

ALL HAZARDS TRANSPORTATION RECOVERY PLAN

Who should attend?

Transit and transportation planners from MPOs and institutions that have responsibility to create, review, fund, implement, and/or execute emergency operations and transportation recovery plans. This includes personnel with the direct responsibility for emergency management as well as other representatives from transit agencies, city and state departments of transportation, major employers, paratransit providers, developers and existing TDM entities.

Training Topics

- Define All Hazards Transportation Recovery Planning
- Lessons learned from past events
- Overview of Regional Emergency Plans and Transportation System
- Communications
- Roles and Responsibilities in recovery planning and implementation
- Risk Assessment
- Toolbox of strategies for multi-modal recovery plans including operations, communications, transit, TDM, ITS and leveraging use of social media
- Tools and methods to prioritize investments to be made during recovery phase and beyond
- Legal, financial and contracting Issues
- Development of action plan, recommendations, and next steps for developing, refining, training, and testing a recovery plan
