Lauderhill Transportation Master Plan

Staff Working Group Meeting #4 Plan Study Area Selection

February 27, 2025

BrowardMPO.org

Agenda

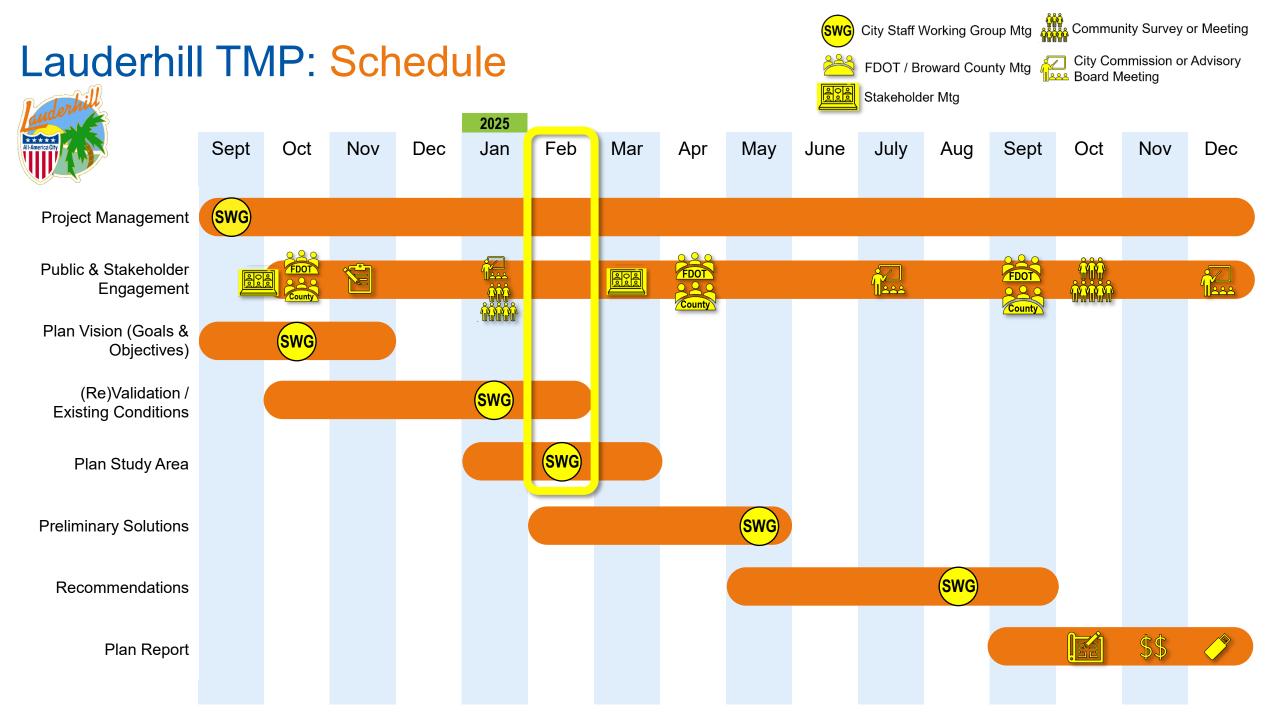

- 1. Lauderhill TMP: Schedule
- 2. Selection of Plan Study Area
- 3. Next Steps

Attachments:

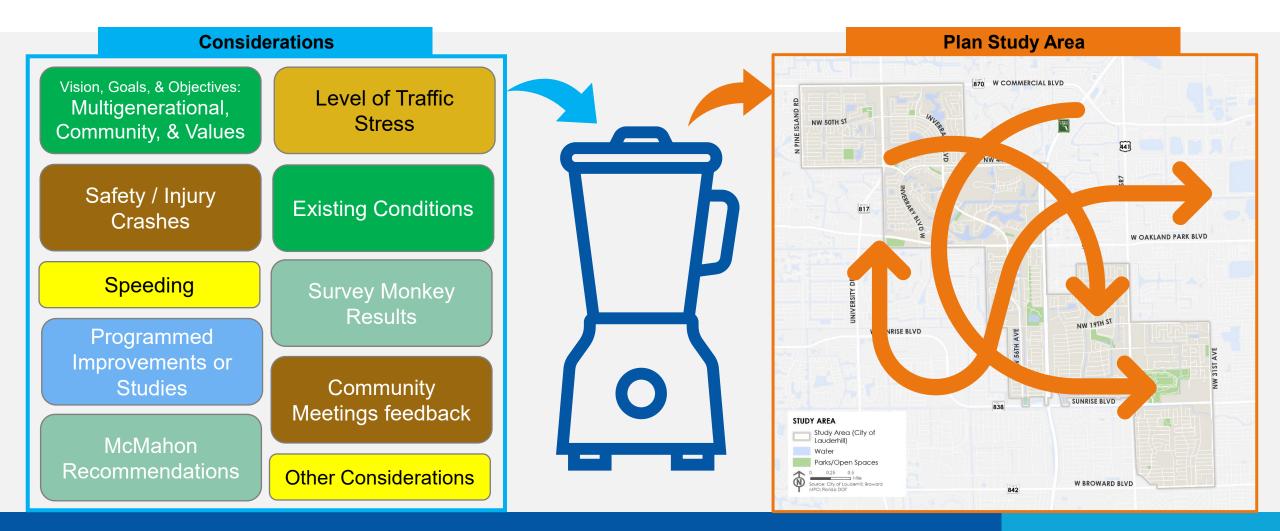

- 1) Vision, Goals and Objectives
- 2) Evaluation Framework
- 3) Community Meetings Comments

Meeting Goals:

✓ Select Plan Study Area roadways

Lauderhill TMP: Plan Study Area Selection

browardmpo.org

Lauderhill TMP: *Suggested* Plan Study Area

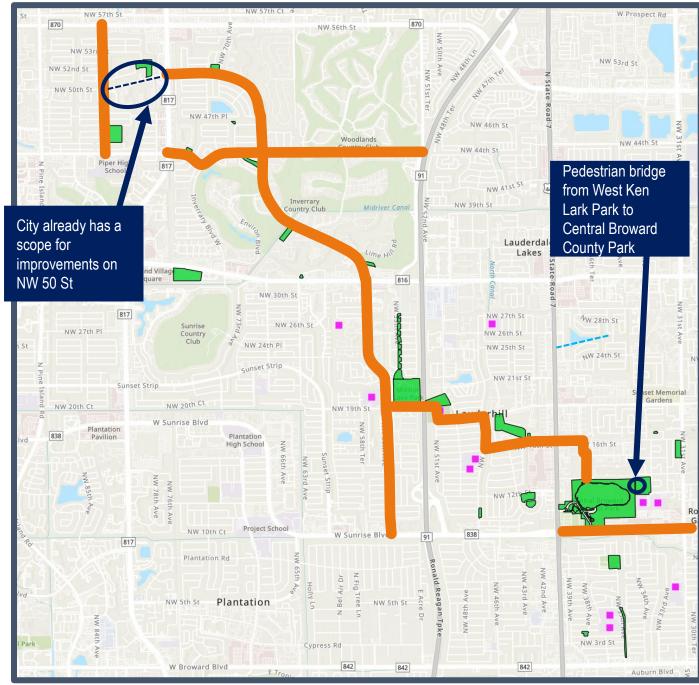

= Suggested Plan Study Area

The **Suggested** Plan Study Area is comprised of six roadways, primarily city-owned, that will improve roadway safety and citywide connectivity.

The **Suggested** Plan Study Area was identified based on data review and community engagement feedback, as well as the opportunity for improvements.

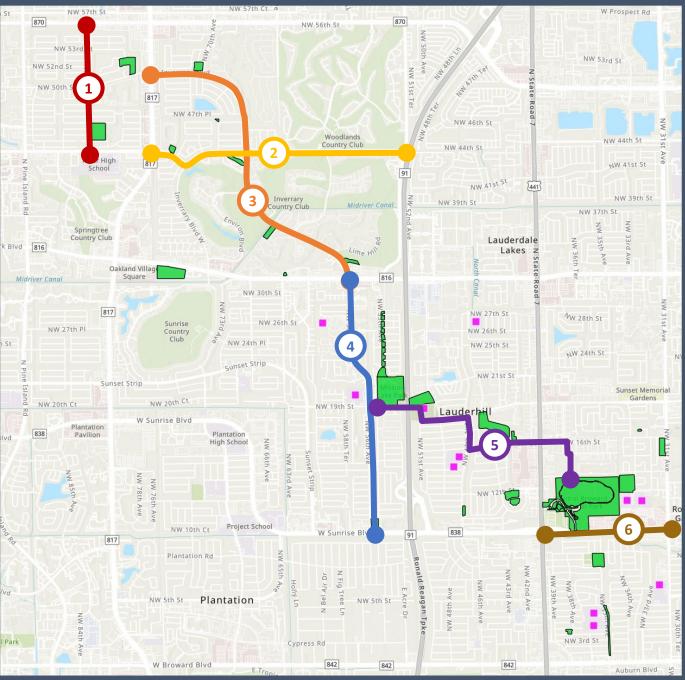

The **Suggested** Plan Study Area should not be considered "recommendations" as other roadways may be selected in consideration of city priorities or other conditions.

Destinations connected by the *Suggested* Plan Study Area : Piper High School, Piper Field (City of Sunrise), Westwind Park, Veteran's Park, Jackie Gleason Park, Waterford Park, Ruth Rothkopf Park, Botanical Gardens, City Hall, Endeavour Primary Learning Center, Royal Palm Elementary School, South Gateway Park, John E Mullin Park, STEM 6-12 School (& Field), Paul Turner Elementary School, Lauderhill Mall, Central Broward County Park, Lauderhill Performing Arts Center, Lauderhill Central Park Library, Swap Shop, West Ken Lark Park, Larkdale Elementary PLUS access to BCT Routes 55, 2, 81, 19, and 36 and all Community Shuttle Routes.

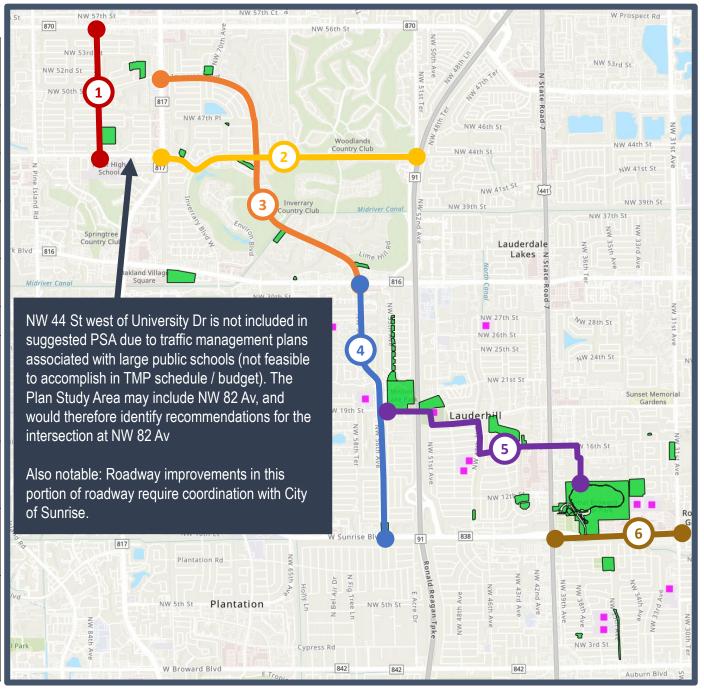

1 NW 82 Av: Commercial Blvd to NW 44 St

Walk to School (Piper HS); Wide ROW (accommodate Shared Use Path); Access to Park; Reduce barriers to cross roadways; Improve neighborhood roadway safety
3 KSI (1 on roadway, 2 at major intersections) Commercial Blvd & NW 44 St are both on BMPO's High Injury Network
45 MPH at both NW 44 St and Commercial Blvd; School Speed Study @ NW 44 St: 29.5% violation during AM School Zone & 57.7% during PM school zone
None
Shared Use Path + Roundabout at NW 50 St. Did not address major intersections (Commercial Blvd and NW 44 St), traffic calming, or street lighting
Bike 2 / Ped 1
4-way stops; Speed humps; Unsignalized full access at Commercial Blvd; 1,000'+ between controlled crossing opportunities
#1 Destination: Parks (direct access to Westwind Park, indirect access to City of Sunrise Piper Park) (For major roads to be improved for walkability: Commercial Blvd ranked #2)
Cut through from Commercial Blvd to NW 44 St; Dark / Better street lighting; Safety at intersections Commercial Blvd (want signal) and NW 44 St (want left turn signal); Cars not stopping at 4-way stops
City-owned Roadway (State and County Owned intersections); Opportunity to identify standard improvements for a typical "neighborhood roadway"; identify ADA improvements

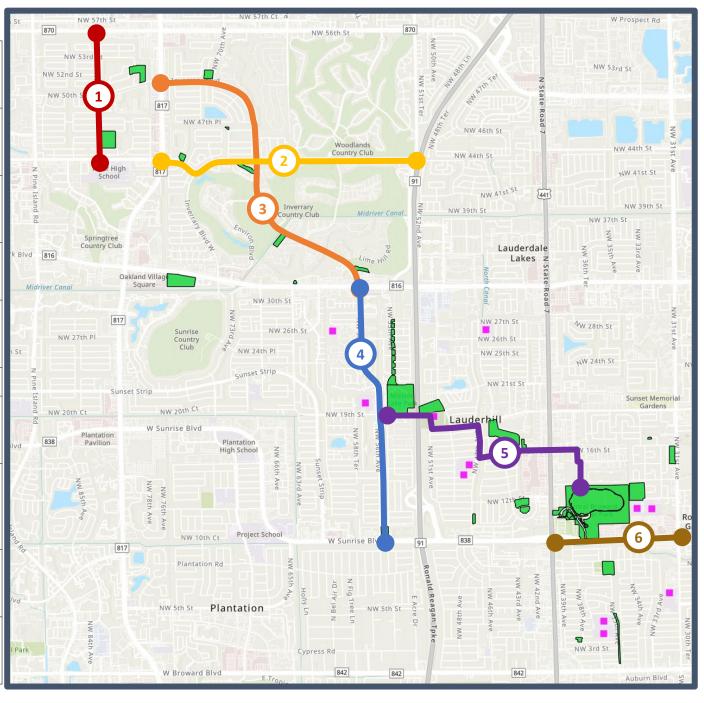

2 NW 44 St: University Dr to Rock Island Rd

55+ communities; Safety for all ages; Walk-to-school (observed BCPS Bus Stops); Recreational and Essential Destinations (2 Parks & Synagogues); Reduce barriers to cross roadways; BCT & Community Shuttle
KSI (including ped & bicyclists) on roadway and at signalized intersections (except Inv Blvd W)
35 MPH (40 / 45 MPH at Major Intersections); Drivers observed speeding or not stopping for people crossing on field visits
None
Convert painted median to raised median. Did not include new crossings, widening sidewalks or improved bike facilities, traffic calming, or street lighting
Bike 3 / Ped 4 (&1)
Painted bike lanes – Bike lanes drop at intersections; Cyclists frequently observed riding on sidewalks; Special Population – walking to synagogues; Painted center medians (except area west of Inv Blvd W); Frequent uncontrolled intersections allowing left turns in and out; Distances without marked crossings
Priority Roadway for Walkability #4 / 29% ranked #1 (For major roads: University Dr ranked #5) #1 Destination = Parks; #2 Destination = Synagogues or Church
Crossing roadway to access Synagogue (want crosswalks at NW 70 Av & NW 72 Av); Safety at intersection with Inverrary Blvd; Sidewalk gaps on north side east of Inverrary Blvd; Dark at night
City-owned Roadway (State and County Owned intersections); Programmed Turnpike Interchange from Rock Island Rd may cause impacts to NW 44 St, due to direct connection to Rock Island Rd. Broward County's Low Stress Mobility Master Plan identified opportunity for this roadway to be developed as Low Stress bike / ped route

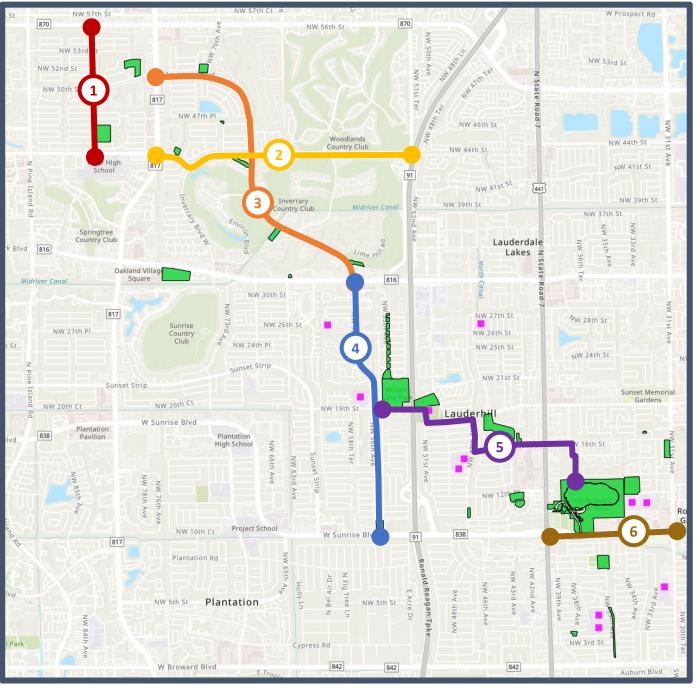

3 Inverrary Blvd: University Dr to Oakland Park Blvd

TMP Vision	55+ communities; Safety for all ages; Walk-to-school (observed BCPS Bus Stops); Recreational and Essential Destinations (4 Parks, Synagogues, City Hall, & Grocery Stores); BCT & Community Shuttle; Links to multiple parks
Safety	KSI (including ped & bicyclists) on roadway and at signalized intersections (except University Dr) Roadway on BMPO High Injury Network and High Risk Network
Speeding	30 MPH (45 MPH at Intersections for University Dr & Oakland Park Blvd) 1/2024 Speed Study @ 3200 Inverrary Blvd: 85% at 47 MPH and Max Speed 104 MHP
Programmed Improvements & Studies	Oakland Park Blvd: BCT – Bus Rapid Transit
McMahon	Improvements only identified for Major Intersections and Inverrary Dr. No corridor improvements including crossings, improved bike facilities, traffic calming, wayfinding, or street lighting
LTS	Bike 3 / Ped 4 (&1)
Notable Conditions	Painted bike lanes – Bike lanes drop at intersections / cyclists frequently observed riding on sidewalks; Sidewalk gaps; ½ mile distance between signalized crossings, Marked crossing with no signalization
Survey Monkey	Priority Roadway for Walkability #1 (For major roads: University Dr ranked #5; Oakland Park Blvd ranked #1) #1 Destination = Parks; #2 Destination = Synagogues or Church #1 Concern: Speeding (or dangerous driving)
Community Meeting Comments	Sidewalks are tight or obstructed; Missing sidewalks; Safety at intersection with NW 44 St; Crossing roadway to access synagogue; Left turn signal for NW 70 St; Speeding;
Other	City-owned Roadway (State Owned intersections); Anticipated redevelopment of golf courses; Significant sidewalk gaps south of Inverrary Dr; Mature shade trees

4 NW 56 Av: Oakland Park Blvd to Sunrise Blvd

TMP Vision	Walk to school; Essential Destinations along Oakland Park Blvd; Social, Recreational, and Essential Destinations (South Gateway Park, City Hall, and Grocery Stores); BCT & Community Shuttle; Neighborhood connections; Reduce barriers to cross roadways
Safety	KSI (including ped & bicyclists) throughout roadway Roadway on BMPO High Injury Network
Speeding	 30 MPH (45 MPH at Intersections for Oakland Park Blvd & Sunrise Blvd) 6/2024 School Speed Studies: (1) 1900 NW 56 Av: 60% of vehicles violated school speed zone (18% violation during school hours) (2) 2700 NW 56 Av: 28% of vehicles violated school speed zone (10% violation during school hours)
Programmed Improvements & Studies	Oakland Park Blvd: BCT – Bus Rapid Transit
McMahon	Improvements only identified for intersections at Oakland Park Blvd, NW 19 St, and Sunrise Blvd; No roadway improvements including speed management or mid-block crossings
LTS	Bike 3 / Ped 1
Notable Conditions	Painted bike lanes – drop at intersections; Bike Lanes may not be comfortable for all ages and abilities; Marked crossing with no signalization; two school speed zones; Only full-city north/ south route through central Lauderhill; Long distances between controlled crossings.
Survey Monkey	#1 Destination: Parks #1 Concern: Speeding (or dangerous driving) Prioritized Major roads: Oakland Park Blvd ranked #1, Sunrise Blvd ranked #3
Community Meeting Comments	Speeding; Dark / want more lighting; Intersection safety at Oakland Park Blvd and Sunrise Blvd
Other	City-owned Roadway (State Owned intersections); Southern continuation of Inverrary Blvd; Utilized as north / south cut through route

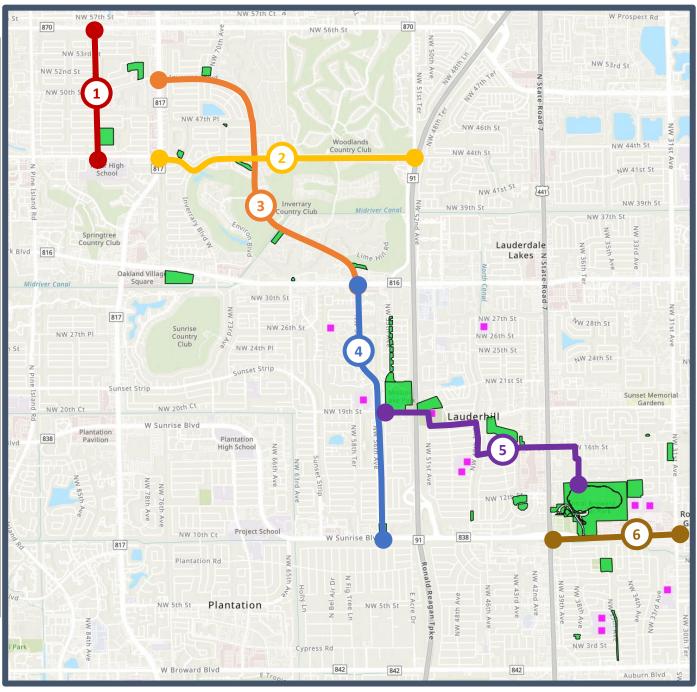

5 NW 19 St to County Regional Park

5 N	W 19 St to County Regional Park	NW 57th St	NW 57th C	NW 56th St		W Prospect Rd
TMP Vision	55+ communities; Walk to school; Social, Recreational, & Essential Destinations (City Parks, County Park, Library, Performing Arts Center, and Grocery Stores); BCT & Community Shuttle; Safer neighborhoods + benefits various neighborhoods; Links to multiple parks	NW 53rd t NW 52nd St	and a second sec		NW SOTA AVE	NW 53rd St
Safety	KSI at intersections of NW 19 St @ NW 56 Av and NW 16 St @ US 441 US 441 on BMPO High Injury and High Risk Networks		817 NW 47th PI		st Ter	
Speeding	 25 MPH (40 MPH at Intersections for US 441) 5/2024 Speed Study @ 4300 – 4700 NW 16 St: 85% at 33 MPH 6/2024 School Speed Studies: (1) 1900 NW 56 Av: 60% of vehicles violated school speed zone (2) 1900 NW 49 Av: 50% of vehicles violated school speed zone (3) 4700 NW 16 St: 39% of vehicles violated school speed zone 	Springtree Country Club	Invertant Blue M	2 Inverrary Country Club Midriver Canal	direct access to th Park).	which would provide
Programmed Improvement s & Studies	NW 16 St Bike / Ped Improvements – Construction 2024 NW 38 Av Roadway Extension – Design FY 2027 Turnpike Widening (replacement of pedestrian bridge) – Design FY 2029 NW 49 Av CSLIP Project – Design FY 2028	iver Canal Square 817		Dth St	Lakes 2 Control Control Contro	NW 28 h St
McMahon	NW 19 St Extension – Convert Pedestrian Bridge to 2-lane roadway NW 19 St @ NW 47 Av - Convert to Roundabout	NW 27th PI	Country Club		NW 26th St NW 25th St	NW Ath St
LTS	Bike 4 (&2) / Ped 1 (intersection of US 441 is 4)	Sunset Strip			NW 21st St	Sunset Memorial Gardens
Notable Conditions	Portion of route is located on Broward Schools property; Share the road bike facilities to be installed in 2025; several 4-way stop intersections; High stress crossing at US 441; Existing / planned bike facilities not comfortable for All Ages & Abilities in some places.	NW 20th Ct Plantation Pavilion	NW 20th Ct Sunrise Blvd Plantation High School	NW 19th St NW 58th Ter Sun	Lauderhill	V 16th St
Survey Monkey	#1 Destination: Parks #1 Concern: Speeding (or dangerous driving) NW 16 St - Priority Roadway for Walkability #5	NW 78th Ave	NW 76th Ave	set strip	NW 12th	Ro
Community Meeting Comments	More street lights / dark at night; Speeding on US 441; Bus improvements; Invest in safer roads; Sidewalk maintenance	817	NW 10th Ct Project Sch	W Sunrise Bl	91 838 Ronald NW 4	
Other	City-owned Roadway (State Owned intersection and Bridge; BCPS owned Shared Use Path); The route shown reflects NW 38 Av extension to County Regional Park. The Turnpike PD&E report includes replacing the pedestrian bridge. Potential to identify improved facilities to the pedestrian bridge. Broward County's Low Stress Mobility Master Plan identified pedestrian bridge as a low-stress ped/bike linkage.		NW 5th St Plantation	Cypress Rd	2nd Ave	NW 30th Ter NW 38 th Ave NW 39 th Ave NW 37 th Ave NW 37 th Ave

6 Sunrise Blvd: US 441 to NW 31 Av

TMP Vision	Recreational and Essential Destinations (County Park, Library, Performing Arts Center); BCT; Reduce barriers to crossing roadways; Opportunity to improve roadway resilience and comfort
Safety	Significant KSI along roadway Roadway on BMPO High Injury and High Risk Networks
Speeding	45 MPH
Programmed Improvements & Studies	Sunrise Blvd Canal Shared Use Path – Construction May 2025 Sunrise Blvd RRR – Construction 2027
McMahon	Improvements identified for intersections at NW 56 Av and NW 47 Av; For intersection at NW 34 Av improvements focus on signal timing and congestion management; Conversion of raised intersection (441) to at-grade; Construct ped bridge adjacent to access to County Regional Park; Water taxi Service
LTS	Bike 4 / Ped 4
Notable Conditions	No bike facilities; Pedestrian Bridge for Swap Shop; Bus stops not near signalized crossings; Roadway widens to 8 lanes at intersection with NW 34 Av;
Survey Monkey	#1 Concern: Speeding (or dangerous driving) Priority Roadway for Walkability #3
Community Meeting Comments	Speeding near Swap Shop; People crossing roadway near Swap Shop; Hard to cross the roadway (Crosswalk at NW 34 Av feels unsafe)
Other	Stated-owned Roadway; Opportunity to identify improvements for future redevelopment of Swap Shop; Opportunity for reducing design speed along Sunrise Blvd; State Roadway requires additional coordination; Opportunity to further refine pedestrian bridge concept; Opportunity to improve proposed Shared Use Path crossing at NW 34th Ave; MTP 2050 Cost Feasible Plan includes Feasibility Study for conversion of raised intersection (US 441) to at-grade. This TMP will not assess this concept.

Lauderhill TMP: **Suggested** Plan Study Area + Survey Monkey Priority Roadways

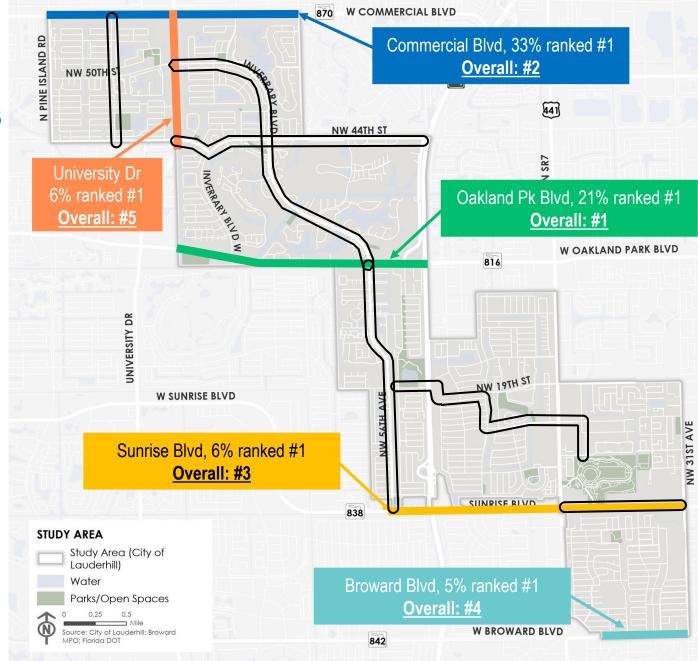

Intersections on Commercial Blvd, University Dr, and Oakland Park Blvd would be assessed as part of the **Suggested** Plan Study Area.

Feedback from the Survey Monkey and the Community Meetings suggests the concerns from the community are crossing these roadways. The **Suggested** Plan Study Area would identify the improvements needed to make crossings these roadways safer and more comfortable.

The **Suggested** Plan Study Area includes Sunrise Blvd plus the intersection at NW 56 Av.

See "Notes on roadways not included in Suggested Plan Study Area" for further information.

Regional Roadways Prioritized for Walkability

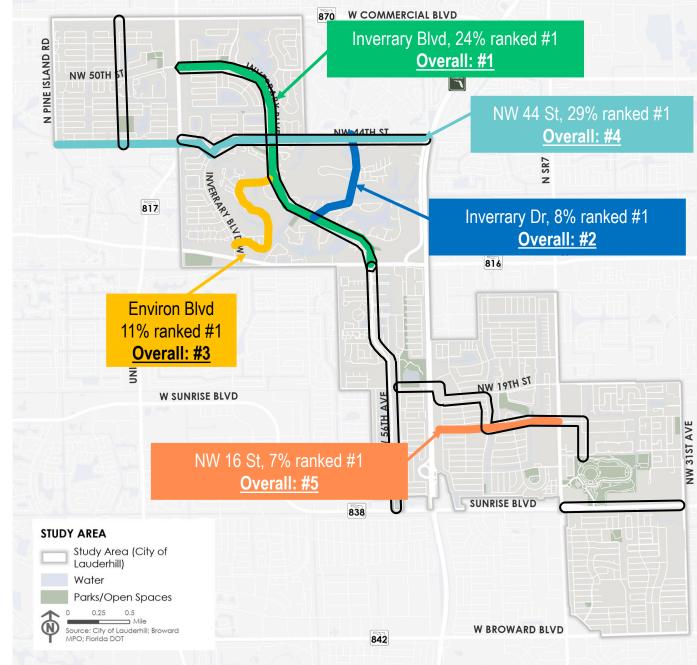

Lauderhill TMP: **Suggested** Plan Study Area + Survey Monkey Priority Roadways

The *Suggested* Plan Study Area includes all or a portion of the three of the highest ranked local roadways. The *Suggested* Plan Study Area covers a larger area of the City, versus the Survey Monkey prioritized local roadways.

See "Notes on roadways not included in Suggested Plan Study Area" for further information on Environ Blvd and Inverrary Dr.

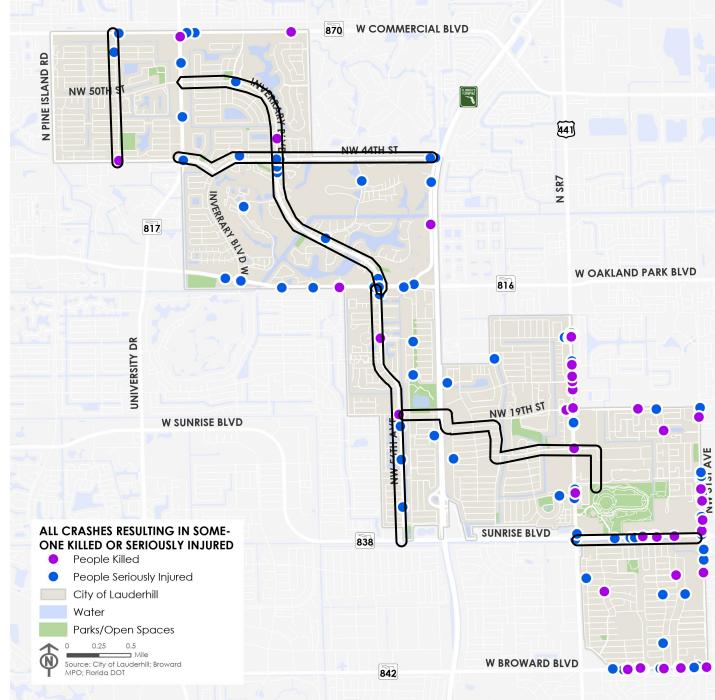

Local Roadways Prioritized for Walkability

Lauderhill TMP: **Suggested** Plan Study Area + 5-Year KSI Locations

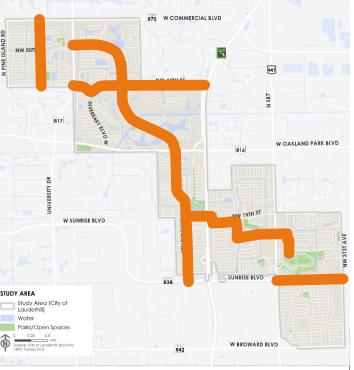

The **Suggested** Plan Study Area includes both roadways and intersections that have a recent history (2019-2023) of crashes resulting in fatality or serious injury. Several roads (Inverrary Blvd, NW 56 Av, Sunrise Blvd) are on the BMPO High Injury Network, plus others intersect with roadways on the High Injury Network.

Recommendations developed in for the TMP would address not only KSI crashes, but all crashes resulting in injuries. Additionally, the TMP will consider anticipated redevelopment and other conditions to identify locations with a high risk for injury crashes.

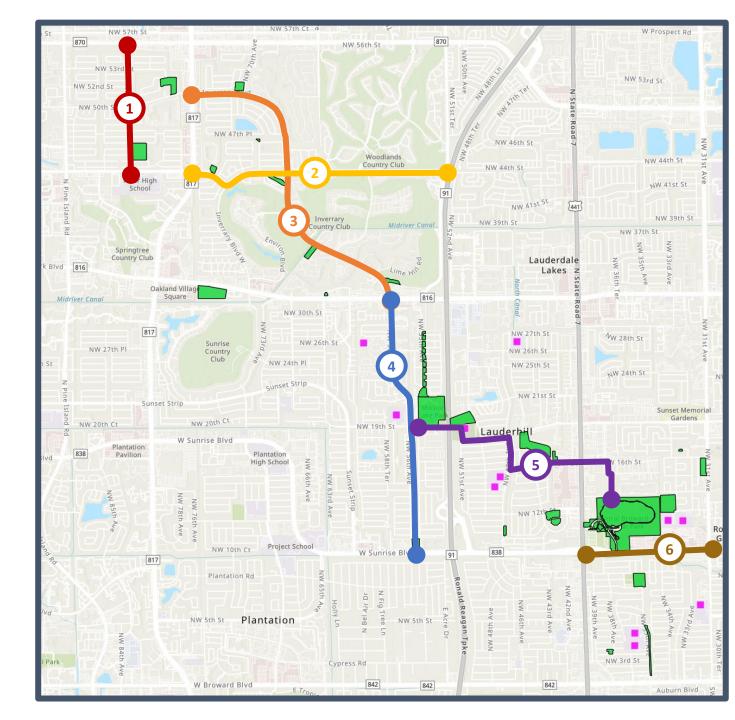

Notes on roadways not included in *Suggested* Plan Study Area

Pine Island Rd	County recently identified improvements for Pine Island Rd as part of Surtax - no improvements identified for this area	
Commercial Blvd	FDOT is starting construction on improvements to Commercial Blvd – minor signalization improvements for this area; Roadway improvements would require coordination with City of Tamarac.	RV SOT
NW 50 St	City has a scope for NW 50 St (also scope included in McMahon Plan).	
Inverrary Blvd West	Bike lanes recently installed; However, roadway could benefit from speed management and improved crossings	
Environ Rd	McMahon plan includes scope and costs for sidewalk and bike lanes; However, roadway could benefit from speed management and improved crossings	isi7
Inverrary Dr	McMahon plan includes scope and costs for sidewalk and bike lanes; However, roadway could benefit from speed management and improved crossings	
Oakland Park Blvd	Too many unknowns with Broward County's plan to develop Bus Rapid Transit on roadway. City should advocate for improved crossings and speed management during BRT design phase	W SUNRISE BLVD
Rock Island Rd	Road is disconnected from Inverrary neighborhoods, parks, and schools. Roadway will be rebuilt as part of the Turnpike Widening project. Broward County has indicated they will request multimodal facilities during project design phase.	B38 SUNRISE BLVD
NW 55 Av	BMPO will prepare a consolidated scope and cost estimates based on prior NW 55 Av Study.	STUDY AREA Study Area (City of Laudentill) Water
NW 49 Av	Roadway improvements programmed in CSLIP project. City may want to reconsider scope to add additional traffic calming at 4-way intersections and bike facilities	Parks/Open Spaces
NW 47 Av	Full roadway was considered for Plan Study Area to address speed management and intersection safety. Portion of roadway is intended to be in being improved as part of ongoing FDOT-construction project. City might consider waiting for completion of project to determine if additional imp	· · ·
NW 19 St	Improvements have been identified for roadway as part of the Broward Safety Action Plan	
NW 12 St	Roadway improvements programmed in CSLIP project. City may want to reconsider scope to add additional traffic calming at 4-way intersection	s and bike facilities
US 441 / SR 7	State-owned facility; FDOT is already in design phase for RRR. City might request FDOT implement the BSAP recommendations for this segme	nt of US 441.
NW 31 Av	Improvements have been identified for roadway as part of the Broward Safety Action Plan	
Broward Blvd	Limited segment of large arterial roadway. Portions of roadway east and west of this area are included in Broward Safety Action Plan. City could segment.	request FDOT to implement safety improvements for this
Ken Lark neighborhood road	Both NW 19 St and NW 31 Av are part of the Broward Safety Action Plan; Improving these roadways should have positive impacts on neighborh concerned about large roadways outside of neighborhood.	ood. Feedback from Community Meetings indicate residents are
Broward Estates neighborhood road	US 441 and NW 31 Av are part of the Broward Safety Action Plan; Improving these roadways should have positive impacts on neighborhood; Ho management maybe beneficial on local roads. Feedback from Community Meetings indicate residents are mostly concerned about large roadwa	• •

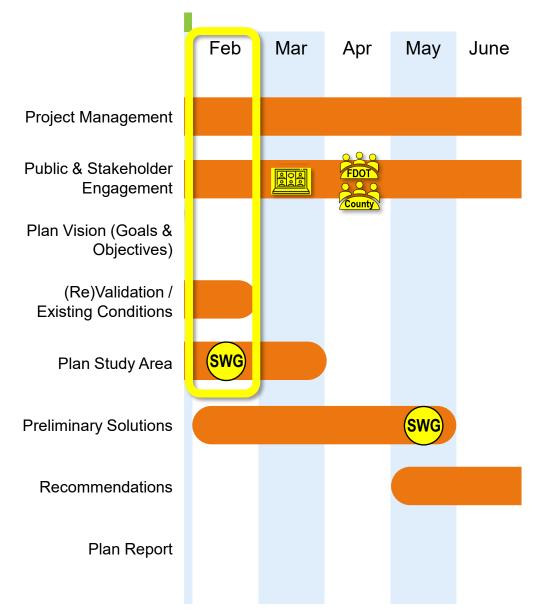

Lauderhill TMP: Plan Study Area Selection

SWG Discussion

Lauderhill TMP: Next Steps

MPO Next Steps

- 1. Field Audits for Plan Study Area roadways (revisit the 6 roadways to observe facility conditions, plus pedestrian and driver behaviors)
- 2. Additional Data Collection for Plan Study Area roadways (5-year review of injury crashes (trends for each roadway such as crash type, time of day, weather conditions, identify hot spots, etc...)
- 3. Update Existing Conditions Map Series
- 4. Identify Potential Solutions for Plan Study Area
- 5. Presentation to Broward County's Bicycle and Pedestrian Advisory Committee (**NOT** including Potential Solutions)
- 6. Meetings with FDOT & Broward County: Plan Study Area Existing Conditions & Potential Solutions (1993 Interlocal Agreement with Broward County and Lauderhill transferred Traffic Engineering functions for City-owned roadways to Broward County).
