GUIDING PRINCIPLES

Our Mission

To collaboratively plan, prioritize, and fund the delivery of diverse transportation options.

Our Vision

Our work will have measurable positive impact by ensuring transportation projects are well selected, funded, and delivered.

EXECUTIVE SUMMARY

Introduction

The Broward Metropolitan Planning Organization (MPO)'s Transportation Improvement Program (TIP) is a five-year program that prioritizes and documents the funding of transportation improvement projects the region expects to build over the next five years. The projects include reconstruction, maintenance, and operation of major highways, arterials, and intersections; maintenance and expansion of the public transit, aviation, and port systems; construction for bicycle paths, and improvements for pedestrians within the Broward region. The TIP is a tool to advance projects from Long Range Transportation Plan (LRTP) to a short-range five-year program through the Multimodal Priorities List (MMPL). All TIP projects are evaluated to assure consistency with the goals and objectives of the LRTP 2045. The LRTP 2045 is also known as Commitment 2045 Metropolitan Transportation Plan (2045 MTP).

The Broward MPO is the agency responsible for transportation planning, intergovernmental coordination, and transportation funding allocations in Broward County. Each year, the MPO updates the TIP to decide how to spend federal, state, and local transportation funds for capital projects. Guided by the Broward MPO's goals and objectives, the Broward MPO works with the public, planning organizations, government agencies, elected officials, and community groups to develop the TIP.

Federal Fiscal Years FY 2022-2026 TIP Overview

Investments included in the TIP (excluding information only projects) with funding from federal (Federal Highway Administration (FHWA) and Federal Transit Administration (FTA)), state and local sources are in excess of $5.1 billion, covering aviation, bicycle/pedestrian, highways, seaport, rail, and transit. The TIP funds a total of 452 projects. Figure ES-1 shows that five funding sources are used to implement projects in the TIP FY 2022-2026. Both funding sources "Federal" and "State" account for about 32% each of the TIP. Figure ES-2 shows how the investments for FYs 2022-2026 are distributed across transportation modes.

DRAFT

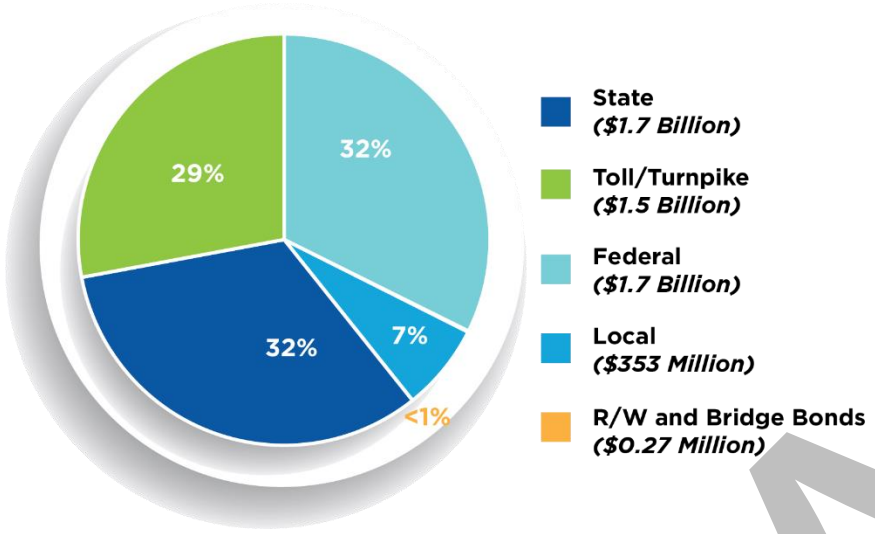

Figure ES-1 Funding Summary by Source

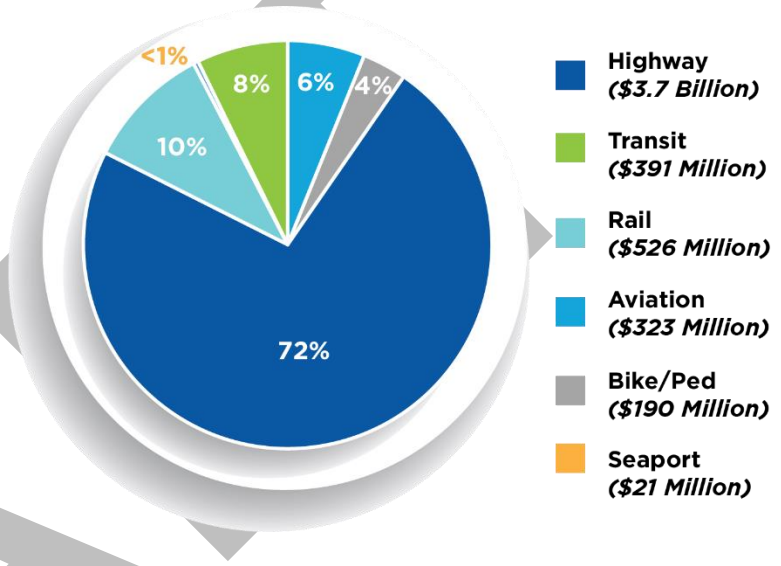

Figure ES-2 Funding Summary by Mode

Highways and bicycle/pedestrian projects worth about $3.9 billion account for nearly 76% of the total funding amount programmed in the five-year period. Of this, $3 billion is devoted to the Strategic Intermodal System (SIS) roadways.

The TIP provides the transit program with about $391 million making up 8% of total programmed funding amount to address the capital needs prioritized by Broward County Transit (BCT), South Florida Regional Transportation Authority (SFRTA) and the City of Fort Lauderdale transit agencies. The transit program is predominantly dedicated to maintaining a state of good repair for all assets throughout the transit system and transit operation.

The TIP invests $526 million representing about 10% of total investments to support rail projects for studies, maintenance, operation, and capacity improvements.

The TIP programs $323 million accounting for 6% of total investments to support facility preservation, capacity improvements, and operations for the four airports, Fort Lauderdale Executive, Fort Lauderdale/Hollywood International Airport, North Perry Airport, and Pompano Beach Airport.

DRAFT

The TIP includes $21 million accounting for 0.4% of total investments to support the Port Everglades projects for maintaining, operating, and improving its facilities.

The TIP addresses all Federal required performance measures and targets including safety (PM1), bridge and pavement (PM2), system performance (PM3), transit asset management (TAM), and transit safety.

Broward MPO Attributable Funds

During FYs 2022-2026, the Broward MPO plans to fund 56 projects with its attributable funds:

- 37 bicycle/pedestrian projects worth approximately $112 million, such as Old Griffin Road from Griffin Road to West of Bryan Road
- 11 major infrastructure projects worth approximately $15 million, such as University Drive from NW 40th Street to Sawgrass Expressway
- 6 transportation planning projects worth approximately $23 million
- 2 transit projects worth approximately $4 million

Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA) and Department of Transportation (USDOT) Appropriations Act, 2021

This year's TIP includes additional funds generally associated with Federal COVID-19 relief efforts that we've generically labeled "CARES funds" after the initial Coronavirus Aid, Relief, and Economic Security (CARES) Act. A total of $12,312,904 of CARES funds are anticipated. $10,743,623 of the funds fall under Title IV of the ***Coronavirus Response and Relief Supplemental Appropriations Act, 2021 (CRRSAA)***, division M, Public Law (Pub. L. No. 116-260), enacted on December 27, 2020. The purpose of the CRRSAA is to provide funding to address coronavirus impacts related to Highway Infrastructure Programs (HIP) and appropriated the additional $10,743,623 for Broward MPO HIP. HIP-CRRSAA funds remain available for obligation through September 30, 2024. An additional $1,569,281 is available through the apportionment of Highway Infrastructure Program Funds Pursuant to the ***Department of Transportation (USDOT) Appropriations Act, 2021***. The $12,312,904 of additional "CARES funds" were applied to Broward MPO priorities consistent with the MTP and Strategic Business Plan. These funds are anticipated to complete funding for several MPO projects and allow accelerated construction. For additional information on HIP-CRRSAA or Highway Infrastructure Program Funds Pursuant to the ***Department of Transportation (USDOT) Appropriations Act, 2021.*** Additional information is available on the Federal Highway Administration's webpage at **https://www.fhwa.dot.gov/legsregs/directives/notices/n4510851/**.

During FYs 2022-2026, the Broward MPO plans to fund seven projects with CARES funds:

- 2 transportation planning projects worth approximately $1.4 million
- 3 bicycle/pedestrian projects worth approximately $7.8 million
- 1 safety projects worth $0.4 million

DRAFT

- 1 TSM&O project worth about $2.4 million

Highlights of Projects and Programs
The TIP includes details regarding projects that will be implemented during next five years. Some highlights includes:

Projects

- $348 million to add lanes on SR-869/SW 10TH ST FROM FL TURNPIKE/SAWGRASS EXPRESSWAY TO W OF I-95
- $715 million to widen the Sawgrass Expressway from South of NW 8th to Powerline Road
- $500 million to improve interchanges on SR-9/I-95 from South of SW 10th Street to North of Hillsboro Boulevard
- $14 million for adding lanes on and reconstructing University Drive from NW 40th Street to Sawgrass Expressway
- $27 million for Loxahatchee Road From Arthur Marshall Loxahatchee Refuge to SR-7/US-441 for widening/resurfacing existing lanes

Programs

The TIP provides funds for projects in the Broward MPO Complete Street Master Plan and the Broward MPO Complete Streets and other Localized Initiatives Program (CSLIP) to improve bicyclist and pedestrian safety.

Broward MPO Complete Street Master Plan (CSMP) Program
The TIP funds 20 projects in Broward MPO CSMP Program worth approximately $130 million. The focus of the Program is to implement active transportation projects and guide them from the planning phase through design and construction. Projects under this program include bicycle and pedestrian facilities and other Complete Streets elements that further complement the goals and vision of the 2045 MTP and other initiatives such as Congestion Management Process (CMP) / Livability Planning (LP) corridor studies.

Broward MPO Complete Streets Local Initiatives Program (CSLIP)
The TIP invests about $55 million to fund 23 projects from the program. The MPO's CSLIP provides funding for small local transportation projects which improve the safety and mobility for all transportation users in Broward. This competitive grant program can fund projects such as complete streets, traffic calming and intersection improvements, ADA upgrades, mobility hubs, bus shelters, bike racks, and technology advancements such as transit signal priority and traffic control devices.

Public Involvement
The Broward MPO ensures compliance with the public involvement requirements outlined in 23 Code of Federal Regulations 450.316(b)(1) & 450.324(c) and Section 339.175(7), Florida Statutes. Public involvement for the development of the TIP is received through

DRAFT

regularly scheduled meetings of the MPO Governing Board and its advisory committees. Table ES-1 shows critical meetings/steps in the TIP development process.

Table ES-1 Important Dates in the TIP Development Process

Date	Activity
March 1, 2020	Submitted the Draft FY 2021 MMPL to FDOT
March 16, 2020	Meeting with FDOT to discuss the FY 2021 MMPL
April 22, 2020	TAC/CAC - Presentation for the FY 2021 MMPL
May 14, 2020	MPO Board - Presentation for the FY 2021 MMPL
May 14, 2020	Submitted the Draft MMPL to the TAC and CAC for review
May 27, 2020	TAC and CAC approved the FY 2021 MMPL
May 28, 2020	Submitted the Draft FY 2021 MMPL to the MPO Board for review
June 11, 2020	MPO Board approved the FY 2021 MMPL
June 25, 2020	Submitted the approved MMPL to FDOT District four
January 5, 2021	Received the Draft Tentative Work Program FY 2022-2026
January 27, 2021	TAC/CAC approved the Draft Tentative Work Program FY 2022-2026
January 28, 2021	MPO Board approved the Draft Tentative Work Program FY 2022-2026
April 7, 2021	District 4 provided the FY 2022 TIP download files
June 3 & June 6, 2021	Notice of public meetings and comment period
June 1, 2021	MPO makes the Draft FY 2022 TIP available for public comment and distributes to review agencies in TIP distribution list
June 15, 2021	Workshop
June 23, 2021	TAC and CAC recommends MPO Board to approve the TIP
July 1, 2021	The MPO makes Revised Draft FY 2022 TIP available for public comment and distributes to review agencies in TIP distribution list
July 8, 2021	MPO Board approves TIP FY 2022-2026
July 10 - 15, 2021	Compile public feedback
July 15, 2021	The MPO distributes the final TIP to FDOT District four and DEO

DRAFT

TIP Revision

The TIP may be revised due to changes in project status, project cost, and/or available revenues. These changes can be either a TIP amendment or an administrative modification. Amendment(s) may be for the purpose of deleting projects, adding projects, advancing projects, revising the funding of projects, or modifying the scope or limits of projects. As the MPO Board adopts the amendments, these amendments are incorporated into the Interactive TIP and posted on the BMPO's website at www.BrowardMPO.org under 'What We Do' tab and the 'Transportation Improvement Program' tab under 'Amendments.' An administrative modification is required if changes don't satisfy the TIP amendment criteria. These administrative modifications are approved by the MPO Executive Director and incorporated into the TIP as well.

1.4 Definitions

Minority Populations

According to the US Census a minority a person who is (1) Black (a person having origins in any of the black racial groups of Africa); (2) Hispanic (a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race); (3) Asian American (a person having origins in any of the original people of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands); or (4) American Indian and Alaskan Native (a person having origins in any of the original people of North America and who maintain cultural identification through tribal affiliation or community recognition). Minority populations, for this analysis, are defined as any readily identifiable group of minority persons who live in geographic proximity, and if circumstances warrant, geographically dispersed/transient persons who will be similarly impacted by a proposed DOT program, policy or activity. High concentrations of minority populations were identified by first collecting minority and majority population from the 2010 Census for both the individual Block Groups and the county as a whole. The county average was then set as the threshold and any Block Groups with higher concentrations than that threshold were symbolized in red on the map and then classified as an environmental justice (EJ) area.

Populations Living in Poverty

According to the US Census a person living in poverty includes anyone whose median household income is at or below the Department of Health and Human Services poverty guidelines. This could include any readily identifiable group of low-income persons who live in geographic proximity, and if circumstances warrant, geographically dispersed/transient persons who will be similarly impacted by a proposed MPO program, policy or activity. To identify high levels of poverty, the amounts of people living in poverty in each Block Group was collected and compared to averages for the entire county. Every block that was higher than the county average was then symbolized in red on the map to identify it as an Environmental Justice (EJ) area. Clustering of these Block Groups may reveal large areas with less transportation opportunities than what might be needed. High levels of poverty indicate specific needs, including inexpensive and effective forms of transportation.

Zero-Car Households

A zero-car household is defined by the US Census a householder and one or more other people related to the householder by birth, marriage, or adoption with no access to a private motorized vehicle. Zero-car households may be one of the most significant EJ indicators taken into consideration when drafting a balanced transportation plan. However, when analyzing zero-car households, all TIP projects may not be significant. In this instance looking just at the mobility projects may provide more insight. The zero-car households were identified by looking at the county average, setting that average as a threshold, and noting any Block Group with a higher percentage as an EJ area. Notably, the vast majority of mobility projects lie within or around these areas, creating connection for areas in need of them.

DRAFT

Zero-Car Households and Living in Poverty

Zero-car households can note two different types of populations. Ones who can afford a car but choose not to because the transportation systems work best for them or in could identify populations that must use alternative transportation because they cannot afford an automobile. These two areas may be determined by comparing zero-car households with population living in poverty. Block Groups that appear in both of these analyses may be key indicators of populations that require alternative forms of transportation (e.g. bike paths and bus routes). In (zero-car and poverty map), the map displays only areas that are both in above the county average in zero-car households and in population in poverty. The mobility projects discussed above are still located within and around these EJ areas in attempts to connect them to job opportunities, shopping plazas, and schools.

DRAFT

2. NARRATIVE

2.1 Purpose

The **Transportation Improvement Program** (TIP) is authorized through the federal **Fixing America's Surface Transportation Act** (FAST Act) legislation, signed into law December 4, 2015 and Florida Statutes as follows:

- 23 United States Code (U.S.C,) 134 (j) and (k)(3) and (4*) (Transportation Improvement Program)*
- 23 U.S.C. 204 *(roads on federal lands to be included in the TIP where applicable)*
- 49 U.S.C 5304 (*Transportation Improvement Program)*
- 23 C.F.R. [Code of Federal Regulations] 450.320, 450.324, 326, 328, 330, and 332 (*Transportation Improvement Program)*
- 23 C.F.R. 500.109, 500.110, and 500.11 *(Congestion Management System, Public Transportation Management System, and* Intermodal Management System, respectively)
- Subsection 339.175(5) and (7), Florida Statutes (F.S.) (*Transportation Improvement Program)*
- Subsection 339.135(4) (c) and (4) (d), F.S. *(Work Program)*
- Subsection 427.015(1), Florida Statutes *(Transportation Disadvantaged)*
- Subsection 334.30(9), Florida Statutes *(Public Private Partnerships)*

The TIP provides a prioritization of projects covering a five-year period that is consistent with the Broward MPO 2045 MTP [23 C.F.R. 450.104]. It contains all transportation-related projects to be funded by Title 23 and Title 49 funds and regionally significant projects proposed for implementation in the next five years. Regionally significant projects are projects for which FHWA or FTA approval is required whether or not the projects are to be funded through Title 23 and 49, U.S.C. and per Title 40, Code of Federal Regulations, Part 93 (without federal funds). The TIP is adopted by the Broward MPO and covers the state fiscal years (FY) 2022 to 2026 (that is, July 1, 2021 - June 30, 2026). As required by federal regulations, projects receiving federal funds in the TIP follow the federal fiscal calendar which begins October 1 and ends September 30. As a result, the TIP FY 2022-2026 takes full effect on October 1, 2021. The state and federally funded projects listed within the TIP are in accordance with the Florida Department of Transportation's (FDOT's) Five-Year Work Program. Listed TIP projects include:

- Transit capital improvements and operating expenses, including transportation disadvantaged programs and services,
- Roadway and bicycle/pedestrian improvements and maintenance,
- Commuter rail improvements and operating expenses,
- Airport and seaport improvements;

Included are the lists of Multimodal Priority projects covering the different modes of transportation used to develop the TIP. These lists contain projects that are to be included in the future TIPs as additional funds become available.

DRAFT

The Broward MPO's TIP is multimodal in nature, addresses both local and regional concerns, and was developed through the input and involvement of the following governmental agencies: FDOT, Broward County, South Florida Regional Transportation Authority (SFRTA), Southeast Florida Transportation Council (SEFTC), the municipalities within Broward County, and Broward County Urban Planning and Redevelopment, Transit, Aviation, and Port Everglades, just to name a few. All projects are listed in alphabetical order by project name.

2.2 Financial Plan

The TIP is financially constrained for each year, and the federal- and state-funded projects in this document can be implemented using current and proposed revenue sources based on the FDOT Final Tentative Work Program for FY 2022-2026 and locally dedicated transportation revenues. The MPO develops the TIP in cooperation with the State and the transit operators who provide the MPO with estimates of available federal and state funds in order for the MPO to develop its financial plan [23 C.F.R. 450.326(a) and Subsection s. 339.175(8), F.S.]. A comprehensive Summary of Funds is displayed in Chapter 4 demonstrating that there are sufficient funds to implement the transportation system improvements [23 C.F.R.450.326 (k), 23 C.F.R. 450. 326 (j), and S. 339. 175 (8)(c)(3) F.S]. Funds are presented in Year of Expenditure (YOE) dollars (adjusted for inflation from present time to the year of construction for a more accurate cost estimate). The Broward MPO will continue to pursue opportunities where funds might be added to enhance transportation for all users. Innovative financing resources such as the Public Private Partnership, which is evolving in Florida, is also considered as an alternative funding source to fund and accelerate project delivery.

2.3 Project Selection

Projects in the TIP are selected for implementation from the MMPL (Multimodal Transportation Priorities list), in accordance with Title 23 of the United States Code (USC), section 134, as amended by the (FAST) legislation, and Title 23 of the Code of Federal Regulations, Section 450.332(b). As a region with a population of over 200,000 individuals, Broward County is part of the Miami Urbanized Area (UZA). This UZA is also known as a Transportation Management Area (TMA). The MPO selects all 23 U.S.C and 49 U.S.C. Chapter 53 funded projects for implementation in consultation with FDOT and public transit operators (except projects on the National Highway System and Tribal Transportation Program). Tribal Transportation Program, Federal Lands Transportation Program, and Federal Lands Access Program projects are selected by the appropriate federal agencies in cooperation with FDOT and the MPO. Projects within this area that are on the National Highway System are selected by the FDOT in cooperation with the MPO. The Bridge Program, State Strategic Intermodal System (SIS) and Interstate Maintenance Program are selected for implementation by the State of Florida, in cooperation with the MPO. Additionally, the MPO focuses its prioritization of projects on those that are transit-focused, compatible with the livable communities concept, regionally significant, and those that are part of or connected with the SIS.

2.4 Consistency with other Plans

The TIP is consistent with the Broward MPO's *Commitment 2045* Metropolitan Transportation Plan (MTP) [23 C.F.R.450.326(n)(1)] and crosses reference projects with corresponding MTP projects by providing MTP page numbers [s.339.175(8)(c)(7)]. The TIP is also

DRAFT

consistent to the maximum extent feasible, with the Seaport Master Plan, the Airport Master Plans, the Broward County Comprehensive Plan, public transit development plan, and local government comprehensive plans [s. 339.175(8)(a) F.S.].

This consistency is achieved through the Multimodal Priorities List (MMPL) that is updated annually by the Broward MPO. The MMPL serves as a bridge between the MTP and the TIP containing the prioritized projects for inclusion in TIP. The MTP is the primary source for identifying priority projects for inclusion in MMPL list. The MTP provides a coordinated planning effort to mitigate traffic congestion, minimize reconstruction of existing facilities, and allow for adjustment of growth management policies and transportation strategies. The plan is developed in conjunction with the strategic planning factors identified in federal legislation [23 U.S.C. 134(d)]. The MTP identifies improvements in pedestrian, bicycle, transit, roadway, and freight movement networks. The MTP is coordinated with the State Transportation Plan, Regional Transportation Plan, Broward County Comprehensive Plan, Transit Development Plans, Bicycle Plan, Pedestrian Plan, Greenways Plan, Seaport Master Plan, and Airport Master Plans. In this way, it is the Broward MPO Governing Board that sets project priorities to be programmed by the State into the Work Program and reflected in the TIP.

The MTP guides the expenditure of federal, state, and local transportation funds. Once separate, the urbanized areas in Miami-Dade, Broward, and Palm Beach counties were merged to form the Miami UZA/TMA as reflected in the 2010 U.S. Census. The Miami UZA/TMA extends along the east coast from Miami-Dade County to the southeast corner of Martin County. In January 2005, the Southeast Florida Transportation Council (SEFTC) was created by the Miami-Dade, Broward, and Palm Beach MPOs to specifically address and coordinate regional transportation issues on behalf of the residents of Southeast Florida. One of SEFTC's primary responsibilities is the development of a Regional Transportation Plan (RTP). An essential element of the RTP is the designation of a Regional Transportation Network. All projects that are on the Regional Transportation Network are eligible for State Transportation Regional Incentive Program (TRIP) funding.

As required by federal law, the Broward MPO completed its MTP update with a horizon year of 2045 and the Broward MPO Board adopted the 2045 MTP, on December 12, 2019. The 2045 MTP is intended to continue the vision set in the 2040 MTP. The plan was developed to facilitate multi-modal travel opportunities in Broward County other than single occupant vehicle. The Plan is conceptual in nature and based on travel demand modeling procedures that do not address details of individual projects being considered for implementation. The 2045 MTP Cost Feasible Plan (Map 2-1 and 2-2) shown in the 2045 Roadway and Transit Cost Feasible Plan includes projects and programs for which a reasonable expectation of funding has been identified. The 2045 MTP also includes illustrative projects that under current funding conditions are not financially feasible. Once additional funds become available, the Plan may be amended to include these projects in the cost feasible plan. For additional information on the 2045 MTP, please visit http://browardmpo.org/index.php/commitment-2045-metropolitan-transportation-plan .

The 2045 MTP's Vision is to "transform transportation in our planning area to achieve optimum mobility with emphasis on mass

DRAFT

transit while promoting economic vitality, protecting the environment, and enhancing quality of life." Key features of the 2045 MTP include incorporating complete streets, bicycle, and pedestrian needs as a cornerstone in our efforts to plan a transportation system that provides multi-modal options for all of our residents. Through the Complete Streets and other Localized Initiatives Program, as outlined in the MTP, an active approach to promote and implement the 2045 MTP recommendations is taken. These efforts emphasize the integration of transit and land use to alleviate multi-modal congestion.

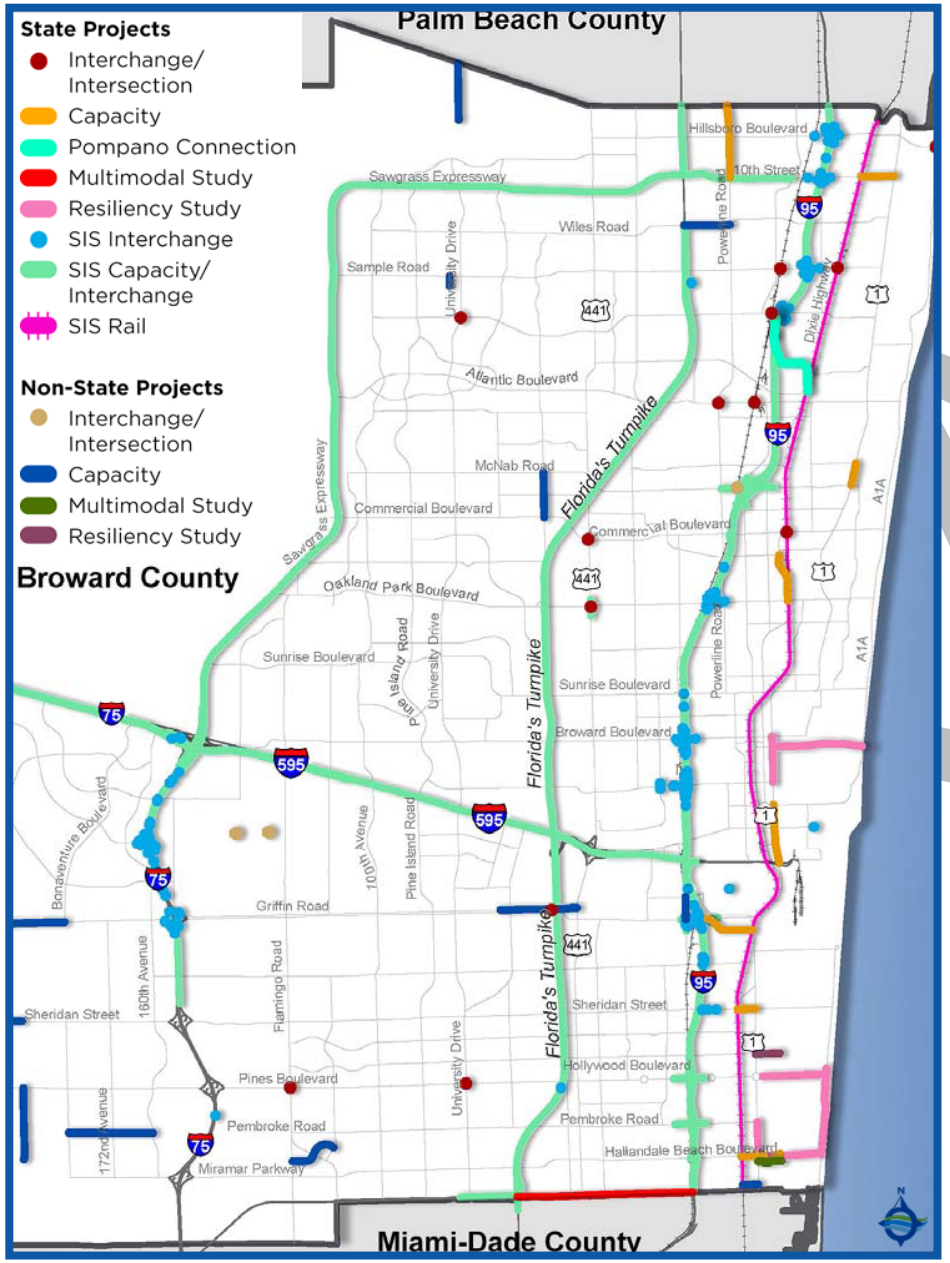

The MTP was amended by the Broward MPO Board on January 28, 2021.

.

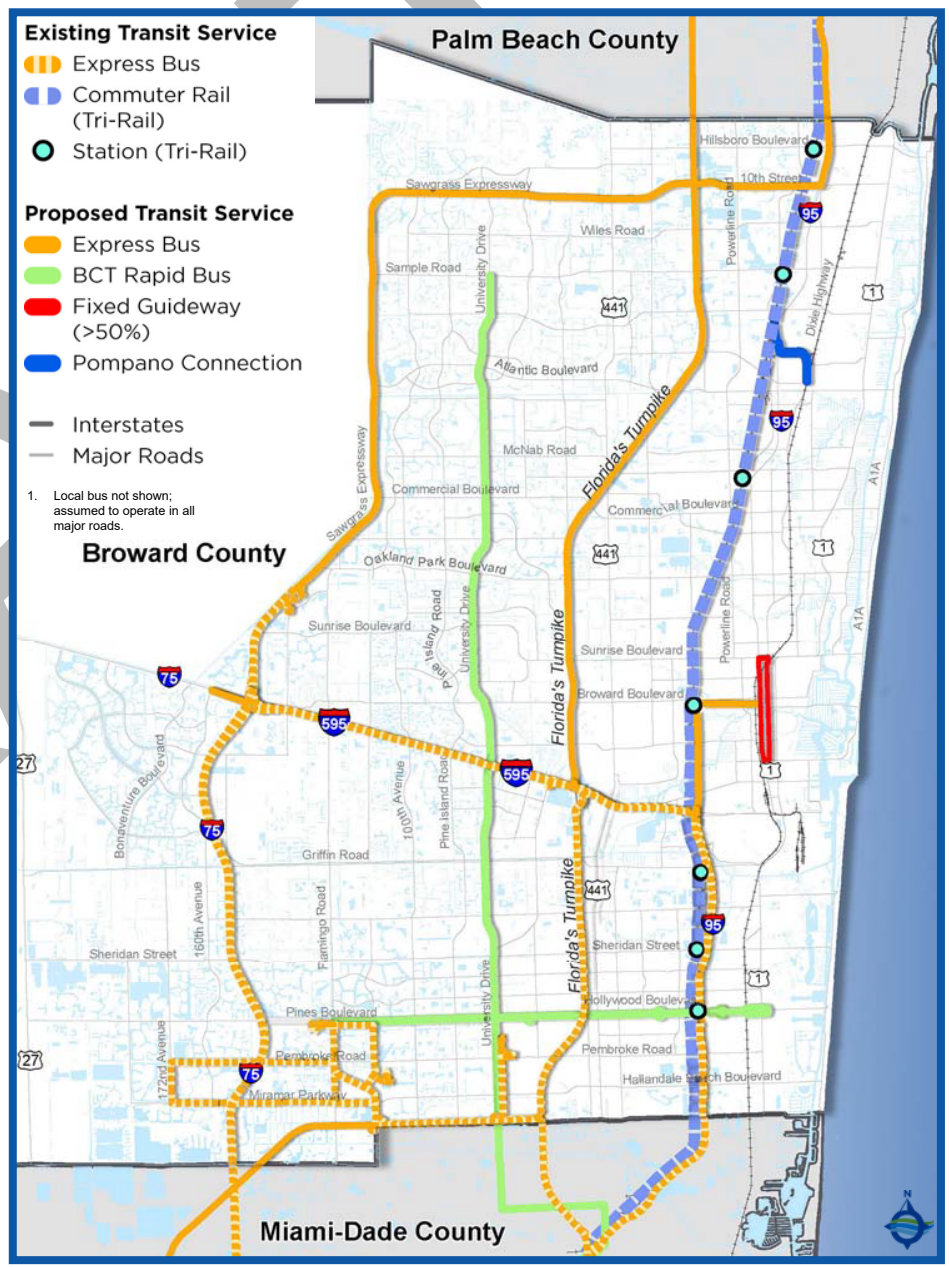

DRAFT

2045 MTP Cost Feasible Plan

Map 2-1: 2045 Cost Feasible Roadway Plan

Map 2-2: 2045 Cost Feasible Transit Plan

These maps are for informational purposes. For complaints, questions or concerns about civil rights or nondiscrimination; or for special requests under the Americans with Disabilities Act, please contact: Erica Lychak, Communications Manager/Title VI coordinator at (954) 876-0058 or lychake@browardmpo.org

2.5 Project Priorities

Projects selected for inclusion in the TIP are consistent with federal requirements [23 C.F.R 450.322(b)] and the FDOT Adopted Work Program. These projects are financially feasible for the appropriate funding category and represent the MPO's project priorities. The projects in the Multimodal Priorities list are evaluated and ranked based upon a screening process that identifies projects that are most important or most significant.

The Broward MPO's Multimodal Priorities List contains projects, in a priority order, that are to be considered for the TIP when funding becomes available. The Multimodal Priorities List is based on the priorities set in the Cost Feasible Plan (CFP) component of the 2045 MTP. The 2045 MTP established the methodology for prioritizing projects in the Multimodal Priorities List.

2.5.1 Methodology Overview

The 2035 LRTP established a new paradigm to provide a balanced transportation system with greater investments toward alternative modes such as transit, bicycle and pedestrian facilities, and smart growth policies. Both the 2040 MTP and the 2045 MTP follow this set standard. In order to guarantee transportation investments are balanced among the transportation modes, the MTP established six funding programs including Roadway, Transit, Systems Management/Safety, CSLIP, CSMP, and Mobility Hubs. Percentages agreed upon in the MTP 2045 by the MPO Board (during the MTP's development) were used to distribute MPO attributable revenue among the six programs. These percentages is presented in the Table 2-1 Program and Funding Allocation. Projects within each program were prioritized according to criteria established for each individual program. The following describes the prioritization process for each of the six programs.

Table 2-1 Program and Funding Allocation

Program	Percentage
Roadway	20%
System Management/Safety	15%
Transit	10%
CSLIP	20%
Mobility Hubs	10%
CSMP	25%

DRAFT

Complete Streets and Localized Initiatives Program (CSLIP) - CSLIP provides funding for small local transportation projects that will improve safety and mobility for all transportation users. The MPO facilitates an annual competitive grant program to fund projects such as Complete Streets projects, traffic calming and intersection improvements, ADA compliance upgrades, bus shelters, bike racks, and technology advancements (e.g., transit signal priority and traffic control devices). Projects funded through this program are generally around $2 million each.

CSLIP uses an objective tool to evaluate and rank the application submitted. This tool was developed with direction from the Board and uses several geographic datasets to score the projects. Evaluation criteria weights are 30% for safety, 24% for economic development, 23% for connectivity, and 23% for mobility. For details, please visit the CSLIP policies link at: https://www.browardmpo.org/images/WhatWeDo/CSLIP/Round_5_Policies.pdf and the evaluation chart at: http://www.browardmpo.org/images/WhatWeDo/CSLIP/EvaluationGraphic_Draft-v016.pdf.

Complete Streets Master Plan (CSMP) – Complete Streets are built for all users, emphasizing the safe and efficient movement of people including motorists, pedestrians, bicyclists, and transit riders. The MPO developed a CSMP to guide future investments by creating a prioritized list of projects based on technical, data-driven analysis, selected criteria and community and local partner input. Funding is allocated to this program based on the prioritized order established in the CSMP. Projects funded through this program are generally greater than $2 million.

Prioritization is a process of scoring and ranking the Complete Streets projects and Super Connectors based on identified criteria or variables. The criteria is consistent with the goals and objectives established in the Commitment 2040 LRTP, continues in the Commitment 2045 MTP, and builds upon the format and content of the CSLIP evaluation criteria. The criteria between the two differ slightly but fit within the same theme. For the CSMP prioritization criteria, please refer to link at: http://www.browardmpo.org/images/CSMP/CSMP_prioritization_criteria.pdf

Roadway Program/Transit Program – Funding for the roadway program is allotted to transportation improvements that increase roadway capacity by building new roadways, adding lanes to existing roadways, or building/expanding interchanges and major intersections. Funding may also be allocated to concept studies, preliminary engineering, and design to support the development of roadway capacity projects. The transit funding program includes transit capital investments such as transit vehicles, transit technology investments (e.g., fare collection equipment, automatic passenger counters, vehicle location, etc.), and roadway improvements designed to serve as exclusive lanes for transit services (for which operating funding has been identified).

Projects in the Roadway Program and Transit Program follow the same prioritization process established in the MTP 2045. The prioritization criteria is based upon the MTP's Goals and Objectives, adopted by the MPO Board on May 10, 2018, and the Performance Measures developed to ensure consistency with the FAST Act. These six measures, which are referred to as planning factors, were

DRAFT

identified as best representing the MTP's Goals and Objectives and are: (1) Mobility: Providing high speed and reliable travel between major activity centers and destinations. The focus of mobility is to get from one place to another as quickly as possible and typically is characterized by longer trips. (2) Accessibility: Providing access and circulation within higher-density, mixed-use places; tend to be shorter trips. (3) Safety: Reducing the number and severity of crashes. (4) Equity: Ensuring that benefits and impacts are shared among Broward's population. (5) Environmental Stewardship: Protecting the natural and built environment. (6) Economic Vitality: Supporting economic activity and businesses.

Each of the six planning factors were given a weighted value to align it with its importance to the community. The weighting values were determined through an interactive polling process with the Technical Advisory Committee (TAC), the Citizens' Advisory Committee (CAC), and the MPO Board. The values obtained were averaged and resulted: Mobility – 20.5, Accessibility – 20.7, Safety – 18.7, Equity – 14.3, Environmental Stewardship – 12.8, and Economic Vitality – 13.0.

Six matrixes with prioritization criteria were developed for each planning factor respectively. These matrixes include evaluation criteria, assessment scoring, and scoring guidelines. Through several discussions with the TAC and CAC, the prioritization criteria were revised and shown in tables 1 through 6 in the MTP Technical Report #4 Project Prioritization Process. Several key changes that resulted from this process were:

- The inclusion of additional Safety criteria to better reflect the importance of this issue;
- The addition of a positive criteria for projects that may improve environmental conditions;
- Clarifications to several criteria to ensure that both roadway and transit projects were evaluated; and
- Adjustments to the Sea Level Rise Mitigation criteria to account for projects that improve the resiliency of infrastructure to extreme weather, regardless of the project's location in a defined vulnerability area.

It is important to note that whereas this process has been developed for the 2045 MTP, these prioritization criteria and planning factor weightings can change over time as the Emphasis Areas stressed by the federal and state government change and local stakeholder preferences change. Future MTPs will address these changes with adjustments to these factors. In addition to an overall process, the Broward MPO project prioritization criteria were developed with the following considerations:

- Projects are to be evaluated regardless of their mode (roadway, transit, Transportation Systems Management and Operations (TSM&O), etc.).
- Scores are to be normalized to account for variance in maximum points awarded in each planning factor group.
- An initial recommendation of rounding negative scores to 0 was reconsidered at the TAC's request to better reflect the potential negative impacts of a project. Thus, negative scores are carried through.

For details, please refer to MTP 2045 Technical Report #4 Project Prioritization Process at:

DRAFT

http://www.browardmpo.org/index.php/mtp-documents

Systems Management/Safety Program – Funding allocated to this program is to be focused on Transportation Systems Management and Operations (TSM&O), a program based on actively managing the multimodal transportation network, measuring performance, streamlining and improving the existing system, promoting effective cooperation/collaboration, and delivering positive safety and mobility outcomes to the traveling public. Example projects funded in this program include signal timing/coordination and major safety improvements. Funding in this program is also set aside to support studies to identify, prioritize, and implement safety improvements. TSM&O projects on-state highway system were selected and prioritized by the FDOT. Safety improvement study projects were selected and prioritized according to the severity index as part of the Commitment 2045 MTP countywide safety analysis of roadway segments and intersections both on and off the state highway system. The severity index is a measure that looks at total crashes and crash severity. It uses a weighted average (higher score for incapacitating and fatal crashes) to develop an index that ranks locations in terms of their importance for future safety analysis and improvements. Safety studies are proposed at intersections and on roadway segment based on the identified crash severity in order identify short and long term safety improvement projects. These projects will be eligible for funding allocated to the Systems Management/Safety Program, as discussed previously. MPO staff are coordinating with FDOT District 4 and other local partners to lead these studies in the near future. For Systems Management/Safety details, please refer to 2045 MTP at: *http://www.browardmpo.org/index.php/mtp-documents.*

Mobility Hubs Program – The Mobility Hub concept was initially introduced in the 2035 Long Range Transportation Plan. The Mobility Hubs continue in the Commitment 2045 Metropolitan Transportation Plan (MTP) as a specific funding program. Mobility Hubs are transit access points with frequent transit service, high development potential, and a critical point for travel demand or transfers within the transit system. Funding through this program is available to support the collaborative planning, design and construction of Mobility Hubs as communities identify and commit to opportunities that further the objectives of this program.

Prioritization of Mobility Hub projects is based on identified criteria or variables. Guided by the goals in the 2045 MTP, the recommended evaluation framework measures a candidate location's existing market and network readiness by incorporating the best available information into the evaluation matrix for review. The matrix includes measures of existing trip producers and attractors, potential trip producers, market ready attractors, existing transit ridership and frequency. The prediction of theoretical future service is not the driving factor for the evaluation although potential service is a consideration. The third factor in the evaluation is sponsor readiness, which is the ability and commitment of the local government to deliver the project.

2.5.2 Priorities List

The MMPL was presented to the MPO Board last year for consideration and approval. The MPO Board approved the MMPL at their

DRAFT

June 11, 2020 meeting. For details, please refer to 7.1 Appendix A and the following link: https://www.browardmpo.org/images/WhatWeDo/TIP/2021_MMPL/MMPL_6-15-2020_Final.pdf .

2.6 Implemented Projects – Annual Listing of Obligated Projects (ALOP)

The FAST Act [23 C.F.R. 450.334 and s.339.175 (8) (h), F.S.] requires the Broward MPO to publish the ALOP Report and to make it available for public review, on annual basis, no later than 90 calendar days following the end of the program year. In responding to the FAST Act directive, the FDOT prepared a listing of highway projects (including investments in pedestrian walkways and bicycle transportation facilities), and the MPO, working cooperatively with public transportation providers, developed a listing of transit projects, for which federal funds under 23 U.S.C or 49 U.S.C Chapter 53 were obligated during federal fiscal year 2020 (FFY20) between October 1, 2019 and September 30, 2020. A public notice for the release of the ALOP Report was published in the South Florida Times. The ALOP Report is presented in 7.2 Appendix B. A hard copy of the report is available at the Broward MPO and an electronic copy of the report is available at the BMPO's web site at:
https://www.browardmpo.org/images/WhatWeDo/TIP/2021_TIP/FY_2020_ALOP_final.pdf

2.7 Public Involvement and Interagency Consultation

The Broward MPO ensures compliance with the public involvement requirements outlined in 23 Code of Federal Regulations 450.316(b)(1) & 450.324(c) and Section 339.175(7), Florida Statutes. As part of its ongoing public involvement process, in January 2021, the Broward MPO Board reviewed FDOT's District 4 and Turnpike Enterprise Draft Tentative Work Programs, FY 2022-2026. Comments and concerns were forwarded to FDOT for entry into the records of FDOT's Public Hearing. The Technical Advisory Committee (TAC) and Community Advisory Committee (CAC) also reviewed FDOT's District 4 and the Turnpike Enterprise's Tentative Work Program at their January 2021 meetings.

A 30-day comment period was initiated on June 3, 2021 with a newspaper advertisement in the Broward Times, as well as El Sentinel and Sun-Sentinel. A notice and an electronic copy of the TIP were posted to the Broward MPO website at: www.browardmpo.org under **"What We Do"** tab and **Transportation Improvement Plan** tab or directly at http://www.browardmpo.org/index.php/core-products/transportation-improvement-program-tip.

As part of Public Participation Plan, the Broward MPO places TIP hard copies in the eight regional libraries in Broward County. The MPO also has made the TIP document available to the public for review on the Broward MPO website. The Broward MPO also hosted a public workshop to raise awareness of the TIP and to allow for public comment and discussion. Prior to the adoption of the 2022 TIP on July 8, 2021 the Broward MPO also held public meetings during regularly scheduled meetings, providing the public with three opportunities to submit comments. The comment period closed at Noon on July 8, 2021.

DRAFT

- **Technical Advisory Committee on Wednesday, June 23, 2021 at 2:30 p.m.**
- **Citizens Advisory Committee on Wednesday, June 23, 2021 at 6:00 p.m.**
- **Broward MPO Board on Thursday, July 8, 2021 at 9:30 a.m.**

The Interactive TIP Tool software is being utilized for TIP development and is a web-based interactive tool. This tool enhances opportunities for the general public to find information and comment on projects in the area, through the MPO's website.

The Broward MPO produced a fact sheet explaining the TIP process in both English and Spanish. The fact sheets are available as 7.3 Appendix C of this document, on the MPO's website, and distributed to our agency's e-mail database.

2.8 Certification

The Broward MPO participates in a Federal Certification process with the FHWA and FTA every four years. The MPO's planning process was reviewed at a site visit conducted by the FHWA and FTA on April 8 and 9, 2019. The site visit produced no corrective actions and five recommendations. Of these, one recommendation (inclusion of FTA Transit Asset Management [TAM] targets) related to the adopted TIP document and process. Because the previous TIP had been adopted before TAM targets were made available, they were not initially included in the TIP. However, this has since been addressed and the TAM targets added through a TIP amendment that was approved on May 9, 2019. All future TIPs will continue to have these targets included. The 2019 Certification Review also produced seven noteworthy practices and several positive comments related to the MPO's adopted TIP. Based on the overall findings from the Certification Review in 2019, the FHWA and FTA jointly certified that the transportation planning process of the entire Miami Urbanized Area TMA, which includes the Broward MPO, substantially meets federal planning requirements subject to the MPO satisfactorily addressing any corrective actions in the report. The 2019 certification will remain in effect until August 2023. The full 2019 Federal Certification Report can be found on our website at http://browardmpo.org/index.php/about-the-mpo/federal-state-certifications. The next Certification Review will take place in 2023.

The Broward MPO also participates in a State Certification process that is conducted annually by FDOT District Four. The results from the most recent State Certification are anticipated to be available in July 2021. Once available, the document containing the results of the Certification will be available at the bottom of the webpage at http://browardmpo.org/index.php/about-the-mpo/federal-state-certifications. No recommendations or corrective actions were issued by FDOT as part of the most recent State Certification.

2.9 Congestion Management Process (CMP)

The CMP is a structured process for analyzing congestion issues using an objectives-driven, performance-based approach as required

DRAFT

in [23 CFR 450.320(a)(b)] Metropolitan Transportation Planning, Final Rule, and [S 339.175(6)(c)(1),F.S.]. The CMP identifies solutions to congestion problems on the state highway system and arterials on the local transportation network. It places emphasis on providing additional transportation alternatives to road capacity improvements wherever possible. As federally required, the CMP will continue to evaluate the transportation network, identify congested areas, and recommend operational strategies and capital improvements using the following steps:

1. Develop multimodal performance measures
2. Collect data / monitor system performance
3. Analyze congestion problems and needs
4. Identify and assess CMP strategies
5. Program and implement CMP strategies
6. Evaluate strategy effectiveness

The Broward MPO's CMP process includes strategies other than just road widening to improve congestion, safety, and mobility through multiple transportation modes (i.e., transit, bicycle and pedestrian use, etc.), and reduce single occupancy vehicle (SOV) travel. The CMP allows for analysis of the inter-relationship of multi-modal transportation and land use, leading to recommendations providing a comprehensive approach to implementing the Broward MPO's MTP. The annual development of the MPO's Multimodal Priorities List takes into consideration the results and recommendations of the CMP process as part of the TIP development process.

2.10 Transportation Disadvantaged (TD)

Services for people who are transportation disadvantaged, located in Chapter 5.13 of this TIP, are developed pursuant to Subsection 427.015(1) F.S., and Rule 41-2.009(2) of the Florida Administrative Code (F.A.C.). In Broward County, federal, state and Broward County government funds will be spent on capital and operating expenses over the next five years to provide both TD and Americans with Disabilities Act (ADA) transportation services. Through these funds, people who qualify for either the Florida's TD program or the federal ADA are eligible to receive specialized transportation services. The Designated Official Planning Agency (DOPA) is the Broward MPO. It coordinates annually with the service provider, Broward County Transit, to update the Transportation Disadvantaged Service Plan.

Broward County Government either purchases, subsidizes, or directly provides special transportation to eligible residents. The Board of County Commissioners, in its role as the Community Transportation Coordinator (CTC) for Broward County, serves the needs of transportation disadvantaged persons. The County Commission has designated the Paratransit Services Section of the Transportation Department as the responsible agency for administering all contracts for paratransit services and the management of the CTC program. The Director of the Transportation Department is empowered to act for the County Commission in these matters.

DRAFT

The Commission for the Transportation Disadvantaged (CTD) Trust Fund subsidizes a portion of the transportation cost for those who are transportation disadvantaged, for trips which are not sponsored by an agency, and only with a cash or in-kind match. These non-sponsored transportation funds are for "...persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation…" and includes children at-risk as defined by FS 411.202.

The County also provides paratransit services in compliance with the Americans with ADA of 1990. ADA/paratransit determination is based on a functional disability that prevents an individual from accessing and/or navigating public transit. The ADA requires the Transportation Department/BCT to offer complementary service to persons with disabilities who are unable to use the fixed-route bus system. The ADA paratransit service offers a level of service comparable to that provided to persons without disabilities who use the fixed-route system.

The LCB provides information, advice, and direction to the CTC on the coordination of TD services and development of service standards that are consistent with the needs and resources of the community.

2.11 Environmental Justice Analysis

What is Environmental Justice?

"Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. The Environmental Protection Agency has this goal for all communities and persons across this Nation. It will be achieved when everyone enjoys the same degree of protection from environmental and health hazards and equal access to the decision-making process to have a healthy environment in which to live, learn, and work." – U.S. Environmental Protection Agency.

Background

Executive Order 12898 mandates federal agencies incorporate environmental justice (EJ) analyses into their policies, programs, and activities. Building from the framework of Title VI of the Civil Rights Act of 1964, which ensures nondiscrimination in federal programs, EJ directives address how low-income and minority populations are affected by the actions of the federal government. In their publication, *An Overview of Transportation and Environmental Justice*, the U.S. Department of Transportation (U.S. DOT) outlines their three main objectives stemming from this mandate:

- To avoid, minimize, or mitigate disproportionately high and adverse human health and environmental effects, including social and economic effects, on minority populations and low-income populations;
- To ensure the full and fair participation by all potentially affected communities in the transportation decision-making process; and,
- To prevent the denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations.

DRAFT

Properly implemented, environmental justice principles and procedures improve all levels of transportation decision-making. It enhances the public-involvement process, strengthens community-based partnerships and provides minority and low-income populations with opportunities to learn about and improve the quality and usefulness of transportation in their lives. Further, environmental justice assists to avoid disproportionately high and adverse impacts on minority and low-income populations and mitigates avoidable negative impacts by identifying concerns early in the planning phase.

Federal EJ directives mandate fair and equitable processes and outcomes, and an effective EJ program has both a participatory component and a technical component. This report summarizes multiple analyses, outcomes, and activities that have been conducted as part of the planning process in accordance with EJ.

Public Outreach (Participatory)

Public Participation Plan (PPP)

The Broward MPO's policy on public participation is to create opportunities for all segments of the public to learn and provide feedback about issues and proposals under consideration, particularly those affected by the outcomes and/or those with special needs. This policy lays the foundation to ensure the public is a key participant in the planning and decision-making process. For additional information, the Broward MPO's PPP document can be found at:
http://www.browardmpo.org/index.php/core-products/public-participation-plan-ppp

Limited English Proficiency (LEP) Plan

The Broward MPO's Limited English Proficiency (LEP) Plan identifies the Limited English Proficient populations in our service area and provides guidelines for MPO staff to help ensure that information and services are accessible to LEP persons. A copy of the Broward MPO's Limited English Proficiency Plan can be found at the following link:
http://www.browardmpo.org/index.php/title-vi-dbe

Speak Up Broward

Initiated in February 2013, Speak Up Broward is the MPO's grassroots public awareness initiative designed to promote awareness about regional transportation planning projects, engage the community to become more involved in the planning process, and solicit feedback that will help us improve our efforts toward providing Broward County residents with a safe, convenient, and efficient multimodal transportation system. For more information visit www.SpeakUpBroward.org.

Advisory Committees

MPO staff continues to update its Citizens Advisory Committee (CAC) membership to ensure the make-up of this advisory board represents Broward's demographics. Several agencies on the CAC represent the disabled and traditionally underserved communities.

DRAFT

This advisory board provides community feedback on major MPO planning efforts and projects, including the LRTP, TIP, corridor studies, complete streets, etc. In addition, major MPO projects and efforts are presented for input and feedback from the MPO's Local Coordinating Board for Transportation Disadvantaged Services, of which many members represent the disabled community. Further, major documents are available for review in non-electronic formats at the MPO office, in popular Broward libraries, and detailed in print newspaper advertisements.

Interactive TIP Tool

As part of the TIP process, the MPO has an Interactive TIP Tool (http://broward.dtstiptool.com/). The tool enhances information about projects by providing project location maps and detailed financial information features not available prior to the implementation of this interactive software.

Whenever the MPO attends events in diverse locations and communities across Broward, staff are sure to highlight the TIP tool. Distributing TIP informational flyers in English and Spanish where possible and conducting live demonstrations via a laptop or surface at booths or tables at these events/meetings, are also used as a strategy to increase public awareness about the MPO's products. Furthermore, given the variety of cultural backgrounds of the MPO staff, the team can translate information in multiple languages (such as Spanish, Creole, French, German and Mandarin, to name a few) in-house.

Training

Finally, the Broward MPO actively seeks additional Title VI training opportunities for both MPO staff and our transportation partner agencies and municipalities. The MPO works closely with its representatives at FHWA in Tallahassee to look for opportunities to provide training in the Southeast Florida region. The MPO continues to be an active participant in the TRAC and RIDES program aimed at involving schools in transportation issues. The MPO staff has ongoing participation in FTA webinars focused on Title VI.

Methodology (Technical)

In addition to the TIP tool described above, the Broward MPO uses Geographic Information Systems to visualize data. The MPO makes sure the data used is available and accessible from standard, easily-obtainable, and frequently-updated sources such as the U.S. Census, the American Community Survey (ACS), etc. All selected indicators are data obtained from the ACS Five-Year Estimates. With these datasets, the MPO compared individual Block Groups with Broward County averages to locate areas with higher concentrations of the following indicators: Racial Minority, Ethnic Minority, Youth (10-17 years), Older Adults (65+ years) Population below Poverty, LEP Population, Population with a Disability, Zero Vehicle Household, No High School Diploma, Female Head of Household, and Minority. For definitions for indicators minority population, population living poverty, zero-car households, and zero-car household and living in poverty, please refer to Chapter 1.4. In addition, the MPO has developed an Equity Assessment Tool in the form of a map in the TIP. This map overlays the TIP projects on top of the equity areas to display how and where projects are being programmed among the

DRAFT

identified equity areas. This functions as a "checks and balances" that can be used to influence future priorities. Prior to the Equity Assessment, multiple maps and data sets were used to convey the equity evaluation process. The Equity Assessment Tool has eliminated the need for the duplication of efforts and provides very important data in a clear and visually concise format.

Map 2-3 shows the composite score for all block groups within Broward County based on the core indicators identified above. By reviewing the map, it is evident that the predominant concentrations of Equity indicators generally cluster in the central and north/northeast portions of the county. These Equity areas include minority populations, households living in poverty, zero-car households, and populations living in poverty with no car. This clustering of Equity areas have been taken into consideration during the implementation of the TIP.

Findings

In order to increase non-motorized mobility in Broward, the MPO actively programs bicycle and pedestrian projects as part of the TIP. These projects were originally identified through the MPO's LRTP, and later through corridor studies and the Complete Streets Master Plan. The intent is to serve residents who may not be able to afford to drive a vehicle or choose not to drive a vehicle. Through this Equity Assessment the Broward MPO found that similar to the previous year, a majority of these projects provided connections to areas that contained high concentrations of Equity indicators. This is shown on Map 2-3.

Additionally, the MPO works with its local partners to provide funding for locally-needed projects through its CSLIP. These projects are submitted by local governments and ranked by the MPO using an objective ranking criteria which includes metrics related to Equity. The MPO will continue to work with its local partners to fund these projects and refine the ranking criteria to provide the most local benefit.

The MPO also conducts on-going corridor studies which seek to positively impact transportation mobility in Broward, particularly as it relates to Equity communities. The purpose of corridor studies is to identify solutions in order to provide connectivity and enhance mobility along major transit corridors in Broward. These corridor studies apply livability principles (enhanced access to transit, health care centers, regional destinations, pedestrian accessibility, etc.) to identify recommendations which include safety improvements at intersections, bicycle and pedestrian facility construction, and mobility hubs. All corridor studies and their associated recommendations take into consideration Equity as an important factor in determining priorities.

The TIP includes projects that are part of the regional SIS managed by the FDOT. The SIS network is designed to increase long-range mobility and increase freight movement throughout the region. Projects on the SIS intend to increase economic vitality by promoting the movement of goods and services and increase connectivity among the region's industries and populations. Many of these improvements provide direct and indirect benefits to Equity communities. FDOT develops Project Development and Environmental (PD&E) studies for the SIS projects to determine impacts and provide mitigation strategies.

The State's maintenance program represents approximately 17% of the TIP projects, including the bridge maintenance projects. These projects reduce congestion and delays (e.g., ITS / Advanced Traffic Management System (ATMS) maintenance and repairs) and improve safety to the system (e.g., install and repair guardrail and handrails, signing and pavement markings, bridge maintenance). These projects should not impose burdens to Equity communities and should positively impact these communities.

The transit section of the TIP managed by Broward County Transit (BCT) is required by federal regulations to conduct its own Equity Assessment and Title VI analysis. More information on BCT's Equity Assessment to ensure transit investment and service is provided in a non-discriminatory way can be found in the link provided below: http://www.broward.org/BCT/Pages/TitleVI.aspx

DRAFT

3. PERFORMANCE MANAGEMENT

Performance management is a strategic approach to connect investment and policy decisions to help achieve performance goals. Performance measures are quantitative criteria used to evaluate progress. Performance measure targets are the benchmarks against which progress is assessed using available data. The MAP-21 requires state departments of transportation (DOT) and MPO to conduct performance-based planning by tracking performance measures and establishing data-driven targets to improve those measures. Performance-based planning ensures the most efficient investment of transportation funds by increasing accountability, providing transparency, and linking investment decisions to key outcomes related to seven national goals:

- Improving Safety;
- Maintaining Infrastructure Condition;
- Reducing Traffic Congestion;
- Improving the Efficiency of the System and Freight Movement;
- Protecting the Environment; and,
- Reducing Delays in Project Delivery.

The FAST Act supplements MAP-21 by establishing timelines for state DOTs and MPOs to comply with the requirements of MAP-21. The FDOT and MPOs must coordinate when selecting PM1, PM2, and PM3 performance targets, and public transportation providers must coordinate with states and MPOs in the selection of state and MPO transit asset management and transit safety performance targets. FDOT and the Metropolitan Planning Organization Advisory Council (MPOAC) developed the Transportation Performance Management (TPM) Consensus Planning Document to describe the processes through which FDOT, the MPOs, and the providers of public transportation in MPO planning areas will cooperatively develop and share information related to transportation performance management and target setting.

3.1 Safety Performance Measures (PM1)

Safety is the first national goal identified in the FAST Act. In March 2016, the Highway Safety Improvement Program (HSIP) and Safety Performance Management Measures Rule (Safety PM Rule) was finalized and published in the *Federal Register.* The rule requires MPOs to establish targets for the following safety-related performance measures and report progress to the state DOT:

1. Number of Fatalities;
2. Rate of Fatalities per 100M Vehicle Miles Traveled (VMT); and
3. Number of Serious Injuries;
4. Rate of Serious Injuries per 100M VMT; and
5. Number of Nonmotorized Fatalities and Serious Injuries.

DRAFT

On August 31, 2020, FDOT established statewide performance targets for the safety measures for calendar year 2021. On January 28, 2021, the Broward MPO agreed to support FDOT's statewide safety performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. Table 3-1 presents the statewide and MPO safety targets.

Table 3-1 Safety Performance Measure Targets

Safety Performance Measure	Statewide Safety Targets (2021)	Broward MPO Safety Targets (2021)
Number of Fatalities	0	0
Number of Serious Injuries	0	0
Fatality Rate per 100 million VMT	0	0
Serious Injury Rate per 100 million VMT	0	0
Total Number of non-motorized Fatalities and non-motorized serious injuries	0	0

Source: FDOT 2019 FHWA Performance Measures per MPO

FDOT adopted Vision Zero in 2012. This, in effect, became FDOT's target for zero traffic fatalities and quantified the policy set by Florida's Legislature more than 35 years ago (Section 334.046(2), Florida Statutes, emphasis added):

*"The mission of the Department of Transportation shall be to provide a **safe** statewide transportation system…"*

FDOT and Florida's traffic safety partners are committed to eliminating fatalities and serious injuries. As stated in the Safe System approach promoted by the Federal Highway Administration, the death or serious injury of any person is unacceptable. Therefore, FDOT has established 0 as the only acceptable target for all five of the federal safety performance measures. FDOT reaffirms this commitment each year in setting annual safety targets. The Florida Transportation Plan (FTP), the state's long-range transportation plan, identifies eliminating transportation related fatalities and serious injuries as the state's highest transportation priority. Florida's Strategic Highway Safety Plan (SHSP), published in March 2021, specifically embraces Target Zero and identifies strategies to achieve zero traffic deaths and serious injuries. The SHSP was updated in coordination with Florida's 27 MPOs and the MPOAC. The SHSP development process included review of safety-related goals, objectives, and strategies in MPO plans. The SHSP guides FDOT, MPOs, and other safety partners in addressing safety and defines a framework for implementation activities to be carried out throughout the state.

Florida's transportation safety partners have focused on reducing fatalities and serious injuries through the 4Es of engineering, education,

DRAFT

enforcement, and emergency response. To achieve zero, FDOT and other safety partners will expand beyond addressing specific hazards and influencing individual behavior to reshaping transportation systems and communities to create a safer environment for all travel. The updated SHSP calls on Florida to think more broadly and inclusively by addressing four additional topics, which could be referred to as the 4Is: information, intelligence, innovation, insight into communities, and investments and policies.

The Florida Highway Safety Improvement Program (HSIP) annual report documents the statewide performance toward the zero deaths vision. For the 2020 HSIP annual report, FDOT established 2021 statewide safety performance targets at "0" for each safety performance measure to reflect the Department's vision of zero deaths.

The Broward MPO, along with FDOT and other traffic safety partners, shares a high concern about the upward trending of traffic fatalities, both statewide and nationally. As such, the Broward MPO supports FDOT's statewide 2021 safety targets. The safety initiatives within this TIP are intended to contribute toward achieving these targets.

Safety performance measure targets are required to be adopted on an annual basis. In August of each calendar year, FDOT reports the following year's targets in the HSIP Annual Report. Each MPO is required to either adopt FDOT's targets or establish its own targets by the following February.

In early 2020, FHWA completed an assessment of target achievement for FDOT's 2018 safety targets, based on actual five-year averages for each measure for 2014-2018. Per FHWA's PM1 rule, a state has met or made significant progress toward its safety targets when at least four of the targets have been met or the actual outcome is better than the baseline performance. Based on FHWA's review, Florida did not make significant progress toward achieving its safety targets. Both the total number of fatalities and the fatality rate increased. The total number of serious injuries has begun to decline on a five-year rolling average basis, while the serious injury rate has declined steadily over this timeframe. Based on these trends, Florida is making progress towards achieving the targets established for serious injuries but not yet for fatalities or non-motorized users. As requested by FHWA, FDOT has developed an HSIP Implementation Plan to highlight additional strategies it will undertake in support of these targets. The HSIP Implementation Plan documents Florida's HSIP funding and project decisions for the upcoming fiscal year to meet or make significant progress toward meeting its safety performance targets in subsequent years.

As documented in the HSIP Implementation Plan, Florida received an allocation of approximately $155 million in HSIP funds during the 2018 state fiscal year from July 1, 2018 through June 30, 2019, and fully allocated those funds to safety projects. FDOT used these HSIP funds to complete 391 projects, which address the safety categories of intersections, lane departure mitigation, pedestrian and bicyclist safety, and other programs representing SHSP emphasis areas.

FDOT's State Safety Office works closely with FDOT districts and regional and local traffic safety partners to update the HSIP annually.

DRAFT

Historic, risk-based, and predictive safety analyses are conducted to identify appropriate proven countermeasures to reduce fatalities and serious injuries associated with Florida's SHSP emphasis areas, resulting in a list of projects that reflect the greatest needs and are anticipated to achieve the highest benefit. While these projects and the associated policies and standards may take years to be implemented, they are built on proven countermeasures for improving safety and addressing serious crash risks or safety problems identified through a data-driven process. Florida continues to allocate all available HSIP funding to safety projects. FDOT's HSIP Guidelines provide detailed information on this data-driven process and funding eligibility.

Baseline Conditions

After FDOT set its Safety Performance Measures targets in 2018, both FDOT and the Broward MPO established 2017 Baseline Safety Performance Measures. To evaluate baseline Safety Performance Measures, the most recent five-year rolling average (2015-2019) of crash data and VMT were utilized. Table 3-2 presents the Baseline Safety Performance Measures for Florida and Broward MPO.

Table 3-2 Baseline Safety Performance Measures (2017)

Performance Measure	Florida	Broward MPO
Number of Fatalities	2,685.6	206.6
Number of Serious Injuries	20,830.0	1,663.8
Fatality Rate per 100 million VMT	1.3	1.2
Serious Injury Rate per 100 million VMT	10.2	9.8
Total Number of non-motorized Fatalities and non-motorized serious injuries	3,253.0	333

Source: FDOT 2017 FHWA Performance Measures per MPO.

Trends Analysis

The MPO uses crash data tracking fatalities and serious injuries in Broward County to analyze past trends and identify regional safety issues. Tracking these measures will help to estimate the effectiveness of future MPO transportation investment, as reflected in the TIP. Table 3-3 shows the changes in Safety Performance Measures for Broward MPO from 2015 through 2019. The measures shown in Table 3-3 were calculated by following the same methodology as that used to calculate the baseline conditions.

DRAFT

Table 3-3 Trends of Broward Safety Performance Measures 2015-2019

Performance Measure	2011-2015	2012-2016	2013-2017	2014-2018	2015-2019
Number of Fatalities	183.0	198.6	206.6	211.8	225.4
Number of Serious Injuries	1,888.6	1,776.6	1,633.8	1,483.6	1,365.8
Fatality Rate per 100 million VMT	1.109	1.199	1.228	1.239	1.276
Serious Injury Rate per 100 million VMT	11.446	10.801	9.782	8.718	7.758
Total Number of non-motorized Fatalities and non-motorized serious injuries	341.2	351.8	333.0	319.0	312.2
VMT (100 MVMT)	165.204	165.202	167.814	170.704	197.598

DRAFT

The Safety Performance-Based Planning and Programing (PBPP) Projects/Activities

The Broward MPO continues to incorporate Performance-Based Planning and Programing (PBPP) into planning process to meet Federal requirement meanwhile to improve MPO decision-making.

The Broward MPO, in conjunction with FDOT, is devoted to make road safer for all users in Broward County and to meet safety performance targets. Many safety PBPP activities in the TIP, LRTP, and UPWP, such as Complete Streets and other Localized Program (CSLIP), Broward MPO Bicycle and Pedestrian Safety Action Plan, and Broward MPO Mobility Program, are dedicated to improve overall safety of transportation system in Broward County.

Transportation Improvement Program (TIP)

The MPO considers safety as a planning factor in the project selection process. One goal of the 2045 MTP is to reduce accidents, injuries, and fatalities. The MTP strengthened the connection between its spending and safety performance by continuing the CSMP, the CSLIP, and introduced the TSMO and safety program, which aim to improve safety of the transportation system. For example, Safety accounts for 30% of the CSLIP selection criteria. As part of the MTP and TIP, the MPO allocates a large portion of its discretionary funds to these programs. Projects identified in these programs have been funded through the TIP.

The TIP includes specific investment priorities that support all of the MPO's goals including safety, using a prioritization, and project selection process established in the MTP. This process evaluates projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and serious injury crashes is linked to this investment plan and the process used in prioritizing the projects is consistent with federal requirements. The TIP prioritization process uses stakeholder input as a criterion to evaluate projects that have an anticipated effect of reducing both fatal and injury crashes. The MPO's goal of reducing fatal and serious injury crashes is linked to the TIP and the process used in prioritizing the projects is consistent with federal requirements.

The program of projects identified through this process are anticipated to contribute toward achievement of the safety targets. The safety infrastructure investments are targeted at specific opportunities to improve safety. For example, additional roadway lighting at intersections will improve pedestrian visibility to drivers. In addition to the specific safety programs included in the TIP, other programs also consider safety as a key factor. Safety impacts are considered in the evaluation of proposed preservation, capacity, and operations projects, including projects on Florida's Strategic Intermodal System as well as regionally significant facilities identified in the MTP.

The TIP FY 2022 to 2026 includes 153 projects that improve safety conditions County-wide, totaling $484 million. These projects fall in the following categories. The MPO continues monitoring investments in the TIP and demonstrating progress toward goals and objectives.

DRAFT

1. Bike lane/Sidewalk
2. Lighting
3. Traffic control devices/system
4. Safety projects
5. Push button
6. Corridor improvements
7. Add turning lanes
8. Signing and pavement markings

The 2045 MTP

The MTP is the primary source for identifying priority projects for inclusion in the TIP. There are many projects included in the 2045 MTP that focus on improving safety of the Broward county transportation systems. For the complete list of projects, refer to the plan at http://browardmpo.org/index.php/commitment-2045-metropolitan-transportation-plan.

The MTP consolidates eligible classes of localized projects into one overall program, CSLIP. The MPO's CSLIP provides funding for small local transportation projects which improve the safety and mobility for all transportation users in Broward. This competitive grant program can fund projects such as (but not limited to): complete streets projects, traffic calming and intersection improvements, ADA upgrades, mobility hubs, bus shelters, bike racks, and technology advancements such as transit signal priority and traffic control devices. These projects are ranked based on the projects ability to address connectivity, mobility, safety, and economic development. The ranking is conducted objectively based on these categories to ensure an equal and fair distribution of funding.

The MTP set aside 15% discretionary funds to the Systems Management and Safety program, and proposes to utilize 10% of the available federal and state funding included in the "Other Roads" program for off-system safety projects (consistent with the published guidance provided by FDOT in the *2045 Revenue Forecast – Broward MPO/Broward Metropolitan Area*). One goal of the Systems Management and Safety program is to identify, prioritize, and implement safety improvements at locations with high fatality and serious injuries. High priority crash locations are included in the MMPL for future safety study and capital project funding. A new off-system Road Safety Audit (RSA) process has also been developed to expedite safety studies and safety construction projects on off-system roadways.

Broward MPO Complete Streets Initiative

The MPO understands the importance of creating a transportation system that addresses the needs of all users of the road, including the needs of people who walk, bike, drive, and take transit. Health, safety, and economic development benefits have been directly attributed to roads planned, designed, and operated for all users. To ensure that this is firmly embedded into our transportation planning process,

DRAFT

the Broward MPO developed the Complete Streets Initiative. This program, guided by the Complete Streets Advisory Committee (CSAC), with the main intent to provide the necessary tools to our local governments in implementing Complete Streets in their respective communities. The Complete Streets Initiative also serves as a platform to move forward active transportation projects identified in our plans, initiatives, and studies from the planning to design and ultimately to construction through the MPO's CSMP.

3.2 Pavement and Bridge Condition Measures (PM2)

In January 2017, USDOT published the Pavement and Bridge Condition Performance Measures Final Rule, which is also referred to as the PM2 rule.

This rule establishes the following six performance measures:

1. Percent of Interstate pavements in good condition;
2. Percent of Interstate pavements in poor condition;
3. Percent of non-Interstate National Highway System (NHS) pavements in good condition;
4. Percent of non-Interstate NHS pavements in poor condition;
5. Percent of NHS bridges (by deck area) classified as in good condition; and
6. Percent of NHS bridges (by deck area) classified as in poor condition.

For the pavement measures, five pavement metrics are used to assess condition:

- International Roughness Index (IRI) - an indicator of roughness; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Cracking percent - percentage of pavement surface exhibiting cracking; applicable to asphalt, jointed concrete, and continuous concrete pavements;
- Rutting - extent of surface depressions; applicable to asphalt pavements only;
- Faulting - vertical misalignment of pavement joints; applicable to jointed concrete pavements only; and
- Present Serviceability Rating (PSR) – a quality rating applicable only to NHS roads with posted speed limits of less than 40 miles per hour (e.g., toll plazas, border crossings). States may choose to collect and report PSR for applicable segments as an alternative to the other four metrics.

For each pavement metric, a threshold is used to establish good, fair, or poor condition. Using these metrics and thresholds, pavement condition is assessed for each 0.1 mile section of the through travel lanes of mainline highways on the Interstate or the non-Interstate NHS. Asphalt pavement is assessed using the IRI, cracking, and rutting metrics, while jointed concrete is assessed using IRI, cracking, and faulting. For these two pavement types, a pavement section is rated good if the ratings for all three metrics are good, and poor if the ratings for two or more metrics are poor.

DRAFT

Continuous concrete pavement is assessed using the IRI and cracking metrics. For this pavement type, a pavement section is rated good if both metrics are rated good, and poor if both metrics are rated poor.

If a state collects and reports PSR for any applicable segments, those segments are rated according to the PSR scale. For all three pavement types, sections that are not good or poor are rated fair.

The good/poor measures are expressed as a percentage and are determined by summing the total lane-miles of good or poor highway segments and dividing by the total lane-miles of all highway segments on the applicable system. Pavement in good condition suggests that no major investment is needed and should be considered for preservation treatment. Pavement in poor condition suggests major reconstruction investment is needed due to either ride quality or a structural deficiency.

The bridge condition measures refer to the percentage of bridges by deck area on the NHS that are in good condition or poor condition. The measures assess the condition of four bridge components: deck, superstructure, substructure, and culverts. Each component has a metric rating threshold to establish good, fair, or poor condition. Each bridge on the NHS is evaluated using these ratings. If the lowest rating of the four metrics is greater than or equal to seven, the structure is classified as good. If the lowest rating is less than or equal to four, the structure is classified as poor. If the lowest rating is five or six, it is classified as fair.

The bridge measures are expressed as the percent of NHS bridges in good or poor condition. The percent is determined by summing the total deck area of good or poor NHS bridges and dividing by the total deck area of the bridges carrying the NHS. Deck area is computed using structure length and either deck width or approach roadway width.

A bridge in good condition suggests that no major investment is needed. A bridge in poor condition is safe to drive on; however, it are nearing a point where substantial reconstruction or replacement is needed.

Federal rules require state DOTs and MPOs to coordinate when setting pavement and bridge condition performance targets and monitor progress towards achieving the targets. States must establish:

- Four-year statewide targets for the percent of interstate pavements in good and poor condition;
- Two-year and four-year targets for the percent of non-Interstate NHS pavements in good and poor condition; and
- Two-year and four-year targets for the percent of NHS bridges (by deck area) in good and poor condition.

MPOs must set four-year targets for all six measures. MPOs can either agree to program projects that will support the statewide targets, or establish their own quantifiable targets for the MPO’s planning area.

The two-year and four-year targets represent pavement and bridge condition at the end of calendar years 2019 and 2021, respectively.

DRAFT

On May 18, 2018, FDOT established statewide performance targets for the pavement and bridge measures. On November 14, 2018, the Broward MPO agreed to support FDOT's statewide pavement and bridge performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. Table 3-4 shows the statewide targets:

Table 3-4 Statewide Pavement and Bridge Condition Performance Targets

Performance Measure	2-year Statewide Target (2019)	4-year Statewide Target (2021)
Percent of Interstate pavements in good condition	Not required	≥60%
Percent of Interstate pavements in poor condition	Not required	≤5%
Percent of non-Interstate NHS pavements in good condition	≥40%	≥40%
Percent of non-Interstate NHS pavements in poor condition	≤5%	≤5%
Percent of NHS bridges (by deck area) in good condition	≥50%	≥50%
Percent of NHS bridges (by deck area) in poor condition	≤10%	≤10%

- For comparative purposes, the baseline (2017) conditions are as follows:
- 66.1 percent of the Interstate pavement is in good condition and 0.0 percent is in poor condition;
- 44.0 percent of the non-Interstate NHS pavement is in good condition and 0.4 percent is in poor condition; and
- 67.7 percent of NHS bridges (by deck area) is in good condition and 1.2 percent is in poor condition.

In determining its approach to establishing performance targets for the federal pavement and bridge condition performance measures, FDOT considered many factors. To begin with, FDOT is mandated by Florida Statute 334.046 to preserve the state's pavement and bridges to specific standards. To adhere to the statutory guidelines, FDOT prioritizes funding allocations to ensure the current transportation system is adequately preserved and maintained before funding is allocated for capacity improvements. These statutory guidelines envelope the statewide federal targets that have been established for pavements and bridges.

In addition, MAP-21 requires FDOT to develop a Transportation Asset Management Plan (TAMP) for all NHS pavements and bridges within the state. The TAMP must include investment strategies leading to a program of projects that would make progress toward achievement of the state DOT targets for asset condition and performance of the NHS. FDOT's TAMP was updated to reflect initial MAP-21 requirements in 2018 and the final TAMP was approved on June 28, 2019.

DRAFT

Further, the federal pavement condition measures require a new methodology that is a departure from the methods currently used by FDOT and uses different ratings and pavement segment lengths. For bridge condition, the performance is measured in deck area under the federal measure, while the FDOT programs its bridge repair or replacement work on a bridge by bridge basis. As such, the federal measures are not directly comparable to the methods that are most familiar to FDOT.

In consideration of these differences, as well as other unknowns and unfamiliarity associated with the new required processes, FDOT took a conservative approach when establishing its initial pavement and bridge condition targets. It is the intent of FDOT to meet or exceed the established performance targets.

FDOT collects and reports bridge and pavement data to FHWA each year to track performance and progress toward the targets. Reported pavement and bridge data for 2018 and 2019 show relatively stable conditions compared to the 2017 baseline and exceeded the established two-year targets. In early 2021, FHWA determined that FDOT made significant progress toward the two-year targets.

The Broward MPO TIP was developed and is managed in cooperation with FDOT, BCT, and the South Florida Regional Transportation Authority (SFRTA). It reflects the investment priorities established in the 2045 MTP. The TIP includes specific investment priorities that support all of the MPO's goals including maintaining infrastructure, using a prioritization and project selection process established in the MTP. The TIP devotes a significant amount of projects that will maintain pavement and bridge condition performance. The TIP includes 99 projects that address bridge and pavement conditions. This reflects an overall investment of $55 million for bridges, $2.8 billion for resurfacing, and $2.7 billion for new capacity. A subset of those 99 projects is shown below:

- SR-5/US-1 FR SR-862/I-595 TO N OF SR-842/BROWARD BLVD, BRIDGE REHABILITATION CST FY 2022
- SR-838/SUNRISE BLVD OVER INTRACOASTAL WATERWAY BRIDGE, BRIDGE REPAIR REHABILITATION FY 2025
- SR-5/US-1 OVER DANIA CUTOFF CANAL BRIDGE, BRIDGE-REPAIR/REHABILITATION, CST FY 2022
- SR-834/SAMPLE RD FROM WEST OF SR-845/POWERLINE RD TO MILITARY TRAIL, RESURFACING FY 2024
- SR-838/SUNRISE BLVD FROM I-95 TO SR-5/US-1, RESURFACING FY 2025

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to ensure the transportation system is adequately preserved and maintained. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to pavement and bridge projects, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide pavement and bridge condition performance targets.

DRAFT

3.3 System Performance (PM3)

In January 2017, USDOT published the System Performance/Freight/CMAQ Performance Measures Final Rule to establish measures to assess passenger and freight performance on the Interstate and non-Interstate National Highway System (NHS), and traffic congestion and on-road mobile source emissions in areas that do not meet federal National Ambient Air Quality Standards (NAAQS). The rule, which is referred to as the PM3 rule, requires state DOTs and MPOs to establish targets for the following six performance measures:

National Highway Performance Program (NHPP)

1. Percent of person-miles on the Interstate system that are reliable, also referred to as Level of Travel Time Reliability (LOTTR);
2. Percent of person-miles on the non-Interstate NHS that are reliable (LOTTR);

National Highway Freight Program (NHFP)

3. Truck Travel Time Reliability index (TTTR);

Congestion Mitigation and Air Quality Improvement Program (CMAQ)

4. Annual hours of peak hour excessive delay per capita (PHED);
5. Percent of non-single occupant vehicle travel (Non-SOV); and
6. Cumulative 2-year and 4-year reduction of on-road mobile source emissions (NOx, VOC, CO, PM10, and PM2.5) for CMAQ funded projects.

In Florida, only the two LOTTR performance measures and the TTTR performance measure apply. Because all areas in Florida meet current NAAQS, the last three listed measures above pertaining to the CMAQ Program do not currently apply in Florida. A description of the applicable measures follows.

LOTTR Measures

The LOTTR performance measures assesses the percent of person-miles traveled on the Interstate or the non-Interstate NHS that are reliable. LOTTR is defined as the ratio of longer travel times (80^{th} percentile) to a normal travel time (50^{th} percentile) over of all applicable roads, across four time periods between the hours of 6 a.m. and 8 p.m. each day. The measure is expressed as the percent of person-miles traveled on the Interstate or Non-Interstate NHS system that are reliable. Person-miles take into account the number of people traveling in buses, cars, and trucks over these roadway segments.

TTTR Measure

The TTTR performance measure assesses the reliability index for trucks traveling on the interstate. A TTTR ratio is generated by dividing the 95^{th} percentile truck travel time by a normal travel time (50^{th} percentile) for each segment of the Interstate system over

DRAFT

specific time periods throughout weekdays and weekends. This is averaged across the length of all Interstate segments in the state or metropolitan planning area to determine the TTTR index.

Federal rules require state DOTs and MPOs to coordinate when setting LOTTR and TTTR performance targets and monitor progress towards achieving the targets. States must establish:

- Two-year and four-year statewide targets for percent of person-miles on the Interstate system that are reliable;
- Four-year targets for the percent of person-miles on the non-Interstate NHS that are reliable[1]; and
- Two-year and four-year targets for truck travel time reliability

MPOs must establish four-year targets for all three measures. MPOs can either agree to program projects that will support the statewide targets, or establish their own quantifiable targets for the MPO's planning area.

The two-year and four-year targets represent system performance at the end of calendar years 2019 and 2021, respectively.

On May 18, 2018, FDOT established statewide performance targets for the system performance measures. On November 14, 2018, the Broward MPO agreed to support FDOT's statewide system performance targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the statewide targets. Table 3-5 presents the statewide and MPO targets.

Table 3-5 Statewide System Performance and Freight Targets

Performance Measure	2-year Statewide Target (2019)	4-year Statewide Target (2021)
Percent of person-miles on the Interstate system that are reliable (Interstate LOTTR)	≥75%	≥70%
Percent of person-miles on the non-Interstate NHS that are reliable (Non-Interstate NHS LOTTR)	Not Required[5]	≥50%
Truck travel time reliability (TTTR)	≤1.75	≤2.00

[1] Beginning with the second performance period covering January 1, 2022 to December 31, 2025, two year targets will be required in addition to four-year targets for the percent of person-miles on the non-Interstate NHS that are reliable measure.

DRAFT

For comparative purposes, baseline (2017) statewide conditions are as follows:

- 82.2 percent of person-miles traveled on the Interstate are reliable;
- 84.0 percent of person-miles traveled on the non-Interstate are reliable; and
- 1.43 truck travel time reliability index.

In establishing these targets, FDOT reviewed external and internal factors that may affect reliability; analyzed travel time data from the National Performance Management Research Dataset (NPMRDS) for the years 2014 to 2017, and developed a sensitivity analysis indicating the level of risk for road segments to become unreliable.

The federal travel time reliability measures follow a new methodology that differ from prior Florida efforts. In addition, beginning in 2017, the NPMRDS expanded its coverage of travel segments, and a new vendor began to supply the dataset, creating a difference in reliability performance results on non-Interstate NHS segments between pre-2017 trends and later trends. These factors create challenges for establishing a confident trend line to inform target setting for the next two to four years.

In consideration of these differences, as well as other unknowns and unfamiliarity associated with the newly required processes, FDOT took a conservative approach when establishing its initial statewide system performance and freight targets. It is the intent of FDOT to meet or exceed the established performance targets.

FDOT collects and reports reliability data to FHWA each year to track performance and progress toward the reliability targets. The percentage of person-miles that are reliable improved since 2017 on both the Interstate and non-Interstate NHS. The truck travel time reliability index improved slightly from the 2017 baseline to 2018 but declined slightly in 2019. The data all indicate performance that exceeded the applicable two-year targets. In early 2021, FHWA determined that FDOT made significant progress toward the two-year targets.

System performance and freight are addressed through several statewide initiatives:

- Florida's SIS is composed of transportation facilities of statewide and interregional significance. The SIS is a primary focus of FDOT's capacity investments and is Florida's primary network for ensuring a strong link between transportation and economic competitiveness. These facilities, which span all modes and includes highways, are the workhorses of Florida's transportation system and account for a dominant share of the people and freight movement to, from, and within Florida. The SIS includes 92 percent of NHS lane miles in the state. Thus, FDOT's focus on improving performance of the SIS goes hand-in-hand with improving the NHS, which is the focus of the FHWA's TPM program. The SIS Policy Plan will be updated in 2021 consistent with the updated FTP. The SIS Policy Plan defines the policy framework for designating which facilities are part of the SIS, as well as how SIS investments needs are identified and prioritized. The development of the SIS Five-Year Plan by FDOT considers

DRAFT

scores on a range of measures including mobility, safety, preservation, and economic competitiveness as part of FDOT's Strategic Investment Tool (SIT).

- In addition, FDOT's Freight Mobility and Trade Plan (FMTP) defines policies and investments that will enhance Florida's economic development efforts into the future. The FMTP identifies truck bottlenecks and other freight investment needs and defines the process for setting priorities among these needs to receive funding from the National Highway Freight Program (NHFP). Project evaluation criteria tie back to the FMTP objectives to ensure high priority projects support the statewide freight vision. In February 2018, FHWA approved the FMTP as FDOT's State Freight Plan.

- FDOT also developed and refined a methodology to identify freight bottlenecks on Florida's SIS on an annual basis using vehicle probe data and travel time reliability measures. Identification of bottlenecks and estimation of their delay impact aids FDOT in focusing on relief efforts and ranking them by priority. In turn, this information is incorporated into FDOT's SIT to help identify the most important SIS capacity projects to relieve congestion.

The Broward MPO TIP was developed and is managed in cooperation with FDOT and transit providers: BCT and the SFRTA. It reflects the investment priorities established in the 2045 MTP. The TIP includes specific investment priorities that support all of the MPO's goals including reducing travel time and Achieving Level of Service (LOS) standards, using a prioritization and project selection process established in the MTP. The TIP devotes a significant amount of resources to programs and projects that will improve system performance and freight reliability on the Interstate and non-Interstate NHS. The Broward MPO TIP will fund $99 million for intersection improvement, $2.8 billion for congestion relief projects, $2.6 billion for freight, $125 million for TDM projects, $2.1 billion for managed lanes, and $260 million for TSM&O projects. A subset of those projects is shown below:

- SR-820/PINES BOULEVARD @ FLAMINGO ROAD, INTERSECTION IMPROVEMENTS PDE FY 2023/24, PE FY2025
- SR-870/COMMERCIAL BLVD FROM ROCK ISLAND ROAD TO ANDREWS AVENUE, ADAPTIVE TRAFFIC CONTROL SYSTEM, PE FY 2022, CST FY 2024
- SR-7/US-441 @ OAKES ROAD, INTERSECTION IMPROVEMENT, CST FY 2023
- SR-5/US-1 SOUTH BOUND ON RAMP TO WEST BOUND I-595 – WIDEN/RESURFACE EXIST LANES, CST FY 2025

The projects included in the TIP are consistent with FDOT's Five Year Work Program, and therefore to FDOT's approach to prioritize funding to address performance goals and targets. Per federal planning requirements, the state selects projects on the NHS in cooperation with the MPO from the approved TIP. Given the significant resources devoted in the TIP to programs that address system performance and freight, the MPO anticipates that once implemented, the TIP will contribute to progress towards achieving the statewide reliability performance targets.

DRAFT

3.4 Transit Asset Management

On July 26, 2016, the FTA published the final Transit Asset Management (TAM) rule. This rule applies to all recipients and subrecipients of Federal transit funding that own, operate, or manage public transportation capital assets. The rule defines the term "state of good repair," requires that public transportation providers develop and implement TAM plans, and establishes state of good repair standards and performance measures for four asset categories: rolling stock, equipment, transit infrastructure, and facilities. The rule became effective on October 1, 2018.

Table 3-6 identifies performance measures outlined in the final rule for Transit Asset Management (TAM).

Table 3-6 FTA TAM Performance Measures

Asset Category	Performance Measure
Equipment	Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their useful life benchmark
Rolling Stock	Percentage of revenue vehicles within a particular asset class that have either met or exceeded their useful life benchmark
Infrastructure	Percentage of track segments with performance restrictions
Facilities	Percentage of facilities within an asset class rated below condition 3 on the TERM scale

For equipment and rolling stock classes, Useful Life Benchmark (ULB) is defined as the expected lifecycle of a capital asset, or the acceptable period of use in service, for a particular transit provider's operating environment. ULB considers a provider's unique operating environment such as geography, service frequency, etc.

Public transportation agencies are required to establish and report transit asset management targets annually for the following fiscal year. Each public transit provider or its sponsors must share its targets with each MPO in which the transit provider's projects and services are programmed in the MPO's TIP. MPOs are required to establish initial transit asset management targets within 180 days of the date that public transportation providers establish initial targets. However, MPOs are not required to establish transit asset management targets annually each time the transit provider establishes targets. Instead, subsequent MPO targets must be established when the MPO updates or amends the TIP or LRTP. When establishing transit asset management targets, the MPO can either agree to program projects that will support the transit provider targets, or establish its own separate regional transit asset management targets for the MPO planning area. MPO targets may differ from agency targets, especially if there are multiple transit agencies in the MPO planning

DRAFT

area.

To the maximum extent practicable, transit providers, states, and MPOs must coordinate with each other in the selection of performance targets.

The TAM rule defines two tiers of public transportation providers based on size parameters. Tier I providers are those that operate rail service or more than 100 vehicles in all fixed route modes, or more than 100 vehicles or more in one non-fixed route mode. Tier II providers are those that are a subrecipient of FTA 5311 funds, or an American Indian Tribe, or have 100 or less vehicles across all fixed route modes, or have 100 vehicles or less in one non-fixed route mode. A Tier I provider must establish its own transit asset management targets, as well as report performance and other data to FTA. A Tier II provider has the option to establish its own targets or to participate in a group plan with other Tier II providers whereby targets are established by a plan sponsor, typically a state DOT, for the entire group.

A total of 18 transit providers participated in the FDOT Group TAM Plan and continue to coordinate with FDOT on establishing and reporting group targets to FTA through the National Transit Database (NTD) (Table 6.2). These are FDOT's Section 5311 Rural Program subrecipients. The Group TAM Plan was adopted in October 2018 and covers fiscal years 2018-2019 through 2021-2022. Updated targets were submitted to NTD in March 2021.

Transit Asset Management Performance Targets

Public transportation agencies are required to set and report transit targets annually. Public transit providers or their sponsors must share their targets with each MPO in which the transit provider's projects and services are programmed in the MPO's TIP. Subsequent MPO TAM targets must be set when updating the LRTP. MPOs can either agree to program projects that will support the TAM targets, or set their own separate regional TAM targets for the MPO's planning area. Regional TAM targets may differ from agency TAM targets, especially if there are multiple transit agencies in the MPO's planning area, or in the event that one or more transit agencies have not provided TAM targets to the MPO. The Broward MPO planning area is served by two Tier 1 transit providers: BCT and SFRTA and therefore must develop TAM Plans. BCT's TAM Plan includes the following Tier 2 transit providers: Coconut Creek, Coral Springs, Dania Beach, Davie, Deerfield Beach, Fort Lauderdale, Hallandale Beach, Hillsboro Beach, Hollywood, Lauderdale-by-the-Sea, Lauderdale Lakes, Lauderhill, Lighthouse Point, Margate, Miramar, Pembroke Pines, Pompano Beach, Tamarac, and West Park.

On January 28, 2021, the Broward MPO re-established transit asset targets for the MPO planning area. These targets were established in consultation with and reflect the targets established by BCT and SFRTA through their TAM Plans. The targets for rolling stock, particularly buses and vans, reflect a composite of all the transit agencies' targets. In instances where targets applied to one specific agency, such as locomotives and track restrictions, the MPO adopted that agency's target. The targets for the MPO's planning area are shown in Table 3-7.

DRAFT

Table 3-7 The Broward MPO TAM Targets

Asset Category - Performance Measure	Asset Class/Type	Useful Life Benchmark	2021 Target
Rolling Stock			
Percentage of revenue vehicles that have met or exceeded their Useful Life Benchmark (ULB)	Cutaway Bus (CU)	10 years	**0%**
	Paratransit Mini Van (MV)	8 years	**0%**
	40 Foot Bus (BU)	14 years	**15%**
	60 Foot Bus Articulated Bus (AB)	14 years	**0%**
	45 Foot Bus (BR)	14 years	**0%**
	Commuter Rail Locomotive (RL)	39 years	**25%**
	Commuter Rail Passenger Coach (RP)	39 years	**25%**
	Commuter Rail self-propelled passenger car (RS)	39 years	**25%**
Equipment			
Percentage of non-revenue, support-service and maintenance vehicles that have met or exceeded their Useful Life Benchmark (ULB)	All non-revenue vehicles	8 years	**22%**
	Other rubber tire vehicles	14 years	**25%**
Facilities			
Percentage of facilities rated below Condition 3.0 on the FTA Transit Economic Requirements Model (TERM)	Passenger, maintenance, parking and administrative facilities	3.0	**5%**
Infrastructure			
Percentage of track segments with performance restrictions	**Rail fixed guideway, track and signals**	**Performance Restrictions**	**4%**

DRAFT

The Broward MPO TIP was developed and is managed in cooperation with BCT and SFRTA. It reflects the investment priorities established in the 2045 MTP and BCT and SFRTA's TAM Plans.

Transit asset condition and state of good repair is a consideration in the methodology Broward MPO and the transit agencies use to select projects for inclusion in the TIP. The Broward MPO TIP, once implemented, will make progress toward achieving these targets.

Chapter 5.3, 5.4 and 5.5 of the Broward MPO's TIP documents all funds (local, FTA and STP) that will be used by BCT and SFRTA to improve the condition of the region's transit assets. The Broward MPO TIP includes 36 projects that address transit state of good repair. This reflects an overall investment of $895 million. A subset of those 36 projects is shown below:

- Broward County Transit Section 5339 Bus and Bus facilities
- SFRTA Section 5337 State of Good Repair
- SFRTA Capital Section 5339 Bus and Bus Facilities

The TIP includes specific investment priorities that support all of the MPO's goals, including transit state of good repair, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit state of good repair in the MPO's planning area. The MPO's goal of improving transit asset condition is linked to this investment plan, and the process used to prioritize the projects within the TIP is consistent with federal requirements.

The Broward MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit asset performance targets. The Broward MPO will continue to coordinate with the BCT and SFRTA to maintain the region's transit assets in a state of good repair.

3.5 Transit Safety Performance

The Federal Transit Administration (FTA) established transit safety performance management requirements in the Public Transportation Agency Safety Plan (PTASP) final rule, which was published on July 19, 2018. This rule requires providers of public transportation systems that receive federal financial assistance under 49 U.S.C. Chapter 53 to develop and implement a PTASP based on a Safety Management Systems approach.

The rule applies to all operators of public transportation that are a recipient or sub-recipient of FTA Urbanized Area Formula Grant Program funds under 49 U.S.C. Section 5307, or that operate a rail transit system that is subject to FTA's State Safety Oversight Program. The rule does not apply to certain modes of transit service that are subject to the safety jurisdiction of another Federal agency, including

DRAFT

passenger ferry operations that are regulated by the United States Coast Guard, and commuter rail operations that are regulated by the Federal Railroad Administration.

The PTASP must include performance targets for the performance measures established by FTA in the National Public Transportation Safety Plan, which was published on January 28, 2017. The transit safety performance measures are:

- Total number of reportable fatalities and rate per total vehicle revenue miles by mode.
- Total number of reportable injuries and rate per total vehicle revenue miles by mode.
- Total number of reportable safety events and rate per total vehicle revenue miles by mode.
- System reliability – mean distance between major mechanical failures by mode.

In Florida, each Section 5307 or 5311 transit provider must develop a System Safety Program Plan (SSPP) under Chapter 14-90, Florida Administrative Code. FDOT technical guidance recommends that Florida's transit agencies revise their existing SSPPs to be compliant with the new FTA PTASP requirements[2].

Each provider of public transportation that is subject to the federal rule must certify that its SSPP meets the requirements for a PTASP, including transit safety targets for the federally required measures. Providers initially were required to certify a PTASP and targets by July 20, 2020. However, on April 22, 2020, FTA extended the deadline to December 31, 2020 to provide regulatory flexibility due to the extraordinary operational challenges presented by the COVID-19 public health emergency. On December 11, 2020, FTA extended the PTASP deadline for a second time to July 20, 2021.Once the public transportation provider establishes targets, it must make the targets available to MPOs to aid in the planning process. MPOs have 180 days after receipt of the PTASP targets to establish transit safety targets for the MPO planning area. In addition, the Broward MPO must reflect those targets in any LRTP and TIP updated on or after July 20, 2021.

The following transit provider(s) operate in the Broward MPO planning area: BCT and SFRTA. Of these, BCT is subject to the PTASP requirements and is responsible for developing a PTASP and establishing transit safety performance targets annually.

BCT established the transit safety targets identified in Table 3.8 on July 20, 2020:

[2] FDOT Public Transportation Agency Safety Plan Guidance Document for Transit Agencies. Available at https://www.fdot.gov/transit/default.shtm

DRAFT

Table 3.8. Transit Safety Performance Targets for Broward County Transit

Transit Mode	Fatalities (total)	Fatalities (rate)	Injuries (total)	Injuries (rate)	Safety Events (total)	Safety Events (rate)	System Reliability
Transit Provider 1							
Fixed Route Bus	0	0.0	0	0.0	1,320	8.65	3,000
Community Bus	0	0.0	0	0.0	10	0.50	3,500
Paratransit	0	0.0	0	0.0	264	2.50	77,500

On January 28, 2021, the Broward MPO agreed to support Broward County Transit's transit safety targets, thus agreeing to plan and program projects in the TIP that once implemented, are anticipated to make progress toward achieving the targets.

The Broward MPO TIP was developed and is managed in cooperation with BCT and SFRTA. It reflects the investment priorities established in the 2045 MTP. The Broward MPO TIP has been evaluated and the anticipated effect of the overall program is that, once implemented, progress will be made towards achieving the transit safety performance targets. The Broward MPO will continue to coordinate with BCT and SFRTA to maintain and improve the safety of the region's transit system and maintain transit assets in a state of good repair.

Transit safety is a consideration in the methodology the Broward MPO and BCT uses to select projects for inclusion in the TIP. The TIP includes specific investment priorities that support all of the MPO's goals, including transit safety, using a prioritization and project selection process established in the LRTP. This process evaluates projects that, once implemented, are anticipated to improve transit safety in the MPO's planning area. Chapter 5.3, 5.4 and 5.5 of the Broward MPO's TIP documents all funds (local, FTA and STP) that will be used by BCT for transit safety and transit system reliability. The Broward MPO TIP includes 34 projects that address transit safety. This reflects an overall investment of $871 million. A subset of those 34 projects is shown below:

DRAFT

OVERVIEW

DEVELOPMENT

The Broward Metropolitan Planning Organization (MPO) is required to develop a Multimodal Priority List (MMPL) in coordination with Florida Department of Transportation (FDOT) District Four planning staff. The list is submitted to the District by August 1 annually [s.339.175 (8)(a) and (b), F.S.]. FDOT uses the MMPL to develop the Draft Tentative Work Program that is presented to the MPO each fall, which in turn is used to develop the following year's Transportation Improvement Program (TIP). The Fiscal Year (FY) 2021 MMPL is used to develop the FY 2022-2026 Draft Tentative Work Program and the FY 2022-2026 TIP.

The MMPL is a core product of the MPO that serves as a bridge between the MPO's Long Range Transportation Plan (LRTP)/Metropolitan Transportation Plan (MTP) and the TIP. Figure 1 shows the Broward MPO core product development process. The MMPL is used to set funding priorities for federal and state funds within our region. Only projects contained in the MTP are eligible for inclusion on the MMPL. Figure 2 presents the relationship among MTP, MMPL, and TIP.

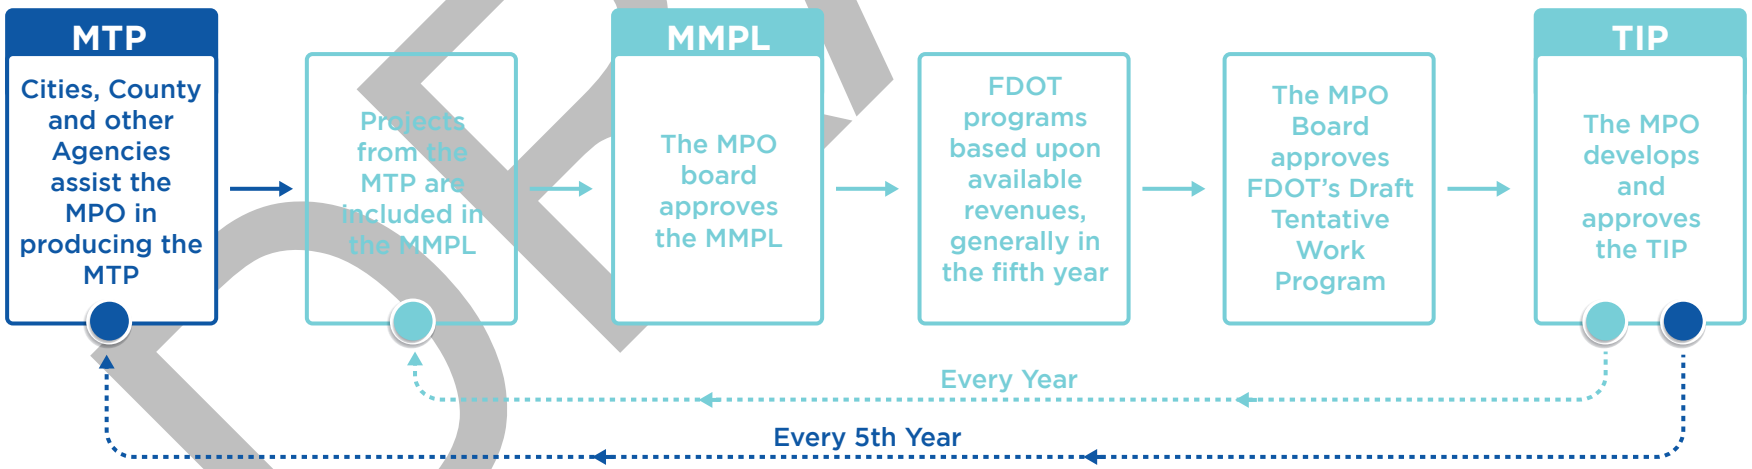

Figure 1 Core Product Development Process

DRAFT

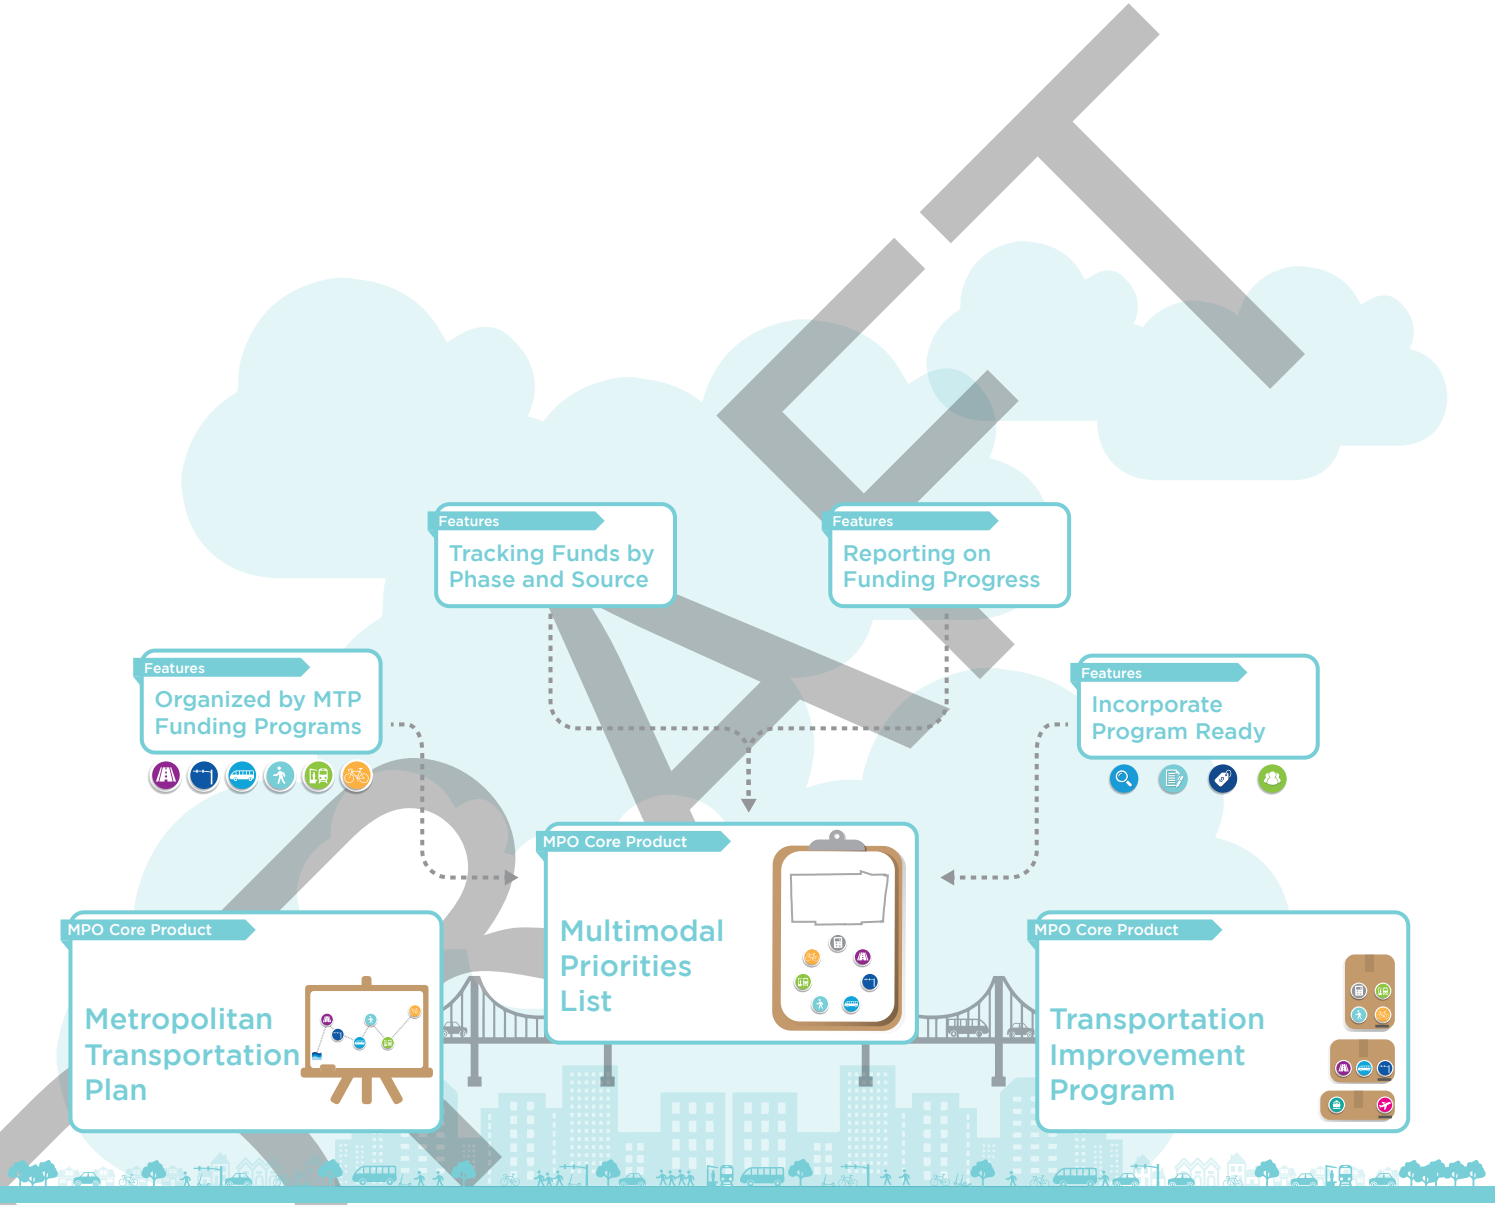

Figure 2 Relationship among MTP, MMPL and TIP

The 2045 MTP was approved at the December 2019 MPO Board meeting. The Cost Feasible Plan, as a component of the MTP including a list of prioritized projects, was approved with it. The Cost Feasible Plan includes six funding programs in order to account for the region's multimodal transportation needs. To be consistent with the 2045 MTP and the funding sources assumed in the financial plan of the 2045 MTP, the MMPL is organized by six funding programs. It utilizes the 2045 MTP's allocations for the Broward MPO's attributable funds as shown in Table 1.

Table 1 Programs and funding allocation

Program	Allocation
Highway/Roadway	20%
Transit	10%
Systems Management/Safety	15%
Complete Streets and other Localized Initiatives Program (CSLIP)	20%
Complete Streets Master Plan (CSMP)	25%
Mobility Hubs	10%
Total	**100%**

In addition, the MMPL assigns a preferred funding source for each prioritized project that is consistent with the 2045 MTP's cost feasible plan. The funding sources are indicated as State, Federal, Local or any combination of the three. To facilitate project delivery, the MMPL emphasizes a "Program Ready" concept. "Program ready" means that a project includes a clear scope of work, approved resolution, cost estimate, and collaboration with partners. Projects that meet all of these four criteria are eligible for funding. For an example of how these concepts are illustrated in the MMPL, please refer to Figure 3.

UNIFIED PLANNING WORK PROGRAM (UPWP)

Besides the six programs mentioned earlier, funding for the Broward MPO's Unified Planning Work Program (UPWP)/budget is top priority. The MPO's UPWP contains the agency's Strategic Business Plan activities, planning efforts, and operating budget for a two-year period. The UPWP includes a description of the planning work and resulting products, who will perform the work, time frames for completing the work, the cost of the work, and the source(s) of funds. Further, the UPWP provides a comprehensive picture to citizens and stakeholders who wish to see how federal and state transportation planning dollars are to be spent by the Broward MPO, local governments, and transit agencies providing services to Broward. The UPWP is developed by MPO staff in consultation with partner agencies, municipal staff, and input from local citizens and stakeholders. The information collected is incorporated into the UPWP and budgeted accordingly. To support services that the MPO provides to the Broward region, the Broward MPO assigns Surface Transportation Program – Urban areas >200K (SU) funds to the UPWP. Available MPO attributable funds for the six programs excludes SU funds already allocated to UPWP.

PROJECT PRIORITIZATION

The 2035 LRTP established a new paradigm to provide a balanced transportation system with greater investments toward alternative modes such as transit, bicycle and pedestrian facilities, and smart growth policies. Both the Commitment 2040 and MTP 2045 follow this set standard. In order to guarantee that the transportation investments are balanced among the transportation modes, percentages agreed upon in the MTP 2045 by the MPO Board (during the MTP's development) were used to distribute revenue among the six programs. Projects within each program were prioritized according to criteria established for each individual program. The following describes the prioritization process for each of the six programs.

COMPLETE STREETS AND OTHER LOCALIZED INITIATIVES PROGRAM (CSLIP)

CSLIP provides funding for small local transportation projects that will improve safety and mobility for all transportation users. The MPO facilitates an annual competitive grant program to fund projects such as Complete Streets projects, traffic calming and intersection improvements, ADA compliance upgrades, bus shelters, bike racks, and technology advancements (e.g., transit signal priority and traffic control devices). Projects funded through this program are generally around $2 million each.

CSLIP uses an objective tool to evaluate and rank the application submitted. This tool was developed with direction from the Board and uses several geographic datasets to score the projects. Evaluation criteria weights are 30% for safety, 24% for economic development, 23% for connectivity, and 23% for mobility.

COMPLETE STREETS MASTER PLAN (CSMP)

Complete streets are built for all users, emphasizing the safe and efficient movement of people including pedestrians, bicyclists, and transit riders. The MPO developed a CSMP to guide future investments by creating a prioritized list of projects based on technical, data-driven analysis and community input. Funding is allocated to this program based on the prioritized order established in the CSMP. Projects funded through this program are generally greater than $2 million.

Prioritization is a process of scoring and ranking the Complete Streets projects and Super Connectors based on identified criteria or variables. The criteria is consistent with the goals and objectives established in the Commitment 2040 LRTP, continues in the Commitment 2045 MTP, and builds upon the format and content of the CSLIP evaluation criteria. The criteria between the two differ slightly but fit within the same theme.

For CSLIP details, please visit the CSLIP policies link at: http://www.browardmpo.org/images/WhatWeDo/CSLIP/Round_4_Policies_Final.pdf and the evaluation chart at: http://www.browardmpo.org/images/WhatWeDo/CSLIP/EvaluationGraphic_Draft-v016.pdf

For CSMP details, please refer to the CSMP prioritization criteria link at: http://www.browardmpo.org/images/CSMP/CSMP_prioritization_criteria.pdf

DRAFT

ROADWAY & TRANSIT PROGRAMS

Funding for the roadway program is allotted to transportation improvements that increase roadway capacity by building new roadways, adding lanes to existing roadways, or building/expanding interchanges and major intersections. Funding may also be allocated to concept studies, preliminary engineering, and design to support the development of roadway capacity projects. The transit funding program includes transit capital investments such as transit vehicles, transit technology investments (e.g., fare collection equipment, automatic passenger counters, vehicle location, etc.), and roadway improvements designed to serve as exclusive lanes for transit services (for which operating funding has been identified).

Projects in the Roadway Program and Transit Program follow the same prioritization process established in the MTP 2045. The prioritization criteria is based upon the MTP's Goals and Objectives, adopted by the MPO Board on May 10, 2018, and the Performance Measures developed to ensure consistency with the FAST Act. These six measures, which are referred to as planning factors, were identified as best representing the MTP's Goals and Objectives they are: (1) Mobility: Providing high speed and reliable travel between major activity centers and destinations. The focus of mobility is to get from one place to another as quickly as possible and typically is characterized by longer trips. (2) Accessibility: Providing access and circulation within higher-density, mixed-use places; tend to be shorter trips. (3) Safety: Reducing the number and severity of crashes. (4) Equity: Ensuring that benefits and impacts are shared among Broward's population. (5) Environmental Stewardship: Protecting the natural and built environment. (6) Economic Vitality: Supporting economic activity and businesses.

Each of the six planning factors were given a weighted value to align it with its importance to the community. The weighting values were determined through an interactive polling process with the Technical Advisory Committee (TAC), the Citizens' Advisory Committee (CAC), and the MPO Board. The values obtained were averaged and resulted: Mobility – 20.5, Accessibility – 20.8, Safety – 18.7, Equity – 14.3, Environmental Stewardship – 12.8, and Economic Vitality – 13.0.
Six matrixes with prioritization criteria were developed for each planning factor respectively. These matrixes include evaluation criteria, assessment scoring, and scoring guidelines. Through several discussions with the TAC and CAC, the prioritization criteria were revised and shown in tables 1 through 6 in the Technical Report #4 Project Prioritization Process.

Several key changes that resulted from this process were:

- The inclusion of additional Safety criteria to better reflect the importance of this issue;
- The addition of a positive criteria for projects that may improve environmental conditions;
- Clarifications to several criteria to ensure that both roadway and transit projects were evaluated; and
- Adjustments to the Sea Level Rise Mitigation criteria to account for projects that improve the resiliency of infrastructure to extreme weather, regardless of the project's location in a defined vulnerability area.

It is important to note that whereas this process has been developed for the 2045 MTP, these prioritization criteria and planning factor weightings can change over time as the Emphasis Areas stressed by the federal and state government change and local stakeholder preferences change. Future MTPs will address these changes with adjustments to these factors. In addition to an overall process, the Broward MPO project prioritization criteria were developed with the following considerations:

- Projects are to be evaluated regardless of their mode (roadway, transit, Transportation Systems Management and Operations (TSM&O), etc.).
- Scores are to be normalized to account for variance in maximum points awarded in each planning factor group.
- An initial recommendation of rounding negative scores to 0 was reconsidered at the TAC's request to better reflect the potential negative impacts of a project. Thus, negative scores are carried through.

For Roadway and Transit details, please refer to 2045 MTP Technical Report #4 Project Prioritization Process at: http://www.browardmpo.org/index.php/mtp-documents

DRAFT

SYSTEMS MANAGEMENT/SAFETY PROGRAM

Funding allocated to this program is to be focused on Transportation Systems Management and Operations (TSM&O), a program based on actively managing the multimodal transportation network, measuring performance, streamlining and improving the existing system, promoting effective cooperation/collaboration, and delivering positive safety and mobility outcomes to the traveling public. Example projects funded in this program include signal timing/coordination and major safety improvements. Funding in this program is also set aside to support studies to identify, prioritize, and implement safety improvements.

TSM&O projects on-state highway system were selected and prioritized by the FDOT. Safety improvement study projects were selected and prioritized according to the severity index as part of the Commitment 2045 MTP. The severity index is a measure that looks at total crashes and crash severity. It uses a weighted average (higher score for incapacitating and fatal crashes) to develop an index that ranks locations in terms of their importance for future safety analysis and improvements. The safety improvement projects identified through safety studies will be eligible for funding allocated to the Systems Management/Safety Program, as discussed previously. MPO staff are coordinating with FDOT District 4 and other local partners to lead these studies in the near future.

MOBILITY HUB PROGRAM

The Mobility Hub concept was initially introduced in the 2035 LRTP. The Mobility Hub program continues to be included in the 2040 LRTP and 2045 MTP. Mobility Hubs are transit access points with frequent transit service, high development potential, and a critical point for travel demand or transfers within the transit system. Funding through this program is available to help support the collaborative development of Mobility Hubs as communities identify and commit to opportunities that further the objectives of this program.

Prioritization of Mobility Hub projects is based on identified criteria or variables. Guided by the goals in the 2045 MTP, the recommended evaluation framework measures a candidate location's existing market and network readiness by incorporating the best available information into the evaluation matrix for review. The matrix includes measures of existing trip producers and attractors, potential trip producers, market ready attractors, existing transit ridership, and frequency. The prediction of theoretical future service would not be the driving factor for the evaluation although potential service is a consideration. The third factor in the evaluation is sponsor readiness, which is the willingness of the local government to support Mobility Hub investment.

For Systems Management/Safety details, please refer to 2045 MTP at: http://www.browardmpo.org/index.php/mtp-documents

For Mobility Hub details, please refer to the Revisit & Update Mobility Hubs Program - Assess Current Methodology Technical Memorandum link at: http://www.browardmpo.org/images/2-TM1-Mobility_Hubs_Revisit-Assess_Current_Methodology-January_2018_FINAL.pdf

FEDERAL FISCAL YEAR (FFY) 2020 ANNUAL LISTING OF OBLIGATED PROJECTS AVAILABLE TO PUBLIC

NOTICE IS HEREBY GIVEN that the Broward Metropolitan Planning Organization's (Broward MPO) Annual Listing of Obligated Projects is available to the public in compliance with federal mandates which require a listing of all projects for which federal funds have been obligated in the preceding year. The FDOT prepared the listing of highway projects (including investments in pedestrian walkways and bicycle transportation facilities), and the Broward MPO cooperatively working with public transportation operators developed the listing of transit projects, for which federal funds under 23 U.S.C or 49 U.S.C Chapter 53 were obligated during FFY 2020 between October 1, 2019 and September 30, 2020.

Copies may be downloaded from the Broward MPO website at BrowardMPO.org on the Transportation Improvement Program (TIP) page under the "What We Do" tab, or by contacting Jihong Chen, at (954) 876-0066, or email chenj@browardmpo.org. A hard copy for public review is available at the Broward MPO at Trade Centre South, 100 West Cypress Creek Road, 6th Floor, Suite 650, Fort Lauderdale, FL 33309-2181.

For complaints, questions or concerns about civil rights or nondiscrimination; or for special requests under the American with Disabilities Act, please contact: Erica Lychak, Communications Manager/Title VI Coordinator at (954) 876-0058 or Lychake@browardmpo.org

AÑO FISCAL FEDERAL 2020 LISTADO ANUAL DE PROYECTOS OBLIGADOS DISPONIBLE PARA EL PÚBLICO

POR LA PRESENTE SE INFORMA que el Listado Anual de Proyectos Obligados de la Organización de Planificación Metropolitana de Broward (MPO de Broward) está disponible para el público de conformidad con los mandatos federales que requieren una lista de todos los proyectos para los cuales se han comprometido fondos federales en el año anterior. El Departamento de Transporte del Estado de Florida (FDOT) preparó la lista de proyectos de carreteras (incluidas las inversiones en senderos peatonales e instalaciones de transporte de bicicletas) y la MPO de Broward, en colaboración con los operadores de transporte público, desarrolló el listado de proyectos de transporte publico, para los cuales se obligaron fondos federales bajo la 23 USC o 49 USC Capítulo 53 durante el año fiscal federal 2020 entre el 1 de octubre de 2019 y el 30 de septiembre de 2020.

Se pueden descargar copias del sitio web de la MPO de Broward en BrowardMPO.org en la página del Programa de Mejora del Transporte (TIP, Transportation Improvement Program) en la pestaña "What We Do [Qué hacemos]", o comunicándose con Christopher Restrepo, al (954) 876-0033, o por correo electrónico a restrepoc@browardmpo.org. Estará disponible una copia impresa para su revisión por el público en la MPO de Broward en Trade Centre South, 100 West Cypress Creek Road, 6th Floor, Suite 650, Fort Lauderdale, FL 33309-2181.

Para quejas, preguntas o inquietudes sobre derechos civiles o problemas relacionados con la discriminación; o para solicitudes especiales según la Ley de Estadounidenses con Discapacidades, contacte: Erica Lychak, Gerente de Comunicaciones/Coordinadora de Título VI al (954) 876-0058 o Lychake@browardmpo.org

DRAFT

2. Overview

Purpose of the Report

The Broward Metropolitan Planning Organization (MPO) is an agency responsible for transportation planning, programing, and coordinating investments. The MPO works in partnership with Broward County, Florida Department of Transportation (FDOT), the Federal Highway (FHWA) and Transit (FTA) Administrations as well as regional transit operators in planning for transportation improvements.

The Fixing America's Surface Transportation (FAST Act) legislation requires the MPO to publish the Annual Listing of Obligated Projects Report on annual basis, no later than 90 calendar days following the end of the program year. In response to the FAST directive, the FDOT prepared a listing of highway projects, including investments in pedestrian walkways and bicycle transportation facilities. The MPO, working in conjunction with public transportation providers, developed a listing of transit projects. These project lists were obligated for federal funds under 23 U.S.C or 49 U.S.C Chapter 53 during federal fiscal year 2020 (FFY 2020) between October 1, 2019 and September 30, 2020.

Federal law (23 CFR §450.334) requires the list to include:

(1) All federally funded projects authorized or revised to increase obligations in the preceding program year, and the TIP information under § 450. 326 (g) (1) and (4) at a minimum,

(2) For each project, identify the amount of Federal funds requested in the TIP, the Federal funding obligated during the preceding year, and the Federal funding remaining and available for subsequent years.

In general, federal funds are obligated to transportation projects through FHWA and FTA. According to FHWA definition, "*An obligation is a legal commitment: the Federal government's promise to pay a State for the Federal share of a project's eligible cost*[1]." For a project funded by FHWA funds, this commitment occurs when FHWA approves the project and executes the project agreement." For a project funded by FTA funds, this commitment occurs at the time the FTA grant is awarded. Alternatively, funding can also be "de-obligated". A de-obligation means money previously obligated is removed from the project to reflect changes to the project cost, delay, or cancellation [2].

DRAFT

Highlights

The report contains detail regarding projects obligated during FFY 2020, however some highlights include:

- $67,751,488 in FHWA funds is committed to 129 projects in the Broward County region.
- $286,576,295 in FTA funds is committed to public transit operators Broward County Transit and South Florida Regional Transit Authority, and Broward MPO mobility hubs.
- $15,233,579 Federal MPO (SU) fund is committed, while $5,498,876 such fund is de-obligated.
- $2,206,320 Federal MPO (TALU) fund is committed, while $27,477 such fund is de-obligated.
- $14,827,911 in previously obligated FHWA funds is free for use in current and forthcoming projects.

Federal Obligations by Fiscal Year

Figure 1 shows the total federally highway obligated funds, total federal transit obligated funds, SU obligated funds, and TALU obligated funds annually from 2018 to 2020. These values have averaged around $251,701,668, $99,358,017, $26,541,309, and $2,532,175 respectively. The Broward MPO continues monitoring obligated funds in the future Annual Listing of Obligated Projects report.

7.3 APPENDIX C FACT SHEET

DRAFT

FACT SHEET

Broward MPO
Metropolitan Planning Organization

Understanding the Transportation Improvement Program (TIP)

What is the Broward Metropolitan Planning Organization (Broward MPO)?

The Broward MPO is an agency responsible for transportation planning, intergovernmental coordination and transportation funding allocations in Broward County. The Broward MPO works with the public, planning organizations, government agencies, elected officials, and community groups to address transportation needs and develop transportation plans, such as the Transportation Improvement Program (TIP) and the Metropolitan Transportation Plan (MTP).

What is the Transportation Improvement Program (TIP)?

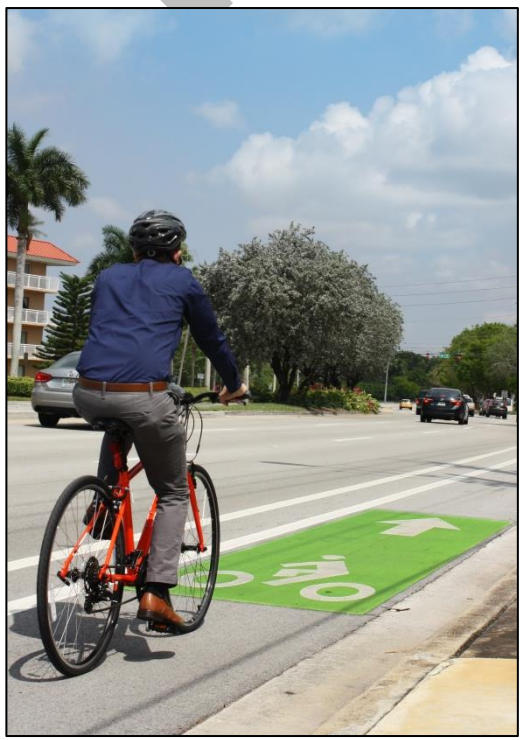

The TIP is a five-year program that prioritizes and documents the funding of transportation improvement projects the region expects to build over the next five years. These projects include transit, highway, air and seaport, as well as bicycle, pedestrian, and freight-related projects. The TIP is a tool to advance projects from MTP to a short range five year program. All TIP projects are evaluated to assure consistency with the goals and objectives of the MTP. The current TIP and MTP can be found online at BrowardMPO.org.

How is the TIP created?

The TIP is prepared by the Broward MPO in cooperation with partner transportation agencies such as the Florida Department of Transportation (FDOT), the South Florida Regional Transportation Authority (SFRTA/Tri-Rail), municipal partners, and Broward County transportation service providers such as Broward County Transit (BCT), Broward County Aviation, and Port Everglades. The Broward MPO and its planning partners develop the TIP on an annual basis. At the end of the process, the TIP signifies an agreement among local, state, and regional officials as to what transportation improvements to pursue.

How is the TIP funded?

TIP projects are funded through a mix of local, state and federal transportation funds. Federal funds are administered through the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). Funds also come from state, county, and local municipalities via fuel taxes.

DRAFT

Can the TIP be amended?

Yes, changes are routinely made to the TIP through amendments. The TIP can be amended in order to add, change, or delete projects. Such amendments must be reviewed and approved by the MPO and FDOT. The review also includes opportunities for public comment. The primary methods for public participation are the monthly meetings of the Citizens' Advisory Committee (CAC), the Technical Advisory Committee (TAC) and the Broward MPO. All meetings are held at the MPO office. Visit www.browardmpo.org/index.php/calendar for the date and time of meetings and upcoming agendas.

Why is the TIP important?

The TIP identifies, for both Broward residents and taxpayers, how federal, state and local dollars are being spent on transportation projects. The TIP is a vehicle to move projects from the Metropolitan Transportation Plan to a funded priority list that includes an anticipated schedule and the cost for each project.

How can YOU participate in developing the TIP?

- Attend a monthly meeting of the MPO Board, Technical Advisory Committee (TAC) or Citizens' Advisory Committee (CAC) Visit www.browardmpo.org/index.php/calendar for the date and time of meetings and upcoming agendas.
- Visit the Broward MPO website at BrowardMPO.org and click on the "Transportation Improvement Plan" section to learn more about the TIP.
- E-mail comments and questions to chenj@browardmpo.org or call at (954) 876 0066.
- Fax your comments and questions to 954-876-0062 or mail them to: Broward MPO, Suite 650, 100 West Cypress Creek Road, Fort Lauderdale, FL, 33309
- Prior to the adoption of the TIP, the MPO sponsors a public hearing, and a 30-day public comment period. This usually occurs in May-June of each year.

TIP Annual Schedule

January-April:

- The MPO is provided with projects from FDOT, local transportation agencies and municipalities for inclusion into the TIP.

May-June:

- The Broward MPO conducts public review and comment period for draft TIP.

July:

- The approval of the TIP by the Broward MPO Board.

For complaints, questions or concerns about civil rights or nondiscrimination; or for special requests under the Americans with Disabilities Act, please contact Erica Lychak, Title VI Coordinator at (954) 876-0058 or Lychake@browardmpo.org.

FACT SHEET

Broward MPO
Metropolitan Planning Organization

Comprendiendo el Programa de Mejora del Transporte (TIP)

¿Qué es la Organización de Planificación Metropolitana de Broward (Broward MPO)?

La MPO de Broward es una agencia responsable de la planificación del transporte, la coordinación intergubernamental y la asignación de fondos de transporte en el condado de Broward. La MPO de Broward trabaja con el público, organizaciones de planificación, agencias gubernamentales, funcionarios electos y grupos comunitarios para identificar las necesidades de transporte y desarrollar planes de transporte, tales como el Programa de Mejora del Transporte (TIP) y *el Plan de Transporte a Largo Plazo* (LRTP).

¿Qué es el Programa de Mejora del Transporte?

El TIP es un programa que prioriza y documenta los fondos de los proyectos de mejora del transporte en la región que se espera construir en los próximos cinco años. Incluye proyectos de transporte, carretera, aeropuerto y el puerto marítimo, así como bicicletas, peatones, y proyectos relacionados al transporte de mercancías. El TIP es una herramienta para avanzar proyectos del Plan de Transporte a Largo Plazo (LRTP) a un programa de corto alcance de cinco años. Todos los proyectos del TIP son evaluados para asegurar la coherencia con las metas y objetivos del LRTP. El TIP actual y LRTP se pueden encontrar en la página web BrowardMPO.org

¿Cómo se desarrolla el TIP?

El TIP es preparado por la MPO de Broward, en cooperación con las agencias de transporte locales, tales como el Departamento de Transporte de Florida (FDOT), la Autoridad de Transporte Regional del Sur de Florida (SFRTA), el Consejo de Transporte del Sudeste de la Florida, los municipalidades dentro del Condado de Broward, y proveedores de transporte del Condado Broward como las agencias de Tránsito del Condado Broward (BCT), Departamento de Aviación y el Puerto Everglades. La MPO de Broward y sus socios de la planificación desarrollan el TIP anualmente. Al final del proceso, el TIP significa un acuerdo entre funcionarios locales, estatales y regionales en cuanto a que mejoras de transporte se deben realizar.

¿Cómo se financia el TIP?

Los proyectos del TIP son financiados a través de una mezcla de fondos locales, estatales y fondos federales de transporte. Los fondos federales son administrados a través de la Administración Federal de Carreteras (FHWA) y la Administración Federal de Tránsito (FTA). Otros fondos provienen del estado, condado y las municipalidades a través de impuestos a los combustibles.

DRAFT

¿Se puede modificar el TIP?

Sí, los cambios son realizados regularmente en el TIP a través de enmiendas. El TIP puede ser modificado para agregar, cambiar o eliminar proyectos. Dichas modificaciones tienen que ser revisadas y aprobadas por la MPO y el FDOT. La revisión también incluye oportunidades para comentarios del público. Los principales métodos para la participación pública son las reuniones mensuales de la Citizens' Advisory Committee (CAC), Technical Advisory Committee (TAC) y la MPO de Broward que se congregan en la oficina del MPO.
Visite http://browardmpo.org/index.php/agendas-minutes para la fecha y hora de las reuniones y agendas futuras.

¿Por qué es importante el TIP?

El TIP identifica, tanto para los residentes y los contribuyentes de Broward, como se están utilizando los dólares federales, estatales y locales en proyectos de transporte. El TIP es un vehículo para mover los proyectos sin fondos del LRTP a una lista de prioridades con fondos disponibles que incluye un calendario previsto y el costo de cada proyecto.

¿Cómo tú puedes participar en el desarrollo del TIP?

• Los principales métodos para la participación pública son las reuniones mensuales de la CAC, el TAC y la MPO de Broward. Visita http://browardmpo.org/index.php/agendas-minutes para la fecha y hora de las reuniones y agendas futuras.
• Visita la página web de Broward MPO a menudo BrowardMPO.org y haga clic en la sección "Transportation Improvement Program."
• Mande un correo electrónico con sus comentarios y preguntas a restrepoc@browardmpo.org o llame a 954-876-0061.
• Envíe por fax sus comentarios y preguntas a 954-876-0062.
• Antes de la aprobación del TIP, la MPO patrocina una audiencia pública, y un período de 30 días para comentarios públicos. Esto suele ocurrir en Mayo-Junio de cada año.

Calendario Anual del TIP

Enero-Abril:
-La MPO cuenta con proyectos del FDOT, agencias de transporte locales y las municipalidades para su inclusión en el TIP.
Mayo-Junio:
-La MPO de Broward lleva a cabo el período de revisión y comentarios públicos para el TIP preliminar.
Julio:
-El TIP es aprobado por el Consejo del Broward MPO.

Para quejas, preguntas, problemas de derechos civiles, no discriminación o solicitudes especiales conforme a la Ley de Estadounidenses con Discapacidades, comuníquese con Erica Lychak, coordinadora del Título VI al (954) 876-0058 o Lychake@browardmpo.org

7.4 APPENDIX D NOTICE OF PUBLIC MEETINGS AND COMMENT PERIOD

DRAFT

Broward MPO
Metropolitan Planning Organization
Move People & Goods | Create Jobs | Strengthen Communities

YOUR TAX DOLLARS AT WORK
Fiscal Year 2022-2026 Transportation Improvement Program (TIP)

NOTICE is hereby given that the Broward Metropolitan Planning Organization (Broward MPO) will hold public meetings and consider approval of the Fiscal Year (FY) 2022-2026 Transportation Improvement Program (TIP). The TIP is a federally mandated document that lists transportation projects and programs to be funded by federal, state and local governments and transportation agencies over a five-year period in the Broward area.

Public meetings prior to the Broward MPO Board's consideration of the TIP will be held during the following regularly scheduled meetings, providing the public with three opportunities to make comments:

- **Technical Advisory Committee on Wednesday, June 23, 2021, at 2:30 p.m.**
- **Citizens' Advisory Committee on Wednesday, June 23, 2021, at 6:00 p.m.**
- **Broward MPO Board on Thursday, July 8, 2021, at 9:30 a.m. (Final Action Taken)**

All of the meetings listed above will be conducted as hybrid (partially virtual) meetings. While it is a requirement for Board and Committee Members to physically attend these hybrid meetings so as to achieve a quorum (with masks being required in the building), presenters and the general public are still highly encouraged to participate virtually. All meetings will be held in the Broward MPO Board Room, located in the Trade Centre South Building, 100 West Cypress Creek Road, Suite 650, Fort Lauderdale, FL 33309. For the most up-to-date meeting information and to register and access these meetings virtually, visit: https://browardmpo.org/agendas-minutes or https://browardmpo.org/calendar.

To make a public comment, please submit to **info@browardmpo.org** at least 24 hours prior to the start of the meeting.

This notice is also intended to satisfy the Transit Program-of-Projects requirements of the Urbanized Area Formula Program of the Federal Transit Administration.

The public is invited to review and comment on the proposed TIP. The TIP will be available for viewing at least 30 days prior to the July 8, 2021 Broward MPO Board meeting. The proposed TIP can be viewed at the eight (8) Regional Broward County Libraries (for a list of library addresses call 954-876-0033 or visit the website below) and on the Broward MPO website located at: www.BrowardMPO.org under the ***"What We Do" tab*** and ***Transportation Improvement Program*** or directly at https://www.browardmpo.org/core-products/transportation-improvement-program-tip

The Broward MPO will host a virtual public workshop to raise awareness of the TIP and to allow for public comment and discussion on June 15, 2021 at 6:00 p.m. – 7:00 p.m. For registration, please visit: https://www.browardmpo.org/core-products/transportation-improvement-program-tip or https://browardmpo.org/calendar.

DRAFT

For further information regarding the TIP or to request a copy, contact (954) 876-0066, or email chenj@browardmpo.org Please submit comments via email to chenj@browardmpo.org ; by mail to the Broward MPO office at 100 West Cypress Creek Road, Suite 650, Fort Lauderdale, FL, 33309, or by fax at (954) 876-0062. The comment period closes on July 8, 2021 upon final action taken by the Broward MPO Board.

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Persons who require special accommodations under the Americans with Disabilities Act or persons who require translation services (free of charge) should contact Erica Lychak, Title VI Coordinator at (954) 876-0058 or Lychake@browardmpo.org, or via Florida Relay Service 711 at least seven days prior to the meeting. For complaints, questions or concerns about civil rights or non-discrimination please contact: Erica Lychak, Title VI Coordinator at the numbers or e-mail above.

EL DINERO DE SUS IMPUESTOS TRANSFORMADO EN TRABAJO
Programa de Mejora del Transporte (TIP) para el Periodo fiscal 2022-2026

Por la presente, se notifica que la Organización de Planificación Metropolitana de Broward (la MPO de Broward) celebrará reuniones públicas y considerará la aprobación del Programa de Mejora del Transporte (TIP) para el Periodo fiscal (FY) 2022-2026. El TIP es un documento de mandato federal que describe los proyectos y programas de transporte que serán financiados por los gobiernos federal, estatal y local y las agencias de transporte durante un período de cinco años en el área de Broward.

Las reuniones públicas previas a la consideración del TIP por parte de la Junta de la MPO de Broward se llevarán a cabo durante las siguientes reuniones programadas regularmente, proporcionando al público tres oportunidades para hacer comentarios:

- **Comité Asesor Técnico el miércoles 23 de junio de 2021, a las 2:30 p.m.**
- **Comité Asesor de Ciudadanos el miércoles 23 de junio de 2021, a las 6:00 p.m.**
- **Junta Directiva de la MPO de Broward el jueves 8 de julio de 2021, a las 9:30 a.m. (Acción final tomada)**

Todas las reuniones mencionadas anteriormente se llevarán a cabo de manera híbrida (serán parcialmente virtuales). Si bien es un requisito que los miembros de la Junta y del Comité asistan físicamente a estas reuniones híbridas para lograr el quórum (se requiere el uso de mascarillas en el edificio), se alienta a los presentadores y al público en general a participar de manera virtual. Todas las reuniones se celebrarán en la sala de la Junta de la MPO de Broward, situada en el edificio Trade Centre South, 100 West Cypress Creek Road, Suite 650, Fort Lauderdale, FL 33309. Para obtener la información más actualizada sobre las reuniones y para inscribirse y acceder a las mismas de manera virtual, visite https://browardmpo.org/agendas-minutes o https://browardmpo.org/calendar.

Envíe sus comentarios para que sean públicos a **info@browardmpo.org** al menos 24 horas antes del comienzo de la reunión.

Este aviso también pretende satisfacer los requisitos del Programa de Proyectos de Tránsito del Programa de la Fórmula del Área Urbanizada de la Administración Federal de Tránsito.

Se invita al público a revisar y comentar el TIP propuesto. El TIP estará disponible para su visualización al menos 30 días antes de la reunión de la Junta Directiva de la MPO de Broward del 8 de julio de 2021. El TIP propuesto podrá consultarse en las ocho (8) Bibliotecas Regionales del Condado de Broward (para una lista de direcciones de las bibliotecas llame al 954-876-0033 o visite el sitio web abajo) y en el sitio web de la MPO de Broward que podrá encontrar en: www.BrowardMPO.org en la pestaña ***"What We Do"*** y ***Transportation Improvement Program [Plan de mejora del transporte]*** o directamente en https://www.browardmpo.org/core-products/transportation-improvement-program-tip

DRAFT

La MPO de Broward organizará un taller público virtual para dar a conocer el TIP y para permitir comentarios públicos y su discusión el 15 de junio de 2021 de 6:00 p.m. a 7:00 p.m. Para registrarse, visite: https://www.browardmpo.org/core-products/transportation-improvement-program-tip o https://browardmpo.org/calendar.

Para más información sobre el TIP o para solicitar una copia, póngase en contacto con el (954) 876-0061, o envíe un correo electrónico a restrepoc@browardmpo.org Envíe sus comentarios por correo electrónico a restrepoc@browardmpo.org; por correo a la oficina del MPO de Broward a 100 West Cypress Creek Road, Suite 650, Fort Lauderdale, FL, 33309 o por fax al (954) 876-0062. El período de comentarios cierra el 8 de julio de 2021 tras la acción final tomada por la Junta de la MPO de Broward.

Se solicita la participación pública sin distinción de raza, color, nacionalidad, edad, sexo, religión, discapacidad o estado familiar. Las personas que requieran adaptaciones especiales bajo la Ley de Estadounidenses con Discapacidades o las personas que requieran servicios de traducción (sin cargo) deben comunicarse con Erica Lychak, Coordinadora de Título VI al (954) 876-0058 o por correo electrónico a Lychake@browardmpo.org o a través de Florida Relay al 711 al menos siete días antes de la reunión. Para quejas, preguntas o inquietudes sobre derechos civiles o la no discriminación, comuníquese con: Erica Lychak, Coordinadora del Título VI a los números de teléfono o el correo electrónico anteriores.
