultant PM will submit monthly invoices in a form and with documentation acceptable to the RTP PM within 30 business days following the end of each month throughout the life of the contract. Invoices must include the monthly progress report. The Consultant PM may request approval from the RTP PM, in writing, to skip a monthly invoice if no activity occurs during the month or for other reasons.

Deliverables:

a) Monthly progress reports

b) Monthly invoices
2.0 PROJECT SCHEDULE AND COORDINATION

The Consultant will develop and maintain through the life of the contract a detailed schedule in Microsoft Project. This schedule will include RTP tasks, sub-tasks, external tasks that feed into and/or affect the project or schedule (i.e., FDOT’s revenue projections and SERPM), identification of responsible agency or person, key partner agency meetings, RTP deadlines, SEFTC and RTTAC meetings, and other details helpful to the management of the RTP. The Consultant will create an initial “base” project schedule to which all subsequent project schedules will be compared to assist in project management and identification of “critical path” tasks and associated responsible party.

The Consultant PM is expected to use the project schedule as an important management tool to identify schedule issues, critical dates, early start items, provide feedback on impacts of proposed schedule changes or late delivery of key deliverables or inputs, and convey project status and issues to RTP PM and the RTP Steering Committee (RTTAC). The Consultant will use Microsoft Project to develop reports and figures as needed to support the RTP PM, prepare project progress reports, facilitate coordination with partners, etc.

The Consultant will be responsible for developing and adhering to a schedule that allows SEFTC adoption of the 2045 RTP no later than June of 2020, recognizing certain tasks will be completed earlier to support LRTP efforts.

The Consultant will ensure coordination of the RTP with the efforts of the Miami-Dade, Broward and Palm Beach MPO’s LRTP development efforts to ensure consistency. Consultant will identify complementary tasks in the various planning efforts to avoid duplication of effort, maximize use of existing resources, share results, coordinate activities, and minimize schedule conflicts. The Consultant will also identify potential scope and/or schedule conflicts, develop suggested solutions, and present these to the RTP PM for resolution and clarification.

The Consultant will coordinate with FDOT and their consultants responsible for the development of key RTP inputs, including SERPM with associated base socio-economic files and revenue projections.

The RTTAC will serve as RTP steering committee and will be tasked with providing guidance and assistance throughout the duration of the contract. Key decisions on all aspects of the plan shall be shared by the Consultant with RTTAC at regularly scheduled meetings and when possible reach consensus before proceeding. The RTTAC will work to ensure strong coordination and open lines of communication between individual MPO LRTPs and the RTP. Potential areas of conflict will be identified by the Consultant as early as possible to ensure timely resolution through the RTP steering committee.

Deliverables:

a) Project Schedule in Microsoft Project

b) Progress reports and figures

3.0 PUBLIC INVOLVEMENT

The Consultant will support a public involvement program for the 2045 RTP to ensure the public of Southeast Florida are aware of, active participants in, and engaged to the maximum extent possible. This effort will be
led by the SEFTC’s RTTAC-Public Participation Subcommittee, referred to as the PPS. Consultant support of PPS meetings is included in Task 12.

The Consultant will complete the following tasks:

1. Prepare two short non-animated type videos, similar to the SEFTC Battle of the Counties introductory video. The first video, prepared at the beginning of the project, will introduce the RTP effort, purpose, approach, anticipated outcomes, schedule, and general opportunities for public input. The second video, prepared near the end of the project, will summarize the RTP purpose, results, and key outcomes.

2. Maintain and update current SEFTC social media channels and develop any other necessary social media platforms requested by the PPS. This will include content creation.

3. Develop and implement a regional survey. This survey will be online, printable, and mobile-friendly. This survey will be developed in coordination with the applicable regional technical team(s) and the PPS. The consultant will translate the survey to Spanish and Creole, and print as needed. Survey data is to be collected and analyzed as input to be utilized in the RTP.

4. Consideration should be given to the use of an interactive online tool to encourage maximum public participation.

5. The design, development, and printing of a two-sided rack card. The content will be created in coordination with the PPS and translated into Spanish and Creole. Printed copies are to include: 750 English, 300 Spanish, and 150 Creole. The electronic files will be supplied to the PPS.

6. Design and develop two PowerPoint presentations. The first presentation, prepared at the beginning of the project, will introduce the RTP effort, purpose, approach, anticipated outcomes, schedule, and general opportunities for public input. The second presentation, prepared near the end of the project, will summarize the RTP purpose, results, and key outcomes.

7. Coordinate with the PPS to assist in the self-evaluation of regional public involvement outreach at key milestones.

8. Develop and summarize the regional public involvement section to then be included in both the Executive Summary and 2045 RTP.

9. Coordinate, plan, and implement a regional mobile event after the adoption of the 2045 RTP. This event will occur on the same day in three locations, one in each county. Staffing, logistical resources, and the development and provision of collateral materials is to be provided.

10. Support web site as described in Task 12.

e) Rack Card

f) Two PowerPoint Presentations

g) Regional Public Involvement Summary

h) Regional Mobile Event
4.0 DATA

The Consultant will identify, obtain, compile, review, and utilize a wide range of documents and data in support of the RTP. Whenever possible, documents and data will be obtained in an electronic format. The individual Miami-Dade, Palm Beach and Broward MPO Long Range Transportation efforts will collect significant data and the Consultant is expected to utilize and leverage this information to the maximum extent possible to avoid duplicative data collection efforts. The Consultant will support open lines of communication between the RTP effort and the LRTP efforts. Individual MPOs may provide a list of available data.

The Consultant will collect reports, studies, academic literature, state and federal statues, programs and data that pertain to Southeast Florida’s regional transportation system, or regional systems in general including best practices. The RTTAC will be consulted to help identify all appropriate studies and documents are included. Other documents may include, but are not limited to, the Florida Transportation Plan, Strategic Intermodal System Plan, General Interest Highway Statistics Source Book, Multimodal Mobility Performance Measures Source Book, airport master plans, seaport master plans, inland port/intermodal logistic center studies, the SFRTA strategic regional transit system plan, transit operating data, local and statewide freight and goods movement studies, transit development plans, congestion management plans, Integrated Corridor Management Study, Miami-Dade’s SMART plan, the Southeast Florida Regional Climate Change Action Plan, transportation system management, transit development plans, etc.

The Miami-Dade TPO will provide relevant state and federal transportation legislation, policies, and rules in areas of MPOs, LRTP, transportation, transit, land use, revenue, funding, finance, public private partnerships, discretionary and formula programs by December 2017. The Consultant will review the TPO materials and provide a regional context in the Legislative and Funding Overview. The Consultant will consider newly enacted legislation during the life of the contract that may impact the RTP or LRTPs.

The Fixing America’s Surface Transportation Act or "FAST Act" legislation was signed by the President on December 4, 2015, which changed some federal programs. The Consultant will identify and summarize areas of change and opportunities for the Southeast Florida region.

The Consultant will conduct a review and assessment of multi-jurisdictional regional transportation plans to identify and apply best practices in development of regional plans. Emphasis should be placed on regions that have successfully secured transit funding to support the expansion of regional transit networks, particularly rail and bus rapid transit systems.

State policies and statues that affect the flexibility of state funds to be utilized within urban areas for transportation beyond capital, roads, or state highway system only will be carefully reviewed and summarized to support Task 7, Scenario Development and Analysis, in a State Policies document. Likewise, State legislation, work program instructions and SIS program will be carefully reviewed in support of this document.

The Consultant will create an “Electronic Data Inventory” (EDI) of all identified, available, and reviewed documents and data relevant to the RTP. The EDI will include an index with title, source, year, summary description, and other key descriptors helpful as a sort key. The EDI will include all electronically available documents and data and will be updated regularly throughout the life of the contract. GIS based data and data sets will be obtained and consolidated by the Consultant as mutually agreed to by RTP PM.
A Data Summary document will be prepared by the Consultant to document available documents and data, identify missing information, potential areas of conflict or inconsistencies with the other MPO LRTPs, minimum federal and state requirements, key policy issues, best practices, potential areas of conflict, etc.

The Consultant will prepare a RTP Checklist that reflects the elements of the scope and summarizes the state and federal requirements, if any, of regional plans.

**Deliverables:**

a) Regional “Best Practices”

b) Electronic Data Inventory

c) Data Summary

d) RTP Requirements Checklist

e) Legislative and Funding Overview
5.0 GOALS, OBJECTIVES AND MEASURES OF EFFECTIVENESS/PERFORMANCE MEASURES

The purpose of this task is to revise and update the regional goals, objectives and measures of effectiveness/performance measures (GOM/PMs) for the RTP to ensure the plan is consistent with the Southeast Florida Prosperity Plan, Florida Transportation Plan, and all other applicable plans as determined by RTTAC. The Consultant will review applicable federal planning factors and the GOM/PMs adopted in the 2040 RTP and the FAST ACT. Using this information and guided by the RTTAC, the regional GOM/PMs will be developed. The regional GOM/PMs will be endorsed by SEFTC.

The Consultant will consider other “best practices,” regional public input on areas of need and Southeast Florida’s vision for the future in the development of meaningful GOM/PM’s. The Consultant will consider alternatives to traditional congestion measures such as volume/capacity and level of service (to “solve congestion”) that instead measure “access” to destinations (e.g., home, work, recreation, shopping, etc.) and positive economic impacts. The Consultant will prepare a Best Practices Memorandum for RTTAC.

The Consultant will ensure pedestrian; bicycle; other non-motorized; transit; extreme weather and coastal and inland flooding mitigation; freight; greenways; and other transportation options are fully considered and incorporated. The Consultant will consider new and emerging areas such as automobile fleet electrification, car sharing, and automation. The Consultant will work closely with the RTTAC to ensure the measures and resulting list of prioritized project reflect the goals and objectives of the region and are fully coordinated with the MPO LRTPs. To the extent possible, measures should be quantitative using readily available data and information. However, it is understood qualitative measures may be necessary or appropriate in some cases and may be used to the extent acceptable to RTTAC. The Consultant will calculate current values for all measurable objectives. Current values will be compared against known and available targets.

The 2045 RTP should be innovative in its approach to Southeast Florida’s transportation needs and recognize the mature nature of the road network and look beyond traditional measures that focus primarily on roads. Key regional areas of focus should include public transportation, freight, pedestrians, bicycles, complete streets, funding, financing, extreme weather resiliency, seasonal tidal flooding, other flooding, health, age-friendly initiatives, or others as recommended by the Consultant and supported by RTTAC.

Deliverables:

a) GOM Best Practices Memorandum

b) Regional GOM/PM
6.0 REVENUE AND FINANCE

The Consultant will develop revenue and finance information to support the RTP, including scenario planning of Task 7. The Consultant will rely on the financial and revenue forecasting processes of the MPOs in coordination with the process used by FDOT, working with the MPOAC, for federal and state transportation funds. The Consultant will coordinate revenue forecasts to ensure consistency of regional and local projections. The individual Miami-Dade, Palm Beach and Broward MPO Long Range Transportation Plan efforts will collect significant revenue and finance information and the Consultant is expected to utilize and leverage this information to the maximum extent possible to avoid duplicative efforts.

6.1 Financial Plans, Revenue Sources and Regional Forecast

The Consultant will coordinate with the three MPOs who will identify existing transportation revenue resources and forecast the anticipated revenues through the interim and the horizon years based on historical records and current data provided by FDOT and MPO staff, and local governments and publications such as the Florida Department of Revenue (FDOR) and the Florida Legislative Committee on Intergovernmental Relations (FLCIR).

The Consultant will review federal and state fuel taxes as well as potential revenue sources that are made available for funding transportation improvement projects in Southeast Florida (i.e., grants). The Consultant will prepare a comprehensive transportation funding report for Southeast Florida that provides a summary of all transportation funds generated within the region, what agency they go to, what portion is returned to the region, what restrictions are placed on funds available to the region, and what agency manages the funds. Funds generated locally may include non-transportation sources utilized for transportation, tolls, etc.

Compile revenue projections for public and private sources from each MPO based on historic data from the counties and cities as well as FDOT revenue forecasts. These revenue projections will reflect before and after FDOT “set-asides” including SIS and TRIP moneys. The Consultant will examine new opportunities to leverage transportation funds with other funds (e.g., P3 funds, potential new taxes, transportation and housing funds to increase access to employment, education, health care, and other essential services). The Consultant is expected to integrate the financial strategies, as appropriate, with the alternative scenarios developed in Task 7.0.

Revenue projections will be extended through 2045. All revenues will be based on year of expenditure.

The Consultant will coordinate and review RTP results with individual LRTP plans to identify inconsistencies, resolve and ensure consistency to the extent possible. A comparison of RTP to LRTP forecasts will be prepared and reviewed by RTTAC. The Consultant’s review will not be binding upon the individual MPO LRTP’s.

The Consultant will review previous forecasts against actual funding levels and perform an equity analysis for Southeast Florida.

6.2 Potential Revenue Sources and Financing Tools to Implement and Maintain New Projects

The Consultant will examine potential revenue sources and innovative financing tools that could be used to leverage additional transportation funding from local, state and federal sources. Authorizing agency will be identified. Potential revenue and financing examples include, but are not limited to:
• Innovative funding
• Innovative finance;
• State grant programs;
• Transit capital grants (e.g. Section 5309 New Starts and Small Starts);
• Tolling strategies (e.g., managed lanes);
• Public-private partnerships;
• VMT fees (statewide and local);
• Value capture
• Local funding options available for implementation, such as local government infrastructure surtax, toll revenues, bond issues, impact fees, ad valorem taxes, municipal services taxing units or benefit, impact/mobility fees, county incentive grant program, transit fares, and joint development programs.

The Consultant will identify financial areas at the federal, state and local levels that may create impediments to large urbanized regions meeting their mobility needs. Impediments could include program rules, policies, legislation or other limitations that create impediments to large urbanized regions in Florida, intentional or not. This effort should consider the results of Task 6.1 and mismatches between where and how revenues are collected from our region and our region’s needs. The Consultant will consider specifically if some locally generated funds, by policy, should be repurposed to better align with large urban area needs. This information may assist in the development of one or more scenario in Task 7, Scenario Development and Analysis and will be included in a policy considerations chapter of the final RTP Report.

Develop a plan of action describing the steps necessary to enact some of the proposed sources, particularly those that require local action, including building support and consensus among the legislature and the voters. Develop a matrix of funding options based on ease, revenue, and applicable uses.

### 6.3 Documentation

Document the development of the financial plan, review of existing, potential, and innovative funding policies, potential impediments to urbanized regions, and cost estimation process and validation in a report titled “Financial Resources”. The information in this document will be presented to the RTTAC and SEFTC for approval.

The Consultant will add documents, reports, financial plans, results and other data collected in this task in the Electronic Data Inventory (EDI).

**Deliverables:**

a) Southeast Florida Transportation Financial Resources Report

b) EDI

c) Prior Forecast Evaluation versus “Actual” Report
7.0 SCENARIO DEVELOPMENT AND ANALYSIS

The Consultant will work with the RTP PM and RTTAC to develop and analyze an “existing trend” scenario and up to five additional “alternative” scenarios. The Consultant will look to national best practices and the work of earlier tasks to develop the proposed scenarios. The Consultant will also be responsible to develop and analyze one final RTP scenario, which may be the “trend” or combine elements from the trend and various alternative scenarios, to serve as the basis of the RTP.

Scenario analysis will include GOMs/Performance Measures and additional analysis as necessary to help provide clear quantitative and qualitative evaluation of the benefits of various elements of the scenarios. The analysis is intended to support and drive decision making on various innovative solutions to meeting 2045 RTP GOMs. The Consultant will develop innovative maps and other “dashboard” type materials to facilitate discussion and reveal differences between scenarios for varied audiences that may include the public, elected officials, and RTTAC.

The “alternative” scenarios are intended to provide a high level look at significant policies alternatives to “Trend” that, while requiring significant policy and/or legislative changes, Proposal compelling solutions to Southeast Florida’s transportation needs.

Some possible example scenarios include:

1. **Existing Trend** – assumes primary funding of roads with a focus on improving roads to support all modes but constrained by existing funding programs and their associated funding limitations;
2. **Transit Flexible** – assumes legislative changes to existing state funding programs to allow greater local funding flexibility between capital and operating;
3. **Regional Transit** – assumes new funding to support transit combined with existing funding programs with their existing funding limitations; and
4. **Focused Development** – Regional Transit scenario with an alternative land use scenario that focuses future development in downtowns and along corridors served by premium transit.
5. **Focused Development/Transit Flexible** – assumes legislative changes to existing state funding programs to allow greater local funding flexibility between capital and operating combined with an alternative land use scenario that focuses future development in downtowns and along corridors served by premium transit.

The RTTAC will establish the specific scenarios and the Consultant will be responsible for development of all data sets, networks, analysis, funding, and other materials necessary to perform the analysis necessary to fully evaluate the impact to the region’s transportation system of the scenarios and, based on those impacts, identify regional recommendations including policy changes beneficial to the Southeast Florida region. The consultant shall examine and explore urban design guidelines, development strategies and financial incentives to reinforce the linkage between land use and transportation planning. The proposed strategies should address the efficiency of the transportation system and opportunities for improving transit use, reducing auto trips and trip length and encouraging non-motorized travel.

The development of the socioeconomic data for scenarios is the responsibility of the Consultant in cooperation with the RTTAC. The Consultant shall use the socioeconomic data developed under each alternative to test the proposed transportation improvements and demonstrate the relation of efficient transportation investments, land use and socioeconomic growth.

The Consultant will prepare a Scenario Report that compares and contrasts the various scenario strengths, weaknesses, MOE/PMs, applicability to the region, etc. Key elements of this report will be the reasoning
behind the selected scenario for the RTP and identification of recommended policy changes necessary to support the regional GOM/PMs.

**Deliverables:**

a) Trend and Alternative Scenarios Report

b) Proposed “alternative” scenario model data sets
8.0 REGIONAL TRANSPORTATION NETWORK

The purpose of this task is to again review and refine the definitions and criteria used to develop and adopt a Regional Corridors Plan which incorporates the regional GOM/PM’s and vision and expand the results to develop the Regional Transportation Network. The Network will consist of corridors, intermodal hubs and major facilities for all modes.

The Consultant will begin this activity early in the RTP by reviewing and assessing the previous work performed by the RTTAC in the preparation of the 2040 RTP. Consideration will be given to any updates to emergency evacuation plans and changes in the criteria and designation of SIS facilities. Draft Scenario Regional Transportation Networks will be developed in support of the various scenarios. The results will be presented to the RTTAC.

The Consultant is responsible for the development of maps appropriate for review by RTTAC, public input, web site, and other purposes.

Deliverables:

a) Draft Scenario Regional Transportation Networks
b) Regional Transportation Network Report
c) Regional Transportation GIS Map
d) Network and GIS Files
9.0 MODEL SUPPORT

The Consultant is responsible for performing necessary regional travel demand modeling, which includes some development of socio-economic data files and networks necessary to support scenario analysis, execution of the Southeast Regional Planning Model (SERPM), setting standards, and performing associated analysis.

The Consultant will establish and maintain strong communication and coordination between the three MPO LRTP staffs and their respective consultants. To the extent possible given RTP schedule requirements and other project requirements, the Consultant will avoid duplication of LRTP work. Development of the RTP schedule will identify key RTP and LRTP modeling due dates to ensure timely support from both the MPOs and their consultants and the Consultant.

The Consultant will work closely with the RTTAC Modeling Subcommittee, including regular attendance at meetings, as modeling-related decisions are made throughout the duration of the project. Modeling review work for the Consultant will generally focus on the regional transportation network and external travel.

The following describes, for the RTP “trend” scenario, up to five “alternative” scenarios, and the final RTP scenario, the roles and responsibilities of the modeling process unless specified otherwise.

9.1 Modeling for the Needs Assessment

- The local MPOs will – Provide their 2045 socioeconomic data and committed project information to the Consultant for the Existing plus Committed (E+C) or “trend” alternative.

- The Consultant will - Prepare draft external passenger and truck trip forecasts using the Statewide Model, other regional models, and traffic count trends, then provide these numbers to the MPOs, FDOT Districts 4 and 6, and ultimately RTTAC for concurrence. The Consultant will also update to 2045 special generator trips for airports, seaports and other major logistic centers.

- The Consultant will - Prepare a regional demographic profile of base and horizon year statistics and ratios obtained from each MPO.

- The Consultant will – Code and run the E+C 2045 network. The outputs will be distributed to the local MPOs for their alternative testing. The MPOs and their consultants will review and conduct quality control of SERPM network coding for the 2045 E+C network.

- The Consultant will - Coordinate a meeting of the RTTAC Modeling Subcommittee to ensure continued communication during the development of the alternatives. During this meeting, it will be determined what baseline network will be used by each MPO as it develop their own alternatives.

- The local MPOs will – Develop “existing trend” (baseline) Needs scenario on the 2045 E+C network, and conduct their Needs Assessment on the baseline Needs network. This will serve as the “trend” alternative
and will not be one of the five other scenarios. The baseline network will be determined by the RTTAC Modeling Subcommittee, with the assistance of the Consultant. This baseline will be necessary to ensure all counties are developing their alternatives in a consistent manner. Once the alternatives are finalized and the Needs are identified, the MPO will submit the highway and transit project coding information to the Consultant for a QA/QC review.

- The Consultant will – Code the 2045 Regional Needs Assessment based on the information submitted by the local MPOs and run the regional model. The model outputs will be supplied to the local MPOs for review. Revisions and updates will be made where necessary. The Consultant will review the travel demand forecasts and MPO network alternatives in the vicinity of County line crossings and large regional intermodal facilities.

- The Consultant will – Analyze the 2045 Regional Needs Assessment to determine, from a regional perspective, what projects on the regional transportation network from each local alternative plan should be developed/altered to determine a regional network alternative.

- The Consultant will – Run the regional network alternatives (if additional projects/project alterations are developed) and revise where necessary based on the RTTAC review.

- The Consultant will - Prepare and summarize the 2045 Regional Needs Assessment network model statistics for performance measure reporting and present to the RTTAC.

9.2 Modeling for Scenario Testing

- The Consultant will – Utilize socioeconomic data sets developed by the Consultant in Task 7, Scenario Development and Analysis, to run the model on the E+C network to identify needs and deficiencies to begin development of the five “alternative” scenarios.

- The Consultant will – Code up to five 2045 Regional “alternative” scenarios and perform a Needs Assessment based on the information submitted by the local MPOs and run the regional model. The model outputs will be supplied to the local MPOs for review. Revisions and updates will be made where necessary. The Consultant will review the travel demand forecasts and MPO network alternatives in the vicinity of County line crossings and large regional intermodal facilities.

- The Consultant will – Analyze the model results to determine, from a regional perspective, what projects from the “alternative” scenarios should be incorporated into the Regional Cost Feasible Plan.

9.3 Modeling for the Regional Cost Feasible Plan

- The local MPOs will – Conduct analysis of local alternatives to develop their local LRTPs. Following these analyses, the local MPOs will provide the Consultant their LRTP Cost Feasible Plan project coding information.

- The Consultant will – Conduct a QA/QC review of the three counties LRTP Cost Feasible project
The Consultant will code the 2045 Regional Cost Feasible Plan, run the SERPM model and supply the model outputs to the local MPOs and their consultants for review. Revisions and updates will be made where necessary.

- The local MPOs will – Review the 2045 Regional Cost Feasible model outputs.
- The Consultant will - Prepare and summarize the 2045 Regional Cost Feasible Plan network model statistics for performance measure reporting. The 2045 Regional Cost Feasible Plan will be presented to the RTTAC and the SEFTC for endorsement.
- The Consultant will – Prepare 2030 and 2035 interim year networks based upon the project prioritization and phasing from the adopted Cost Feasible Plans.

Any changes related to the modeling portion of this project must be approved by the Regional Contract Manager and the RTTAC Modeling Subcommittee prior to conducting the work.

**Deliverables:**

a) Regional Demographic Profile report  
b) External Trips and Truck tables  
c) “Trend” E+C Network Report  
d) “Alternative” Scenario Networks and Results Report  
e) Cost Feasible Network and Model Statistics Report

### 10.0 REGIONAL TRANSPORTATION PLAN

The purpose of this task is to combine and integrate the results of the “final” RTP scenario analysis with other regional analysis, plans by others including the MPO LRTPs, other modes, strategies, and funding issues that can’t be adequately captured by traditional long range transportation demand modeling to develop a comprehensive and inclusive RTP, which is consistent to the extent possible with the three MPO LRTPs. The development of the RTP will consider the effects of programs to implement Transportation Demand Management (TDM) and Transportation System Management and Operations (TSM&O) programs at the regional level. The RTP will incorporate highways, transit, rail, waterway, pedestrians, bicycles, and other relevant modes recommended by RTTAC when determining movement of people and goods. The development of the RTP will also consider measures to reduce transportation pollution (e.g., greenhouse gas emissions) and mitigate future impacts of extreme weather and coastal and inland flooding on the transportation system.
The RTP for Southeast Florida will be based upon transportation and mobility solutions consistent with the approved regional GOMS/PM. Input from the Regional Freight Plan, as updated in the 2045 RTP, the Regional Greenways and Trails Plan and other regional planning activities as per RTTAC will be included in the development of the RTP. The recommendations from the Southeast Florida Regional Climate Change Action Plan, including associated transportation system vulnerability assessments, will be consulted in evaluating needs. The Consultant will identify the recommendations impacting the development of the RTP and present the results to the RTTAC. Scenario development and regional modeling will be closely coordinated and linked with this task.

10.1 Cost Estimates

The MPO LRTP efforts will serve as the primary source of cost estimate information. However, the Consultant may be responsible for development of planning level cost estimates where cost information is not available from the MPOs. For public transportation/transit projects, where operating and maintenance costs have become the key funding impediment to actual implementation and MPO LRTP estimates are not available, the Consultant may be required to develop planning level annual O&M costs estimates. When other study or plans, including MPO LRTPs, have more detailed cost information available, that information should be utilized. When necessary, the Consultant will development and document of generally representative unit costs based, in preferential order, upon local Southeast Florida regional information, then state level data, then national level to be used when more detailed project specific costs are not available. As appropriate for a particular recommended improvement, each project cost estimate should consider planning, design, right-of-way, and construction costs. Transit will include O&M. The Consultant will evaluate each project to identify eligible funding sources based upon the work of Task 6.

10.2 Transit

In identification of potential regional transit improvements to support the various scenarios, the Consultant shall focus on, but is not exclusively limited to, existing transit plans such as the 2040 RTP, Miami-Dade SMART plan, SFRTA Strategic Regional Transit Plan, Transit Development Plans, and other documents and plans identified in Task 4.

The Consultant will consider regional transit solutions appropriate for the various scenarios with a focus on addressing service deficiencies defined by travel markets, land use, and ability to maximize overall system GOMs/performance measures for a particular scenario.

The Consultant will prepare and utilize maps of regional trip flows, existing regional transit services like Tri-Rail and Express Buses, regional activity centers, land uses, population, employment, etc. to assist the RTTAC in understanding and supporting potential regional transit corridors beyond the E+C network or other planned
transit projects. Deficiencies in the existing system (2045 on E+C) will be identified. The Consultant will develop a process and criteria to screen all potential transit corridors of regional significance, including managed lanes, serving major transit markets. The screening and series of maps will be used to assist the study partners in the evaluation of regional transit services in existing and planned transit corridors as well as the identification of new or alternative regional transit corridors.

For each corridor, a conceptual project will be developed for additional evaluation based upon ridership potential, land use (with an emphasis on FTA land use criteria and projected densities), availability of right-of-way (ROW), the ease of implementation, demographics, and other considerations. The concept projects will define the assumed transit service characteristics for each high opportunity corridor, but may vary by scenario. In addition to project GOM/performance measures, the Consultant will consider additional evaluation criteria helpful and appropriate for comparative analysis of the identified high opportunity corridors. For example, criteria could consider some or all of FTA’s New Starts evaluation criteria. Those corridors demonstrating a viable potential of effectively improving the transit network based upon the screening analysis will be further defined to identify travel speeds, whether shared or exclusive ROW, station/stop spacing, peak/off-peak frequencies, and service hours. The corridor service characteristics may vary by alignment chosen for testing, and may or may not be mode-specific but must be adequate to develop planning level understanding of key evaluation metrics and capital and O&M costs.

10.3 Regional Non-Motorized Transportation

The purpose of this task is to incorporate non-motorized transportation modes into the overall RTP. Various local and regional planning activities for bicycles and pedestrians are under development or have been completed, including the 2040 RTP. The Consultant will update the 2040 RTP to incorporate the latest non-motorized transportation plans into the RTP and, as necessary for specific scenarios, identify new needs.

10.4 Freight

The Consultant will develop a regional level update of the 2040 Southeast Florida Freight Plan, primarily by looking at project updates from partner agencies identified in Task 4. The Consultant may be asked to supplement and/or modify freight to support individual scenarios.

10.5 Other Considerations

The Consultant will consider Transportation Demand Management (TDM) measures that reduce demand on the regional transportation network, Transportation System Management and Operations (TSM&O) measures that maximize the efficiency of the regional transportation network, new and emerging technologies, and other solutions that may support one or more scenario will be considered by the Consultant.
10.6  Project Prioritization

The purpose of this task is to develop a project prioritization process based on regional need and regional funding opportunities. The Consultant shall research and incorporate as appropriate best practices in project prioritization into the development of the regional project prioritization process. The Consultant will consider alternative prioritization methods as directed by RTTAC that integrate the MPO LRTPs with the RTP.

10.7  Regional Policy Considerations

The purpose of section is for the Consultant to document in the RTP policy considerations that helped shape the RTP. Support and limiting policies will be identified and recommendations made for areas where specific policy changes would strengthen Southeast Florida’s ability to ensure a strong transportation future consistent with the adopted GOM/PMs.

The Consultant will prepare a draft RTP report with a prioritized list of projects fully consistent with that of the individual MPO LRTPs. Upon adoption by all MPO LRTPs, the consultant will update and finalize the map.

Deliverables:

a) Unit Costs Report
b) Regional Project Prioritization Memorandum
c) 2045 Regional Transportation Plan – Draft
d) Adopted 2045 Regional Transportation Plan – Final
e) PowerPoint Presentation
f) Executive Summary
g) RTP Map Series
h) EDI

11.0  DOCUMENTATION

All documentation will be submitted to the PM. The RTP reports and supporting documents will be presented to the RTTAC and SEFTC for approval and adoption. The Consultant will present to the individual MPO Boards and relevant subcommittees. The documentation will include maps, tables and charts necessary to present the process and analyses used in the development of the 2045 RTP and its components. The documentation will also include technical memorandums for the various tasks performed in preparing the RTP. All documents will be delivered to the PM for approval prior to Consultant distribution to the RTTAC in electronic form. At the request of the PM, hard copies of the memos will be delivered to the RTTAC. Once finalized, hard copies of the RTP will be delivered to the RTTAC by the Consultant.
Whenever possible, all documents will be prepared and shared electronically to minimize costs and waste associated with paper copies. A limited number of paper final RTP Reports will be required along with a large number of Executive Summary documents for wide distribution.

12.0 SEFTC SUPPORT SERVICES

The Consultant will support BMPO staff in executing the duties of SEFTC as per the Interlocal Agreement. Duties include: organizing, advertising, preparing for and holding up to 100 meetings of the SEFTC, RTTAC, and RTTAC subcommittees; an annual report documenting the progress and accomplishments of regional goals and objectives; a list of anticipated regional tasks and funding for those tasks under the respective MPOs. Support services may include the preparation of meeting agenda, coordination with presenters, ensuring necessary electronic equipment (i.e., laptops, recording materials, etc.) is available, assisting with room reservations, and meeting notices. The Consultant will prepare a “combined” annual meeting schedule for SEFTC, RTTAC, and RTTAC subcommittees annually for RTTAC approval in the 4th quarter of each calendar year.

The Consultant will host and maintain the SEFTC web site during the life of the contract and is responsible for on-going maintenance and posting of relevant materials such as meeting notices, schedules, RTP materials. The Consultant will transfer all existing SEFTC web related materials from the prior consultant team and others and ensure the domain name(s) are paid throughout the entire contract period without lapse. This maintenance will include adding appropriate infographics and other applicable content. SEFTC web will provide links to each MPO web site and FDOT web site, as well as other appropriate links, which may include specific projects links as deemed appropriate by RTTAC. A major update of the web site, including layout, color, schemes, etc. will be performed upon SEFTC endorsement of the RTP.

The BMPO will provide the Consultant at least one week notice to prepare for meetings and one week to prepare and submit draft meeting minutes.

Consultant SEFTC support services will continue after conclusion of the RTP for a period of five years, when the next MPO is prepared to begin SEFTC support.

The Consultant will work with the Regional PM to identify the meetings to be attended throughout the preparation of the 2045 RTP.
